PHENOMENA.

There will be four Eclipses of the Sun in 1859, neither of them visible in Ceylon ; and two of the Moon, the first of which only, a total Eclipse, will be visible at Colombo, on the 13th of August.

Beginning of Eclipse	7h.	55 m. P.M.
———— of total Eclipse	9	00
2nd of total Eclipse	10	46
End of Eclipse	11	50

Duration of Total Eclipse, 1 hour 46 minutes.

COLOMBO TIME.

Ceylon being so far towards the East or Sun-rising, it is already mid-day here when it is morning in England. The day here is farther advanced than at Greenwich 5 hours 19 minutes and 33 seconds, which must therefore be added to the time in England to give the time here.

The quantities given under the head "Sun's Declination" are to the nearest minute, and those under "Equation of Time" to the nearest second. By these data, with the use of a pocket sextant, the time may be readily obtained to within four seconds. Those whose objects require greater accuracy will most probably be provided with a Nautical Almanac.

THE WEATHER.

COLOMBO.—The along-shore wind (a strong parching wind from the N. E.) often continues to blow the greater part of this month night and day. It carries off the moisture of the ground and the skin rapidly, and gives rheumatism, &c. to those who expose themselves incautiously to it. Therm. Max. 89. Min. 72.1. Mean 79.8.

TRINCOMALIE.—Fine weather throughout; wind N. E. but more moderate. Occasional land wind after midnight and very cold. Therm. Max. 83. Min. 72. Mean 79.

THE WEATHER.

COLOMBO.—The dry earth now receives far more heat from the sun than it parts with by evaporation or terrestrial radiation. The weather is becoming very warm. Notwithstanding the alternate sea breezes by day and land winds by night, the heat is oppressive compared with that of the rest of the year. Therm. Max. 88·1. Min. 74. Mean 81·8.

TRINCOMALIE.—Fine weather throughout, wind more moderate and veers round to E. N. E. and East with morning land wind. Towards the end of the month the weather becomes warm. Therm. Max. 86. Min. 72. Mean 81.

Account of the Calendar.

The JULIAN or COMMON CIVIL YEAR* is that which is employed in chronology. is in effect a solar year, commonly containing a certain number of whole days, odd hours and minutes being set aside to render the computation of time in the concerns of life more easy, and consists of 365 days or 13 months, 1 day; or 52 1 day, for three years together: but every fourth year a day (or in the four 6 hours for each year) being added to February, it then contains 366 days; called *bissextile* or *leap year*, consequently the mean Julian year, will be 365 6 hours.

The MEAN SOLAR, ASTRONOMICÄL, TROPICAL, NATURAL, or EQUINOCTIAL YEAR is true standard of time, and is the period of time in which the earth performs a revolution about the sun, or passes from the first point of *Aries* to the same point of *Aries* again; and has been assumed, according to Bessel (see *Connat des Temps*, 1831, Additions, p. 154.), equal to 365²⁴²²¹⁸ mean solar days = 35h. 48m. 47⁶³⁵²⁸.

Although the Julian method of intercalation, is perhaps the most convenient could be adopted; yet, as the science of astronomy advanced, the length of astronomical year was found to be shorter than the Julian correction supposed 11m. 12³⁶⁴⁸⁸. it could not, without correction, very long answer the purpose which it was devised, namely, that of preserving always the same interval of between the commencement of the year and the equinox, and thus would a degree of confusion be introduced into the relative divisions of the year, and be deductive of great inconvenience: at length it was discovered that an error of one too much would take place in 129 years (for as 11m. 12³⁶⁴⁸⁸ : 1 year : : 1d : but in the time of Cæsar the length of the year was an astronomical element very well determined. In the course of a few centuries, however, the equinox sensibly retrograded towards the beginning of the year in consequence of the precession of the equinoxes. When the Julian calendar was introduced, the equinox fell on 25th of March; at the time of the Council of Nice, which was held *Anno Domini* 325, it fell on the 21st of March. This imperfection of the calendar was noticed as early as the time of the Venerable Bede; but the reformation of it did not take place till many centuries after: *Petrus ab Alliano* and *Cusa*, two learned Cardinals, not only pointed out these imperfections to the Councils of Constance and Lateran, but suggested the means for its correction; and in A. D. 1474, *Pope Sixtus the 11th* engaged *Regiomontanus*, an eminent mathematician, in this project of reform, though from the circumstance of the death of *Regiomontanus* the project was not carried into effect. And when the reformation was made, in 1582, the equinox had retrograded to the 11th of March; therefore, in order to make the calendar more correct, *Pope Gregory the XIIIth* invited *Clavius* and *Ciacconius*, the most celebrated astronomers and mathematicians of the age, with others, to superintend the reconstruction of the calendar: they having found, that by introduction of the bissextile days, a difference had arisen of ten days between the calendar and actual time, owing to the odd minutes and seconds which bissextile year occasioned the calendar to exceed the true period of the sun's progress, the *Pope* then issued a brief, in the month of March 1582, in which he abolished the use of the ancient calendar. And in order to restore the commencement of the year to the same place in the seasons that it had occupied at the time of the Council of Nice, Gregory directed the day following the 4th of St. Francis, that is to say, the 5th of October, to be reckoned the 15th of that month. By this regulation the vernal equinox, which now happened on the 11th of March, was restored to the 21st. This last amendment of the calendar having taken place under the direction of *Pope Gregory the XIIIth*, was, out of respect to him, called the *Gregorian* or *New Style*, in opposition to the *Julian* or *Old Style*, and has been adopted by almost every Christian nation. *Gregorian Style* was immediately acceded to by all those parts of Europe which were under the papal authority, but the Protestants adhered to the *Julian* with obstinate pertinacity; and the Protestants of Germany have the credit of having first rectified such inconsistency, by throwing eleven days out of the calendar in 1700; while it is worthy of remark, that the Russians, regarding

* The first Julian year commenced with the first of January of the 46th before the birth of Christ, and 708 from the foundation of the city of Rome.

propriety, still adhere to the Julian style, and therefore, by another centurial leap-year having occurred, viz. in the year 1800, they now differ from us 12 days in their date of time. Now as the error of the Julian intercalation was found to amount to three days in 400 years, he ordered intercalations to be omitted on all the centenary years, excepting those which are multiples of 400. According to the Gregorian rule of intercalation, therefore, to know when it is *bisextile* or *leap year*, divide the year by 4, and the remainder shews how long it is after leap year; if nothing remains it is leap year, excepting the centurial years, which are only leap years when divisible by 4 after suppressing the two zeros. Thus 1600 and 2000 are leap years, because 16 and 20 are divisible by 4; but 1700, 1800, and 1900 are common years, and so on, because 17, 18, and 19 are not divisible by 4, but these would have been leap years by the Julian calendar. As the Gregorian method of intercalation has been adopted in all Christian countries, Russia excepted, it becomes interesting to examine with what degree of accuracy it reconciles the civil with the solar year; therefore the only thing in the correction of the calendar that requires a high degree of mathematical science is the determination of the length of the astronomical year; yet this has never been perfectly ascertained. Had the mean astronomical year been more accurately determined in the time of Julius Caesar, the Julian correction would, probably, have superseded the necessity of the Gregorian. Although the Gregorian calendar is far preferable to the Julian, yet it is not without its defects (perhaps, as *Tycho Brahe* and *Cassini* imagine, it is impossible ever to bring the calendar to a perfect justness). According to the latest determinations of modern astronomy, the *mean solar year* consists of 365 d. 5 h. 48 m. 47.6352 s., or 365.242218 d. Now the Gregorian rule gives 97 intercalations in 400 years; 400 years therefore contain $365 \times 400 + 97 = 146097$ days, and consequently one year contains 365.2425 days or 365 d. 5 h. 49 m. 12 s. This exceeds the true solar year by 243648 seconds, which amount to a day in 3646 years; for as $243618 \text{ s.} : 1 \text{ year} :: 1 \text{ d.} : x$. It is perhaps unnecessary to make any formal provision against an error which can only happen after so long a period of time; but as 3546 differs little from 4000, it has been proposed to correct the Gregorian rule by making the year 4000 and all its multiples common years. With this correction the rule of intercalation is as follows:—Every year, the number of which is divisible by 4, is a leap year, excepting the last year of each century, which is a leap year only when the number of the century is divisible by 4; but 4000, and its multiples, 8000, 12000, 16000, &c., are common years. Thus the uniformity of the intercalation by continuing to depend on the number 4, is preserved; and by adopting the last correction the commencement would not vary more than a day from its present place in 31250 years. For as the Gregorian intercalation gives 97 days in 400 years, consequently in 4000 years 970 days would be intercalated; but one day is now omitted at the end of every 4000 years, therefore only 969 days are intercalated, consequently the civil year will be $365 \text{ d.} + \frac{969}{4000} = 365.24225 \text{ d.} = 365 \text{ d.} 5 \text{ h.} 48 \text{ m.} 50.4 \text{ s.}$; but this exceeds the mean solar year by 27648 seconds, and it would require 31250 years to make the beginning of the civil and tropical year be a day apart, for as $27648 \text{ s.} : 1 \text{ year} :: 1 \text{ d.} : x$.

From the year 1582 to 1700 the difference between the old and new style continued to be ten days; but 1700 being a leap year in the Julian calendar, and a common year in the Gregorian, the difference of the styles during the eighteenth century was 11 days. The year 1800 was also common in the new calendar, and consequently the difference in the present century is twelve days, and so will continue till the year 1900, and from 1900 to 2100 will be thirteen days, and at every centesimal year, which is not exactly divisible by 4, will be an increase of one day more, excepting 4000 and its multiples. In Great Britain the alteration from the old to the new style was for a long time successfully opposed by popular prejudice, but the inconvenience had been so generally felt in matters of history and chronology, that at length, in 1751, an Act of Parliament was passed for the adoption of the new style in the year following, in all public and legal transactions under the crown. The difference of the two styles, which then amounted to eleven days, was removed by ordering the day following the 2nd of September of the year 1752 to be accounted the 14th of that month, whereby that month consisted of only nineteen days: and in order to preserve uniformity in future, the Gregorian rule of intercalation respecting the secular years was adopted.

THE SIDEREAL OR ASTRAL YEAR is the time elapsed from the sun's quitting a particular fixed star to its return to the same fixed star, again, and it exceeds the solar year by 20 m. 19.9561 s., making the sidereal year 365 d. 6 h. 9 m. 7.5913 s.; this difference is called the precession or retrograde motion of the equinoxes, by which

the fixed stars gain about 50.1 seconds in right ascension every year; consequently the length of a sidereal year can then be determined by no method more obvious or more correct than this:—

As 360 *deg.* 50'.1 s. : 365 d. 5 h. 48 m. 47.6352 s. : : 360 *deg.* : 365 d. 6 h. 9 m. 7.5913 s.

The ANOMALISTIC YEAR is the interval which is occupied by the sun in passing from *apogee* to *apogee*, or from *perigee* to *perigee*; it is greater than the sidereal year by the time required to describe the annual progression of the apogee: not the progression of the apogee (its increase of longitude) being 11.8 seconds, therefore the anomalistic year is complete when the sun has described 360 *deg.* 0 m. 118 s. Hence to find the length of an anomalistic year—

As 360 *deg.* : 365 d. 6 h. 9 m. 7.5913 s. : : 360 *deg.* 0 m. 11.8 s. : 365 d. 6 h. 13 m. 51.9263 s.

Therefore the anomalistic year is longer than the sidereal by 4 m. 47.335 s., and longer than the equinoctial by 25 m. 7.2911 s.

Apparent or true time is that which is denoted by the sun-dial, from the apparent motion of the sun, and differs several minutes in certain parts of the ecliptic from the mean time, or that shewn by the clock. The difference is called the equation of time and is set down in the almanac in order to ascertain the true time. This irregularity is produced by two principal causes, viz. the obliquity of the ecliptic to the equator, and the eccentricity of the earth's orbit, and by the small deviations from elliptical motion produced by the moon and planets.

A *lunar month* or *synodic revolution of the moon* is the time between two consecutive conjunctions of the moon, called the change or new moon. This period varies considerably, in consequence of the variation of the eccentricity of the moon's orbit.

A *mean lunation* is, according to Laplace, 29 d. 12 h. 44 m. 2.8032 s., and the excess in each year is 11 days, from which the exact or moon's age at the commencement of any year may be found; and this is used for finding the moon's age at any time in the year.

A *day* is that portion of time in which the earth makes one complete revolution on its axis, and is measured by the interval between two successive transits of any fixed star over the same meridian. The *civil day* is reckoned from one midnight to another, being divided into two periods of hours counted from one to twelve, twice over, among the ancient Egyptians and Romans, with modern English, Dutch, Germans, Spaniards, and Portuguese; but in astronomical calculations, the day is always supposed to begin at noon, and to end at the noon of the following day, the hours being reckoned up to 24. Therefore, if civil time be p.m. it agrees with astronomical time; but if the civil time is a.m., add 12 hours to it, and the sum will be the corresponding astronomical time of the preceding day.

The Hebrew year is reckoned from the Creation, in lunar years consisting of 12 lunar months of 29½ days each and from new moon to new moon. The Jewish year in general contains 354 days.

The Mahomedan era commences with the introduction of the Mahomedan religion by Mahomet. Their year, like that of the Jews, consists generally of 354 days.

The Chinese divide the night and day into twelve equal parts, beginning their reckoning from midnight. Hence their hours are double the length of ours.

The common Chinese year consists of twelve lunar months and their intercalary year has thirteen. Their months have no subdivision, that is, they have no weeks. Their common way of dating is by the day of the month and the year of the reigning Emperor. As for example, *fifth* of the sixth *moon* in the 12th year of the Kia-King.

The moon with which their year commences, is that which falls nearest to the fifteenth degree of *Aquarius*, corresponding to the 3d or 4th of February.

The Chinese have no particular days for religious worship. Their great festival is the first of the year, on which day they shut up their shops, dress in their best clothes, and pay visits.

Explanation of Feasts and Festivals.

THE DAY of CIRCUMCISION, or NEW YEAR'S DAY.—This day was kept as a festival by the Greeks in celebration of the completion of the Sun's annual course, and by the Romans in honor of their god Janus. The Day of Circumcision was instituted in the Christian Church A. D. 487, and introduced into the English Liturgy in 1350 in commemoration of the Circumcision of our Lord Jesus Christ, eight days after his Nativity.

EPIPHANY, TWELFTH-DAY, or OLD CHRISTMAS DAY.—is kept as a festival throughout Christendom in commemoration of the manifestation of the Lord Jesus Christ upon earth. Antiently it was celebrated as the Feast of the Nativity during twelve days, namely, from Christmas unto the 12th day onwards. The first and last of these days were denominated the *greater* and *lesser* Epiphany. The first, on account of the Lord Jesus having on that day assumed the human form; and the second, on account of the appearance of the star which conducted the Wise men from the East to Bethlehem, there to worship the infant Saviour.

CANDLEMAS DAY, PURIFICATION of the VIRGIN MARY.—was antiently called the day of *Christ's Presentation*; and is still kept as a solemn festival in memorial of the humiliation of the Blessed Virgin Mary, who whilst submitting to the Law that enjoined personal purification after childbirth, presented the infant Jesus in the Temple.

SEPTUAGESIMA, SEXAGESIMA, QUINQUAGESIMA, and QUADRAGESIMA SUNDAYS, are so called to signify in even and round numbers, the seventieth, sixtieth, fiftieth, and fortieth day before Easter.

SHROVE TUESDAY.—This day, preceding the first day of Lent, is so called from the Saxon word *Shrive*, to confess; because in antient times, on this day, every person in England was obliged to confess to his own parish priest in his own parish church.

ASH WEDNESDAY, THE FIRST DAY OF LENT.—Originally so called from the custom that prevailed of penitents, when admitted to the Church to express humiliation on account of their sins, appearing clothed in *sackcloth*, and having *Ashes* sprinkled on their heads.

LENT, signifies *spring*. The forty days before Easter, therefore, being observed by Christians as days of humiliation, fasting and prayer, were called the Spring, or Lenten Fast.

LADY DAY,—is celebrated throughout the Christian world under the title of *The Annunciation of the Blessed Virgin Mary*, or the day on which Almighty God sent the Angel Gabriel to announce to her the fulfilment in her person of the prophecies that foretelling the wondrous scheme of salvation, declared a Virgin should conceive and bear a Son, &c.—(See Gen. iii. 15; Is. vii. 14; ix. 6; Mic. v. 2, &c.)—Lady day is also in civil calculation, the 1st of the four quarter-days, as they are called, of the year.

PALM SUNDAY.—The Sunday before Easter, commemorated throughout the Christian Church, as the anniversary of our Saviour's last entry into Jerusalem, when the people took branches of Palm, and went forth to meet him and cried, Hosanna: blessed is the King of Israel, who cometh in the name of the Lord. This day is also called *Passion Sunday*, as the first day of the Passion week.

GOOD FRIDAY, called also **HOLY FRIDAY;** is the day which from the earliest period in the Christian Church has ever been kept in solemn awful remembrance of the Crucifixion of our blessed Lord and Saviour Jesus Christ.

EASTER SUNDAY.—The day on which the Lord Christ rose triumphant from the grave; and since then ever kept throughout all Christendom as a *Great Day*, a *Feast of Feasts*; and a *Sunday of Joy*. In secular transactions it is the most important of all the moveable feasts, as the day on which it falls regulates all the rest.

ROGATION SUNDAY,—the fifth Sunday after Easter, takes its name from the Latin word *rogare*, to beseech; the early Christians having appointed extraordinary prayers and supplications on the Monday, Tuesday and Wednesday succeeding it.

HOLY THURSDAY or ASCENSION DAY, is the day on which the Church celebrates the Ascension of our Lord into heaven.

WHIT SUNDAY, or PENTECOST.—This day is held by the Christian Church as a solemn festival, in commemoration of the descent of the Holy Ghost upon the Apostles on the day of Pentecost. On this day in early times converts to Christianity were most usually admitted to the Church by Baptism; they were baptised clothed in white; hence it became termed *White Sunday*, from which in later times was derived the term Whit Sunday.

TRINITY SUNDAY.—This is the Sunday following Whit Sunday; and on this day, the Christian Church more particularly calls to mind the doctrine of the Holy Trinity.

ADVENT SUNDAY;—commences the season set apart by the Church as preparatory to the festival of Christmas. On this season we are not only called upon to contemplate the inestimable blessings conferred on mankind by the coming of our Lord to “take away the sin of the world,” but also to “prepare for that second coming, when He will appear to “judge the world in righteousness.”

CHRISTMAS DAY, OR THE FESTIVAL OF THE NATIVITY, commemorates the birth of our blessed Saviour—God manifest in the flesh—“to whom be glory and majesty, dominion and power, both now and ever. AMEN.”

Principal Native Festivals.

SINGHALESE.

- 1.—AWURUDU-MANGALLE, the feast of the New Year, April 11.
- 2.—The day of anointing the head with oil after the New Year. This day is fixed by the Astrologer, and is generally celebrated a few days after the New Year.
- 3.—Full moon day of the month *Wesak* (April—May.) The ordination of Buddhist Priests at the Establishments of Kandy and other places generally takes place on this day; as well as pilgrimages to the Buddhist Temples at Kalany and other sacred places in the Island.
- 4.—PERAHARRA, or the *Procession*, formerly celebrated exclusively in honor of the Indian deities Natha, Vishnu, Kotagaram, and Pattini; but incorporated with the worship of Budha in the year 1775. It is held in Kandy and sundry other places in Udunuwera, Yatinuwera, Harispattoo Udupalata, Hewahetta, Matale, Four Korles, Saffragam, Ouwah and Seven Korles; commencing usually from the New and lasting to the Full moon in the month of July.
- 5.—KAARTKA-MANGALLE, the *Festival of Lamps*, celebrated in honor of Maha-Bali, the great mythological hero of India, and consisting of a general illumination for one night. This is a Kandyan Festival, and is not observed in the Maritime Provinces.
- 6.—ALOOTSAAL MANGALLE, the *Festival of New Rice*. This is also a Kandyan Festival, celebrated in the month of January.
- 7.—Pious Buddhists also regard the Full, New, and First and Last Quarters of the Moon as holidays, and in general devote them to religious and devotional purposes.

Weights and Measures.

1. MEASURE OF LENGTH.

12 Inches	=	1 Foot
3 Feet	=	1 Yard
5½ Yards	=	1 Rod or Pole
40 Poles	=	1 Furlong
8 Furlongs	=	1 Mile
69·1·9 Miles	=	1 Degree of a Great Circle of the Earth.

An inch is the smallest lineal measure to which a name is given, but subdivisions are used for many purposes. Among mechanics the inch is commonly divided into *eighths*. By the Officers of the revenue, and by scientific persons, it is divided into *tenths*, *hundredths*, &c. Formerly it was made to consist of 12 parts called *lines*.

Particular Measures of Length.

A Nail	=	2¼ Inches	} Used for measuring cloth of all kinds.
Quarter	=	4 Nails	
Yard	=	4 Quarters	
Ell	=	5 Quarters	
Palm	=	3 Inches	} Used for height of horses
Hand	=	4 Inches	
Span	=	9 Inches	
Cubit	=	1 Foot 6 Inches	
Military Pace	=	2 Feet 6 Inches	} Used in Land Measure to facilitate computation of the content, 10 square chains being equal to an acre.
Geometrical Pace	=	5 Feet	
Fathom	=	6 Feet—Used in measuring depths	
Link	=	7 Inches 92 hiths.	
Chain	=	100 Links	} Used in Land Measure to facilitate computation of the content, 10 square chains being equal to an acre.
Mile	=	80 Chains	

2. MEASURE OF SURFACE.

144 sq. Inches	=	1 sq. Foot
1296 sq. Inches	=	9 sq. Feet
272¼ sq. Feet	=	30¼ sq. Yards
4356 sq. Feet	=	16 Perches
10890 sq. Feet	=	2½ sq. Chains
43560 sq. Feet	=	1 Rood
3097600 sq. Yards	=	640 Acres

Particular Superficial Measures.

Square of flooring, &c.	=	100 sq. Feet
Rod of Brick-work	=	272·25 sq. Feet
Load of Inch boards	=	600 sq. Feet
Yard of Land	=	5½ Acres
Hide of do.	=	100 Acres

In some places it is customary to allow 324 Sq. Feet to a Rod; sometimes a Rod=21 Feet long and 3 Feet high = 63 Sq. Feet.

3. NAUTICAL MEASURES.

6082·66 Feet	=	1 Nautical Mile
3 Miles	=	1 League
20 Leagues	=	1 Degree
360 Degrees	=	The circumference of the Earth.

A Degree of the Meridian in the latitude of England at the medium of 52° was found by Colonel Mudge in 1800, to equal 69·114 English Miles. A sea league is therefore 3·4557 English miles in the same latitude.

4. MEASURES OF SOLIDITY AND CAPACITY.

DIVISION I.—SOLIDITY.

1728 Cubic Inches	=	1 Cubic Foot
27 Cubic Feet	=	1 Cubic Yard
106 18000 Cubic Yards	=	1 Cubic Rod Pole or Perch
64000 Cubic Rods	=	1 Cubic Furlong
512 Cubic Furlongs	=	1 Cubic Mile

Particular Cubic Measures.

A Load of rough Timber	=	40 Cubic feet
Load of Squared Timber	=	60 do.
Ton of Shipping	=	40 do.
Barrel bulk	=	5 do.
Flour of earth	=	321 do.

A Cord of wood=8 ft. long 4 ft. broad, and 4 ft. deep, 128 cubic feet; a stack of wood 12 ft. long, 3 ft. broad, and 3 ft. deep=108 cubic feet; a solid yard of earth=1 load. A cubic foot of water weighs 1000 ounces avoirdupois, or 911 oz. 9 dwts. 4 grs., Troy.

DIVISION II.—CAPACITY.

4 Gills	=	1 Pint	=	34 $\frac{1}{2}$	—	cub. ins., nearly.
2 Pints	=	1 Quart	=	69	—	—
4 Qrs.	=	1 Gallon	=	277 $\frac{1}{2}$	—	—
2 Gall.	=	1 Peck	=	554 $\frac{1}{2}$	—	—
8 Gall.	=	1 Bushel	=	2218 $\frac{1}{2}$	—	—
8 Bush.	=	1 Quarter	=	10 $\frac{1}{2}$	—	cub. feet nearly.
5 Qrs.	=	1 Load	=	51 $\frac{1}{2}$	—	—

The four last denominations are used for dry goods only. For liquids several denominations have been heretofore adopted, viz:—For Beer the Firkin of 9 Gallons, the Kilderkin of 18, the Barrel of 36, the Hogshead of 54, and the Butt of 108 Gallons. These will probably continue to be used in practice. For Wine, and Spirits, there are the Anker, 10, Runlet 18, Barrel, 31 $\frac{1}{2}$, Tierce 42, Hogshead 63, Puncheon, 84, Pipe or Butt, 126, and Tun, 252 Gallons; but these may be considered rather as the names of the casks in which such commodities are imported than as expressing any definite number of Gallons: a Pipe of Claret containing 126; Port 138; Sherry, 130; Lisbon, 140; Bucellas, 140; Madeira, 110; and Vidonia, 120 Gallons. It is the practice to gauge all such vessels and to charge them according to their actual contents.

Flour is sold nominally by measure, but actually by weight, reckoned at 7lbs. Avoirdupois to a Gallon.

A load of corn=5 bushels; a cart load of corn=40 bushels, and 7922 wheat or barley-corns are supposed to fill a pint measure.

5. MEASURE OF WEIGHT.

DIVISION I.—Avoirdupois Weight.

27 $\frac{1}{2}$ Grains	=	1 Dram	=	27 $\frac{1}{2}$ gr. Troy.
16 Drams	=	1 Ounce	=	437 $\frac{1}{2}$ —
16 Ounces	=	1 Pound (lb.)	=	7000
28 Pounds	=	1 Quarter (qr.)		
4 Quarters	=	1 Hundredweight (cwt.)		
20 Cwt.	=	1 Ton.		

This weight is used in almost all commercial transactions, and in the common dealings of life.

The particular weights belonging to this Division are as follows:—

7 Pounds	=	1 Clove	cwt. qr. lb.	
2 Cloves	=	1 Stone	=	0 0 14
2 Stones	=	1 Tod	=	0 1 0
6 $\frac{1}{2}$ Tods	=	1 Wey	=	1 2 14
2 Weys	=	1 Sack	=	3 1 0
12 Sacks	=	1 Last	=	30 0 0

} Used in the Wool Trade.

Several sorts of Silk are weighed by the Great Pound of 24 oz.

Particular Weights.

A Skin of Butter	=	56 lbs.
„ ——— Soap	=	64 „
„ Barrel of Raisins	=	112 „
„ ——— Soap	=	256 „
Puncheon of Prunes	=	1120 „
Barrel of Anchovies	=	30 „
Fodder of Lead		
„ London and Hull	=	19 $\frac{1}{2}$ cwt.
„ Stockton	=	22 „
„ Bawtry	=	21 $\frac{1}{2}$ „
„ Chester	=	20 „
„ Derby	=	22 $\frac{1}{2}$ „
„ Newcastle	=	21 „

The cwt. of Lead at Hull and Chester	=	120	lbs.
Stone of Iron or shot	=	14	"
Butcher's meat in London	=	8	"
in Country	=	14	"
Clove of Butter or Cheese	=	8	"
Suffolk way, 32 Cloves	=	256	"
Essex way, 42 Cloves	=	336	"
Imperial Gallon of Train oil	=	9	"
Truss of Straw	=	36	"
New hay	=	60 to 64	"
Old hay	=	56	"
Load	=	36	trusses.

DIVISION II.—TROY WEIGHT.

24 Grains	=	1	Pennyweight	=	24	gr.
20 Pennywts.	=	1	Ounce	=	480	—
12 Ounces	=	1	Pound	=	5760	—

These are the denominations of Troy weight, when used for weighing gold, silver, and precious stones (except diamonds.)

For scientific purposes the grain only is used; and sets of weights are constructed in decimal progressions from 10,000 grains downwards to 1-100 of a grain.

By comparing the number of grains in the Avoirdupois and Troy pound and ounce respectively, it appears that the Troy pound is less than the Avoirdupois in the proportion of 14 to 17 nearly; but the Troy ounce is greater than the Avoirdupois, in the proportion of 72 to 79 nearly.

The *carat* used for weighing diamonds, is 3 1-6 grains. The term, however, when used to express the fineness of gold, has a relative meaning only. Every mass of alloyed gold is supposed to be divided into 24 equal parts; thus the standard for coin is 22 carats fine, that is, it consists of 22 parts of pure gold, and 2 parts of alloy. What is called the *new standard*, used for watch-cases, &c., is 18 carats fine.

DIVISION III.—APOTHECARIES WEIGHT.

20 Grains	=	1	Scruple	=	20	gr.
3 Scruples	=	1	Dram	=	60	—
8 Drams	=	1	Ounce	=	480	—
12 Ounces	=	1	Pound	=	5760	—

6. FLUID MEASURE, used by Apothecaries.

2 Drams Avoird.	=	60	Minims	}	=	54 11-16	grs. Troy
60 Minims	=	1	Fluid dram				
8 Drams	=	1	Ounce	=	437½	"	
20 Ounces	=	1	Pint	=	8750	"	
8 Pints	=	1	Gallon	=	70000	"	

Irregular Measures.

A table spoonful, *cochlearium magnum*, of syrup, ½ oz.

 of distilled waters, 3½ dr. to ½ oz.

 of spirits and tinctures, 2 dr. to 3 dr.

A dessert-spoonful, *cochlearium medicum*, of water, 2 dr.

A tea-spoonful, *cochlearium parvum*, of-syrup, 1 dr. to 2 dr.

 of distilled waters, 1½ sc. to 2 sc.

 of spirits and tinctures, 1 sc. to 1½ sc.

 of light powder, as magnesia, ½ sc. to 1 sc.

 of a heavy powder, as sulphur, 1½ sc. to 2 sc.

 of a metallic oxide, 1 dr. to 4 sc.

A thimble full, *cyphra metallica prodigiti*, is usually the same as a tea-spoonful.

A tea-cup, *vasculum pro thea*, 3 oz. to 4 oz.

A wine-glass, *scyphus pro vino*, *cyathus*, 1½ oz.

7. ANGULAR MEASURE;

OR, DIVISIONS OF THE CIRCLE.

60 Seconds	= 1 Minute	= 4 Seconds of Diurnal motion the Earth reduced to time.
60 Minutes	= 1 Degree	= 4 Minutes
15 Degrees	= $\frac{1}{4}$ Sign of the Zodiac	= 1 Hour
30 Degrees	= 1 Sign	= 2 Hours
90 Degrees	= 1 Quadrant	= 6 Hours
360 Degrees, or 12 Signs	= 1 Circumference	= 24 Hours.

Formerly, the subdivisions were carried on by sixties; thus the second was divided into 60 thirds, the third into 60 fourths, &c. At present the second is more generally divided decimally into 10ths, 100ths, &c. The degree is frequently subdivided.

The Zodiac is an imaginary belt encompassing the heavens, divided into 12 equal parts of 30 degrees each, called the Signs of the Zodiac. It extends about eight degrees on each side of the Ecliptic, and within it all the motions of the Planets are performed, except those of the new discovered asteroids, Ceres, Pallas, etc.

Signs of the Zodiac, and the Days on which the Sun enters them.

8. MEASURE OF TIME.

60 Seconds	= 1 Minute
60 Minutes	= 1 Hour
24 Hours	= 1 Day
7 Days	= 1 Week
28 Days	= 1 Lunar Month
28, 29, 30, or 31 Days	= 1 Calendar Month
12 Calendar Months	= 1 Year
365 Days	= 1 Common year
365 $\frac{1}{4}$ Days	= 1 Julian Year
366 Days	= 1 Leap year

In 400 Years, 97 are Leap years, and 303 Common.

The same remark as in the case of Angular Measure applies to the mode of subdividing the Second of time.

THE NATIVE DRY MEASURE.

Cut Chaudos.

4	= 1 Cut Measure or Seer
19 $\frac{1}{2}$	= 4 4-5 1 Coornie.
48	= 12 = 2 $\frac{1}{2}$ = 1 Marcal.
96	= 24 = 5 = 2 = 1 Parrah.
768	= 192 = 40 = 16 = 8 = 1 Aminunam.
7200	= 1800 = 375 = 150 = 75 = 9 $\frac{1}{2}$ = 1 Lusr.

The English Bushel is equal to 34 Seers or 1 Parrah and 10 Seers.

THE NATIVE LAND MEASURE.

Lahar

8 = 1 Coornie.

80 = 10 = 1 Peyla.

320 = 40 = 4 = 1 Ammonam.

Among the Natives the extent of Land is defined by the quantity of Seed required to sow it, computed at the Ammonam Measure, and its sub-divisions. In fertile Lands the Seed is not strewed half so thickly as in poor soil; an Ammonam of good ground therefore will sometimes measure twice as many square feet as an Ammonam of poor soil.

BRITISH INDIA.—GOVERNMENT WEIGHTS AND MEASURES.

1 tola = 180 troy grains; 80 tolas = 1 seer, $2\frac{1}{4}$ lbs. troy; 40 seers = 1 maund = 83 2-15th lbs. avoird. (or 100 lbs. troy.) Grain is usually sold by weight throughout India.

Calcutta.—The guz = 1 imp. yard; The Bengal common coss or mile = 2060 yards; $30\frac{1}{4}$ biggan = 10 imp. acres; the factory maund of 40 seers = $74\frac{3}{4}$ lbs. avoird. the bazaar maund = 82 2-15th lbs. avoirdupois.

Madras.—The coid in cloth measure = 18 3-5ths inches; but the English yard of 36 inches is generally used; the cawny in land measure = 57,600 square feet. A about 1 acre, 11 roods and $1\frac{1}{2}$ poles; the garze of 80 parahs or 400 maricals in corn or dry measure = about $16\frac{3}{4}$ imp. quarters or by weight 9256 $\frac{1}{2}$ lbs. avoird.; 20 ollacks = 1 English Gallon; the maund of 8 vis, in measures of weight = 25 lbs. avoird.; the candy = 20 maunds or 500 lbs. avoirdupois.

In Calcutta, Madras, and Bombay, accounts are kept in rupees, annas and pice, thus 12 pice = 1 anna; 16 annas = 1 rupee; $3\frac{1}{2}$ rupees exchange in account for 1 pagoda. In Ceylon accounts are kept in English currency; English weights are in use here, and the long and land measures are the same as in England; the coid is $18\frac{1}{2}$ English inches.

Bombay.—The guz. = 27 inches; the maund of 40 seers = 28 lbs. avoird.; the candy of 20 maunds, each of 40 seers = 5 cwt., reckoned for grain at $24\frac{1}{4}$ imp. bushels; the Surat candy of 20 maunds = 740 $\frac{3}{4}$ avoirdupois.

China.—Measures of Weight... 100 catties = 1 pecul = 133 $\frac{1}{2}$ lbs. avoird.; 16 peculs and 80 chatties = 1 ton; 3 peculs = 400 lbs. avoird.; $\frac{3}{4}$ catty = 1 lb.; 3 catties = 4 lbs. 81 catties = 1 cwt.; 12 taels = 1 lb. avoird. Cloth Measure... 32 coids = 13 imp. yards. Itinerary Measure... Li, 180 fathoms = 632 yards; 200 li = 1 degree.

The Chinese have four different measures answering to the foot; viz.,—

The foot of the mathematical tribunal, English inches.	..	..	13.125
The builder's foot, called konghee	..	..	12.7
The tailor's and tradesman's foot	..	..	13.33
The foot used by engineers	..	..	12.66

United States.—Same as Britain, with former English measures of capacity: a barrel of flour weighs 196 lbs. nett; a barrel of pickled beef or pork 200 lbs.

RULE—Multiply the principal by the rate, both in pounds; multiply the product by the number of days, and divide this last product by 100; then take from the above table the several sums which stand opposite the several parts of the quotient, and add them together for the interest required.

EXAMPLE—What is the interest of 225*l.* 10*s.*, for 23 days at 4½ per cent.

[illegible]

To find what the amount of a yearly income or salary (from 1l. to 1,000,000l.) will come to for one day.

RULE—Collect the tabular sums answering to the given annual income or rent, and add them together for the answer.

An estate of 376*l.* per-annum; what is that per day?

$$\begin{array}{r} 300 = 0.16.5\frac{1}{2}.04 \\ 70 = 0.3.10.11 \\ 6 = 0.0.3\frac{3}{4}.78 \\ \hline 375 = 1.0.7.53 \end{array} \text{ Ans. 1l. 0s. 7d.}$$

VARIATIONS OF TEMPERATURE CORRESPONDING TO ALTITUDE.

As we ascend, the air becomes thin or rare, and as it becomes rare it also grows cold. No fact is better established than this, though, the rate of this cooling of the air as we ascend in it does not appear to be uniform, but to vary in different countries and even in the same country at different seasons. Were we to go by local data we might calculate it thus. The annual temperature of Colombo is probably about $80^{\circ} 5$; that of Kandy is about $74^{\circ} 5$; and that of Nuwera Ellia at an elevation of 6,210 ft. is about 59° ; giving a fall of one degree for every 280 ft. in the former case, and for every 295 ft. in the latter; results which accord very well with observations made elsewhere, and particularly with those which may be deduced from the other sanatoria of India.

ELEVATION above the Level of the Sea of the following Stations in the Island of Ceylon, determined from simultaneous Observations with the Mountain Barometer.

*General Rules framed by the Board of Health and in force in the Western Province. **

SMALL POX CHOLERA, &c.

1. The Police shall make known to the Superintendent of Vaccination, with the least possible delay, the occurrence of any case of Small Pox or any other Epidemic or contagious disease. In the Rural districts such information shall be afforded by the Native Headmen.

2. The Medical Officer appointed to inspect such cases shall, in every instance of Small Pox, give information thereof to the Superintendent of Police, who shall forthwith affix to the door of the house in which the case is found, such mark as shall sufficiently denote the existence of the disease therein.

3. Before such mark shall be removed, the Superintendent of Police shall communicate to the appointed Medical Officer the result of such case or cases of Small Pox, whether in death or in recovery. In either case he will receive instructions from the Medical Officer as to the safety of removing the mark from the house or permitting persons who have been affected to go abroad.

4. The Superintendent of Police shall remove to the Small Pox Hospital established at Maradahn or elsewhere, any case of Small Pox in which he may be required so to do by the owner or occupier of a house or the head of a family, under the conditions of the 8th section of the Ordinance No. 10 of 1852, also all destitute persons affected with the disease, also all persons who may be found in the public streets or thoroughfares with the Small Pox disease upon them.

* Similar Rules are also in force in the other Provinces.

5. In the execution of these duties the subordinate Officers of the Police are enjoined to use all possible tenderness and consideration for the sufferers, and for the religious or other feelings of their relations.

6. The Superintendent of Vaccination shall furnish to the Board of Health such periodical Returns and Reports as shall seem advisable. These will in their principal features correspond with those which the Superintendent of Vaccination has to furnish the Head of the Medical Department.

7. In the event of Cholera becoming epidemic, the Board of Health will communicate to Government such measures as may seem likely to arrest the progress of the disease.

8. The Board of Health will exercise supervision over the Hospitals for Small Pox at Marandahn, or in any other place where it may be deemed requisite to form a similar Establishment. The discipline and economy of such Hospitals shall rest as heretofore with the Principal Civil Medical Officer.

9. The financial arrangements of expenses incurred by Vaccinators shall continue as heretofore to be made by the Principal Civil Medical Officer.

VACCINATION. ..

1. The Board shall solicit from Government such aid from the Medical Sub-Assistants, to be appointed for the duty by the Principal Civil Medical Officer, under the sanction of Government, and of Native Vaccinators, as may be judged necessary.

2. No person shall be employed in a public capacity, who cannot produce satisfactory evidence of having undergone Vaccination or small Pox. The Proprietors of Estates and Manufactories, Heads of Families, and of Mercantile Establishments, are urged to adopt a similar precaution.

3. All Government Schoolmasters shall ascertain, previous to the admission of any child to their Schools, that the like evidence exists. The same rule is recommended to private Schoolmasters and all others who have the charge of children.

4. The Superintendents of Jails and Hospitals shall ensure the security of the inmates by the practice of Vaccination, in all cases wherein the Medical Officers may deem necessary.

5. The Board, under the authority of Government, shall issue notifications setting forth the advantages of Vaccination, the dangers resulting from its neglect, and the penalties attached to disobedience of the law. They shall call for the support and aid of all Christian Ministers and Catechists, of Moorish and Buddhist Priests, and of European and Native Practitioners. The vigilance and aid of the Native Headmen shall be secured by authority from Government.

RULES FOR THE GUIDANCE OF OFFICERS.

Superintendent of Vaccination and his Duties.—The Superintendent of Vaccination shall generally superintend the labours of the different Vaccinators. He shall, from time to time, during his inspection, satisfy himself that only genuine Lymph is employed by them, and that they perform the operation of Vaccination in a correct and satisfactory manner. He shall take care that the proper returns are forwarded at the periods specified. He shall furnish annually to the Board a detailed Report of the progress of Vaccination in the Western Province.

Medical Sub-Assistants.—The Medical Sub-Assistants engaged in Vaccination duties shall make a Monthly Report to the Superintendent of Vaccination, specifying the number of persons vaccinated by the different Vaccinators employed under them, whose Vaccination they, the Medical Sub-Assistants, have personally inspected. The quality of the Lymph employed in their districts, whether it has suffered deterioration from any cause; and the nature and extent of assistance rendered by the Civil Authorities, particularly the rural Headmen. If they have any communication to make calculated to further the cause of Vaccination, or with reference to the activity and efficiency of the Native Vaccinators, it should be embodied in such Reports.

The Medical Sub-Assistants shall vaccinate twice in the week, other Civil duties permitting. Their Vaccination should not extend to the remote stations, but once a month they should visit all the stations of the Native Vaccinators under them, in order that they may be enabled to make the report above mentioned to the Superintendent of Vaccination. They shall forward to the Superintendent of Vaccination, a weekly numerical return of Vaccination performed by themselves and the Native Vaccinators in their districts, and also a monthly nominal return. All weekly returns should be forwarded to the Superintendent of Vaccination on Mondays, and all Monthly returns should be despatched so as to reach the Superintendent by the 10th of the month.

Native Vaccinators.—Native Vaccinators shall make themselves practically acquainted with the different matters connected with Vaccination, by embracing all opportunities for instruction and improvement. The Medical Sub Assistants under whose direction they are employed, shall report periodically upon their general usefulness, diligence and activity, to the Superintendent of Vaccination. They shall vaccinate four days in each week. They shall forward to the Medical Sub Assistant of their district, or to the Superintendent of Vaccination, where no Medical Sub-Assistant is employed on such duties, a weekly numerical return in the same form as that prescribed for the Medical Sub-Assistants. They shall have one or more Vaccine stations in a village, according to its extent, and shall use their best exertions to promote efficient Vaccination by uniform kindness of manner, by great care in the performance of their duties, and by exhorting the patients to protect the vesicles throughout all stages, so that crusts may be properly formed. At the end of the month the Native Vaccinators shall furnish the Medical Sub-Assistant or Superintendent of Vaccination with a nominal return of Vaccination, in the same form as that prescribed for the Medical Sub-Assistant.

RULES FOR VACCINATING.

1st.—All persons who have not been satisfactorily vaccinated or had the Small Pox are liable to the most severe form of that disease. The protection of all such persons by efficient Vaccination is the object now earnestly desired.

2nd.—If a healthy child be properly vaccinated, by puncture at 8 o'clock on Monday, at the same hour on the following Monday the vesicles will be of a circular form and pearly appearance, well raised from the surface, with a flat top, not a pointed one, and with very little surrounding inflammation. *Such a child, although liable to Small Pox before, is now safe; and such a case should be invariably chosen from which to vaccinate others.*

3rd.—Four small punctures should be made, care being taken that the lymph is inserted under the thin skin.

4th.—The patients and their friends must be urged not to allow the vesicles to be rubbed at any time, so that they may dry and fall off of themselves.

5th.—Punctuality of attendance is essential, to avoid disappointment to patients, and to enable you to judge of the success of your efforts.

6th.—Efficient Vaccination leaves on the arm a distinct though superficial scar, which looks as if pins had been stuck into it. If there are not at least three such marks, or if seven years have passed since the last Vaccination, the person should be re-vaccinated.

Minutes on Pensions.

MINUTE

FOR THE CIVIL SERVICE.

1. UNDER instructions from the Right Hon'ble the Secretary of State. His Excellency the Governor is pleased to direct that the following Rules by which it is proposed that the Civil Service of this Colony shall in future be regulated in respect to Classification, Salaries and Pensions, be published for general information.
2. The Service will be divided into two Branches, to be termed the Senior Branch and the Junior Branch, and the latter will consist of five Classes.
3. A list of the Offices comprised in the several Branches and Classes, and of the salaries attached to them is annexed to this Minute.
4. These Salaries will commence from the 1st July 1843, from which date also will be computed the service entitling the newly added Officers to the periodical increase of Salary incident to their respective Classes.
5. The Pensions of the Civil Servants appointed prior to 1832 will be regulated by the rules hitherto in force, which will remain unaltered.
6. A Civil Servant appointed subsequently to 1832 will be entitled to pension at the following rates and under the restrictions founded upon the Provisions of the Act 4 & 5 William 4. Cap. 21, hereinafter specified.
 - For 15 years' service and less than 20, a Pension equal to four-twelfths of the Salary of his Office.
 - For 20 years and less than 25, five-twelfths.
 - For 25 years and less than 30, six-twelfths.
 - For 30 years and less than 35, seven-twelfths.
 - For 35 years and upwards, eight-twelfths.
 These rates are to be the maximum rates in respect of each period of Service, and may be subject to diminution.
7. No Pension will be granted without the authority of Her Majesty's Government, in order to obtain which Certificates of Service, Age, good Conduct and of the ground of retirement must be submitted to the Secretary of State.
8. No pension will be granted to any Civil Servant who shall be under fifty-five years of age, unless upon Certificate from the Head of the Department to which he may belong, and from two Medical Practitioners, that he is incapable from infirmity of mind or body to discharge the duties of his situation; nor unless he shall have discharged those Duties with diligence and fidelity to the satisfaction of the Head of his Department. And in case the Civil Servant claiming such pension shall be himself the Head of a Department, then such pension shall not be granted unless he shall have discharged the duties of his situation with diligence and fidelity to the satisfaction of the Governor, by whom the same shall be certified to the Secretary of State.
9. The Pension shall be computed upon the amount of the Salary enjoyed by a Civil Servant at the time of his retirement, provided he shall have been in the receipt of the same or in the same Branch and Class for at least three years; otherwise the Pension shall be calculated upon the average amount of Salary received by such person for three years next preceeding the commencement of such Pension.
10. It will be competent to Her Majesty's Government, in cases of peculiar and extraordinary merit, to grant special and higher rates of Pensions than those laid down in the preceding Regulations.
11. No Civil Servant will be held to have an absolute right to compensation for past Services or to any Pension under this Minute, and Her Majesty's Government will retain their power and authority to dismiss any Civil Servant from the Service without compensation.

12. In consideration of the claim to pension hereby established, an abatement at the rate of five per cent. will be made from the Salary of every Civil Servant appointed since 1832, to commence from the 14th February last.

13. The claim of a Civil Servant to Pension will be considered to have commenced from his first permanent appointment to any of the Offices in the List annexed to this Minute.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 3d July 1845.

P. E. WOODHOUSE,
Act. Col. Secy.

MINUTE

FOR THE CLERGY AND TEACHERS.

HIS EXCELLENCY THE GOVERNOR is pleased to announce that the Right Hon'ble the Secretary of State has authorized the benefits of the Pension Scheme for the Civil Service of this Colony, laid down in the Minute of 3d July 1845, to be extended to all the Clergy and Ministers of the Christian Religion in Ceylon receiving stipends from the Public Treasury, and to the Masters of the Superior Schools; with the following modification however, in regard to the period at which the claim to Pension should commence.

By the Minute above referred to, the Pension scale in the case of the Civil Servants is fixed to begin at 15 years' service. But as the considerations which led to that regulation do not apply to Clergymen and Schoolmasters, who must necessarily be of mature age before they are appointed, and would enter, immediately on their arrival in the Colony, on the efficient discharge of their respective duties, Her Majesty's Government has decided, that any Clergyman or Schoolmaster who may be compelled to retire after Ten years' service, but under Fifteen, shall be entitled, under the same conditions as are laid down for the Civil Service Pensions, to a Pension not exceeding three-twelfths of his Salary.—After 15 years' service, they will follow in all respects the rules laid down in regard to Pensions to the Civil Service.

His Excellency has further to announce that the following Schoolmasters come within the scope of the regulation hereby established.

Principal of the Colombo Academy.

Mathematical Teacher of do.

Classical Teacher of do.

Teacher of Drawing and Design of do.

Head Master of the Model School of do.

Rector of the Native Normal Seminary.

Head Master of the Central School of Colombo.

Head Master of the Central and Normal Schools of Galle.

Head Master of the Central and Normal Schools of Kandy.

In consideration of the claim to Pension hereby established, an abatement at the rate of five per cent. will be made from the Salary of every one of the functionaries described in this Minute, to commence from 1st July last.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 25th August 1846.

J. E. TENNENT,
Col. Secy.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR desires to correct an omission in the above Minute of the 28th August, by inserting in the List of those entitled to Pension the Officer holding the appointment of Inspector of Schools.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 19th September 1846.

J. E. TENNENT,
Col. Secy.

MINUTE

FOR THE JUDGES OF THE SUPREME COURT.

HIS EXCELLENCY THE GOVERNOR is pleased to announce, that the Right Hon^{ble} the Secretary of State has authorised the establishment of a Scheme of Pensions for the Judges of the Supreme Court of this Island, under the following regulations.

A Judge who is unable, after 15 years' service as such, to continue efficiently to discharge the duties of his Office, will be entitled to a pension not exceeding one-half of his Salary; such pension will not however be increased in consequence of prolonged service beyond fifteen years.

In the event of a Judge being compelled by ill health to retire after a service of 7 years, but less than 15 years, he will be permitted, on producing a Medical Certificate of incapacity to continue in the discharge of his duties, to retire on a pension not exceeding one-fourth of his Salary.

To a Judge who should retire before completing 7 years' service no Pension will be granted.

No Judge will be held to have an absolute right to compensation for past services, or to a Pension under this Minute: and no Pension will be granted without the authority of Her Majesty's Government; in order to obtain which, Certificates of service, age, and the grounds of retirement will be submitted to the Secretary of State.

In consideration of the claim to Pension hereby established, an abatement at the rate of 5 per cent. will be made from the salaries of the Judges of the Supreme Court; to commence from the 14th September last.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 5th December 1846.

J. E. TENNENT,
Col. Secy.

MINUTE

FOR THE GOVERNMENT CLERKS.

1. HIS EXCELLENCY THE GOVERNOR is pleased to direct the publication, for general information, of the following Rules, by which it is proposed that the pensions of all persons employed, or who may hereafter be employed on the Fixed Establishment and Provisional Establishment sanctioned by Her Majesty's Government, of the several Offices and Departments specified in the List annexed to this Minute, and not within the exceptions thereof, and not receiving a Salary less than £25 per annum, shall hereafter be regulated.

2. Every person so borne on the Fixed and Provisional Establishments as aforesaid, will be entitled to Pension at the following rates, and under the restrictions founded upon the provisions of the Act 4 and 5 Wm. 4, Cap. 24. hereinafter specified:

For 15 years' service and less than 20, a pension equal to four-twelfths of the Salary of his office.

For 20 years and less than 25—five-twelfths.

For 25 years and less than 30—six-twelfths.

For 30 years and less than 35—seven-twelfths.

For 35 years and upwards—eight-twelfths.

These rates are to be the maximum rates in respect of each period of service, and may be subject to diminution.

3. No Pension will be granted without the authority of Her Majesty's Government, in order to obtain which Certificates of service, age, good conduct, and of the ground of retirement must be submitted to the Secretary of State.

1. No Pension will be granted to any Person who shall be under fifty-five years of age, unless upon Certificate from the Head of the Department to which

he may belong, and from two Medical Practitioners, that he is incapable from infirmity of mind or body to discharge the duties of his situation; nor unless he shall have discharged those Duties with diligence and fidelity to the satisfaction of the Head of his Department.

5. The pension shall be computed upon the amount of salary enjoyed at the time of retirement, provided the claimant shall have been in the receipt of the same for at least three years; otherwise the pension shall be calculated upon the average amount of Salary received for three years next preceding the commencement of such Pension.

6. It will be competent to Her Majesty's Government, in cases of peculiar and extraordinary merit, to grant special and higher rates of Pension than those laid down in the preceding regulations.

7. No claimant for a pension will be held to have an absolute right to compensation for past services, or to any Pension under this Minute; and His Excellency the Governor will retain his power and authority to dismiss any Clerk or other Public Servant from the Service without compensation.

8. In consideration of the claim to Pension hereby established, an abatement shall be made from the 1st instant, according to the respective rates following; (that is to say,)

From salaries not exceeding the sum of £100, an abatement after the rate of £2, 10s. per Centum;

And from salaries exceeding £100, £5 per Centum;

9. These abatements (which are only applicable to salaries drawn on the Fixed Abstracts, and Provisional Abstracts sanctioned by Her Majesty's Government) will be made by the respective Heads of Departments, and by them remitted monthly to the Treasurer, accompanied by a Statement in Duplicate, in the annexed form, to be attached to the Accounts of that Officer.

10. The claim of a Public Servant to pension will be considered to have commenced from the period of his first permanent appointment on the Fixed Establishment, or Provisional Establishment sanctioned by Her Majesty's Government, comprised in the Schedule annexed to this Minute.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 30th January 1847.

MINUTE

BY THE GOVERNOR.

WITH reference to the Minute of 8th September last, establishing a classification of the Salaries of the Masters of the superior Schools in this Colony, with a scale of periodical augmentations, His Excellency the Governor is pleased to notify that the Right Hon'ble the Secretary of State has sanctioned the addition of the following teachers as a Fourth Class to that Minute.

Teacher of the Female Seminary at Colombo £200	} With an annual augmentation of .. £10 till it reaches £300.
Do. of Consistorial Girls' School at Colombo £200	
Do. of Government School at Mauritius £150	

These increases will commence to be reckoned from the 1st instant.

The Secretary of State has also been pleased to authorise these ladies being admitted to the benefit of the Pension Scheme established by the Minute of the 28th August 1846.

By His Excellency's Command.

Colonial Secretary's Office,
Colombo, 31st July 1848.

J. EMERSON TENNENT,
Col. Secretary.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR having received instructions from the Right Hon'ble the Secretary of State, modifying in certain respects the rules under which Pensions to Public Officers of this Colony are now regulated, under the Minutes of the 3d July 1845, 28th August and 5th December 1846, and 30th January 1847, has directed that the same be published for general information.

1. In assigning superannuation or retiring allowances according to the scale specified in the above Minutes, the increased rates of allowance authorised by those scales after periods of five years' service shall not take effect immediately after the completion of each period; but the authorised rate shall be apportioned according as the service might exceed such completion and approach the next period of increase. Thus, for example, upon a Salary of £120 per annum the maximum allowance authorised by the Minutes after a service of twenty and not exceeding twenty-five years being 5-12ths or £50, the increase of £10 shall be

distributed by annual apportionments between the twentieth and twenty-fifth year of service as follows:

Service	20 years	Allowance	£42
"	21 "	"	44
"	22 "	"	46
"	23 "	"	48
"	24 "	"	50

and in like manner the Minutes authorising the allowance of 6-12ths or £60 for service from twenty-five to thirty years, the apportionment shall be

For	25 years	£52
	26 "	54
	27 "	56
	28 "	58
	29 "	60

and in the same ratio with reference to longer or shorter service.

2. Should the term of service not warrant the assignment of an annual allowance, a gratuity may be granted after the rate of one month's salary for each year of service.

3. The apportioned rates above-mentioned, giving the maximum allowance for the last year of each period to which the scales of the Minutes are adapted, are however only to be granted in cases of decidedly faithful and meritorious service; but where the testimony as to fidelity, diligence and merit, is in any respect defective, a deduction will be made from the apportioned rate, either of one-fifth or of greater or less amount; or the grant of allowance will be altogether withheld, where there has been obvious negligence, irregularity or misconduct.

4. But in cases of special merit, it will remain open to Her Majesty's Government to award the maximum allowance warranted by the scales of the Minutes to the shortest terms of service, or to give such extraordinary recompense as they may deem expedient.

5. The services in respect of which superannuations are granted, ought in all cases to have been continuous, unless interrupted by reduction of office, or other temporary suspension of employment, not arising from misconduct, or voluntary resignation of the party.

6. In case of suspension of employment on reduction or abolition of office, temporary allowances may be assigned according to the above rules; on condition however that the parties receiving the same will be liable to be recalled into service, and with the understanding that they are to be re-employed as opportunity may offer, in preference to new applicants for office.

Colonial Secretary's Office,
Colombo, 12th September, 1849.

By His Excellency's Command,
J. EMERSON TENNENT,
Col. Secretary.

MINUTE

BY THE GOVERNOR.

With reference to the 12th clause of the Minute of the 3rd July, 1845, directing that an abatement at the rate of Five per cent, should be made from the salary of every Civil Servant whose claim to Pension was thereby established, His Excellency the Governor is pleased to direct, under instructions from the Right Hon'ble The Secretary of State, that from and after the first January next, in the case of Officers holding acting appointments, and drawing half of the salary of their fixed office, and half of that of their acting appointment, such abatement shall in future be paid on the amount of the salary actually received by them, instead of on the full salary of their fixed office, as has hitherto been the practice; and that officers absent on leave, shall also in future pay abatement at the above rate, on the half salary received by them.

His Excellency has further to announce, that in the case of all Officers hereafter appointed to the Public Service, taking leave of absence in the regular manner, with abatement of salary, the period of service upon which their superannuation allowance will be calculated, will be at the rate of one month for every two months of such leave.

Colonial Secretary's Office,
Colombo, 1st September, 1852.

MINUTE

BY THE GOVERNOR.

UNDER Instructions from the Right Hon'ble the Secretary of State, His Excellency the Governor is pleased to notify, that the Second section of the Minute of the 15th October, 1838, relative to the remuneration to be granted to an Officer appointed to perform the duties of an absent Officer in addition to his own, is to be considered as superseded for the future, by the following Rule laid down in the Book of Regulations for Her Majesty's Colonial Service:—

"If an office be vacated in any Colony, by the death or removal of the holder, or by his temporary absence, the person appointed by the Governor to act in his stead, if holding an inferior situation, may receive half the salary attached to the higher office, together with half the salary of his own office.

"Should the person so appointed by the Governor to a vacant office, be required at the same time to perform the duties of his own office, he may be allowed half the salary of the temporary office, together with the salary of his own office."

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, August 3rd, 1855.

C. J. MACCARTHY,
Col. Secy.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR is pleased to notify, that in the case of all Acting Appointments in the lower grades of the Civil Service, which may not be held by Writers on the Establishment,—whose case is specially provided for by the Minute of the 3rd March, 1853,—the Officer holding such Acting Appointment will be permitted to draw, in addition to the half salary of the office in which he may be acting, a Contingent Allowance, to make up his salary to £300 per annum.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, July 24th, 1858.

Examinations in Native Languages.

MINUTE

BY THE GOVERNOR.

I HAVE had under my consideration the mode of examining parties desiring to pass an Examination in the Native Languages.

2. It appears to me, that some fixed Rules should be established, defining the nature of the Examination required to be undergone. I therefore propose the following.

3. The Student should be required to translate from two or three of the following works:

In Singhalese.—The Bala Prabhodena.

Histories published by the School Commission.

The Singhalese Regulations of Government.

The Dampiyawa—translated from the Pali.

The Pansiye Panas Jateka.

The Tupawansa.

The Rajawalica.

In Tamil.—The Neethe Venpa.

The Kural.

The Thesavalame or Country Law of Jaffna.

Simon Casie Chitty's Tamil Version of Turnour's Epitome of the History of Ceylon.

The Calladakam,

The Government Ordinances.

The Kambaramayanum.

The Baratham.

4. Translations should also be made from written Olas given by the examiners, also translations of some Cutcherry Papers, of some Leases, Mortgage or other Legal Documents, being usual in the Proceedings of Courts of Justice.

5. All Translations should be fairly written, sealed and sent to the Colonial Secretary.

6. The Student should then be required to translate a Fable from English into Singhalese or Tamil, as the case may be, and to translate part of an Ordinance.

7. The Student should be able to write the Native character well and with fluency.

8. He should be able to write Letters and Orders in the Native language on Judicial and Revenue matters.

9. The Student should be able to read with ease original communications from Headman and Government Officers, on all Revenue matters, and on all Judicial Reports. Selections from each should be made for this purpose by the examiners.

10. The Student should shew a knowledge of the Grammar of the Language, and be able to parse in it.

11. The Student should be able to converse perfectly and fluently in the Language in which he is examined.

12. I further propose that the Examination should take place half-yearly in the middle of January and the middle of July.

13. That a Board of Examiners should be appointed, consisting of two European Gentlemen, one an Officer of Government, two Native Gentlemen, and a President to be named by the Governor.

The Board should declare whether they consider the Student qualified for the Public Service, and give the character of the Examination passed.

Pavilion, Kandy, May 27th, 1852.

G. W. ANDERSON.

MINUTE

BY THE GOVERNOR.

ON the recommendation of the Board of Examiners, His Excellency the Governor is pleased to sanction the following modifications of the Rules laid down in the Minute of the 27th May, 1852, for the Examination of Candidates in the Native Languages.

There will in future be two Examinations: the first to qualify the successful Candidates for holding a first appointment in the Public Service; the second to qualify him for promotion.

At the first Examination, the Candidates will be required to speak with fluency the colloquial language, to read and explain the printed books published by the School Commission, to read and write such documents as are received into, and issued from Cutcheries, and to understand such Notarial or other Deeds as are commonly produced in Evidence in Courts of Justice.

The reading of the Classical books, a knowledge of Grammar, and Translating from English Authors into Singhalese or Tamil, and of Government Ordinances, whether from English into the Native Languages, or *vice versa*, will form the subjects of a second Examination; which will not be held until twelve months after the first.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, August 15th, 1853.

C. J. MACCARTHY,
Col. Secy.

MINUTE

BY THE GOVERNOR.

1. UNDER Instructions from the Right Hon'ble the Secretary of State, His Excellency the Governor is pleased to notify, that Writers on the Civil Establishment of this Colony will in future date the commencement of their Civil Service, from the period at which they may obtain the Certificate required by the 19th clause of the Minute of the 14th February, 1845, as to their general attainments and proficiency in the Native Languages, and as to their competency to fill an appointment in the Service.

2. From the same period also they will date the commencement of their claim to Pension.

3. The practice at present in force of Writers paying their contributions to the Pension Fund from the date of their appointment as Writers is to be discontinued; and such contribution will in future commence from the date of their obtaining the Certificate referred to in the first clause of this Minute.

4. The Secretary of State has been pleased to direct the adoption of the above Rules respecting the commencement of the Civil Service of Writers, and of their consequent claim on the Pension Fund, in the hope that it will act beneficially in encouraging young gentlemen nominated to Writerships, in more speedily acquiring the knowledge necessary to qualify them for the duties they may be called upon to perform.

Travelling Allowances.

MINUTE

BY THE GOVERNOR.

1. In consequence of representations, made from time to time, by Heads of Departments and others, of the inadequacy of the present rates of allowances to Officers, travelling on Public duty, His Excellency the Governor is pleased to direct, that the Scale hereunto annexed, which has been recommended by a Committee appointed to investigate and report upon the subject, be adopted from the 1st instant, in lieu of those laid down in any former Minutes, in regard to travelling allowances, which are hereby cancelled.

2. It is to be understood, however, as a general rule, that Public Officers, who receive a monthly allowance for the keep of a horse, or horses, will not, in future, be deemed entitled to mileage, or travelling charges for journeys not exceeding 15 miles from their place of residence, where the keep of one horse is allowed; or 30 miles where the keep of two horses is allowed.

3. It must be understood also, that, in admitting travelling allowances, it will not in all cases, be deemed necessary to sanction a daily charge, for every day the applicant may be absent from his usual station, or place of residence.

4. In cases where any Officer, included in Classes I., II., and III., is detained from home, for more than one day, although the distance travelled falls short of 10 miles, it may be made a matter of reference to Government, whether the daily allowance should be drawn; but it will be incumbent on the party to shew, that such protracted absence was required for the interests of the Public Service.

5. Full explanation must also be furnished in case of an Officer's lengthened residence, at any station, during a tour on duty.

6. Officers will, in applying for the payment of their travelling allowances, furnish a brief statement of the object of the journey.

7. Assistants, and subordinate Officers having occasion to travel on Public duty, will, when practicable, previously communicate with the Head of the Department: and the Governor trusts to the discretion of Heads of Departments, in giving their sanction to charges of this nature, which may be submitted for their approval.

8. Officers travelling on public duty between Colombo and Kandy, and Colombo and Galle, (with the exception of the Judges and Officers of the Supreme Court, and the Law Officers of the Crown, when travelling on Circuit,) will be allowed, as heretofore, the cost of a seat in the Mail Coach, to and from those places, in addition to the rates of allowances, specified in the Scale hereunto annexed.

9. When an Officer is removed from one station to another, by order of Government, it will be competent for him to apply for an allowance to cover the reasonable expenses, to which he may be put in the removal, and it will be discretionary with the Governor to grant an allowance, in the shape of Mileage, which shall in no case exceed five shillings a mile.

Colonial Secretary's Office,
Kandy, 21st June, 1858.

By His Excellency's Command,
C. J. MACCARTHY,
Colonial Secretary.

Scale of Daily Allowances to be paid to Public Functionaries travelling on Public duty.

CLASS I.—The Colonial Secretary.—£2 5s. per diem, when travelling ten miles from his residence.

CLASS II.—The Queen's Advocate (when not on circuit); the Treasurer; the Auditor General; Government Agents; Surveyor General; Civil Engineer and Commissioner of Roads; Principal Civil Medical Officer; Principal Collector of Customs; Deputy Collector of Customs at Colombo; Principal Assistant Colonial Secretary.—£1: 10s. per diem, when travelling 10 miles from their respective residences.

CLASS III.—District Judges; Postmaster General; Assistant Government Agents; Assistants to Civil Engineer and Commissioner of Roads; Assistants to Surveyor General; Superintendent, Botanic Garden; Inspector of Schools; Collector of Customs at Galle.—£1 per diem, when travelling ten miles from their respective residences.

CLASS IV.—Police Magistrates; Justices of the Peace; Coroners and Deputy Coroners, being Justices of the Peace; Superintendents of Vaccination; Assistant Collectors of Customs; Singhalese and Malabar Interpreters to the Governor.—15s. per diem, when travelling five miles from their respective residences.

CLASS V.—(Drawing Salaries and Allowances of not less than £30. per annum) Sub-Collectors of Customs; Secretaries of District Courts; Clerks, Interpreters and Translators of Public Offices; Storekeepers, Accountants, &c.; Modliars, Mohandirams, and Principal Headmen; Shroffs and Assistant Shroffs; Draftsmen; Assistants and Inspectors of the Police Department.—8s. per diem, when travelling two miles from their residences.

No Native Headman will be entitled to this Allowance, when travelling within his own Division.

CLASS VI.—(Drawing Salaries and Allowances exceeding £12., and less than £30. a year) Clerks; Translators; Mohandirams, and Native Headmen; Native Writers; Assistant Shroffs and Conicopies.—3s. per diem.

No Native Headman will be entitled to this Allowance, when travelling within his own Division.

CLASS VII.—(Drawing Salaries exceeding £9., and less than £12. per annum.) Head Messengers; Money Counters; Police Serjeants; Subordinate Headmen.—8s. per diem.

This Allowance will not be paid to any subordinate Headman, when travelling within his own Division.

CLASS VIII.—Tide-Waiters; Peons; Process Servers; Messengers; Police Constables.—In the Central Province, 1s.: in the other Provinces, 9d. per diem.

Special Allowances.

Superintendents of Police, when travelling 5 miles from their residences—a shilling a mile, going and returning.

Medical Sub-Assistants, Deputy Coroners, (not being Justices of the Peace,) and Surveyors not paid by the work, when proceeding 4 miles from their residences—Nine pence a mile, going and returning.

Vaccinators, ditto, ditto—Six pence a mile, going and returning.

Fiscals, Deputy Fiscals, and the Private Secretary to the Governor, to be reimbursed the actual expenses incurred by them.

Officers travelling on public duty between Colombo and Kandy, and between Colombo and Galle, will be allowed the cost of a seat in the Mail Coach (if they travel by it) from one station to another, in addition to the rates of Allowances specified in the scale attached to this Minute. On occasions when any Public Officer proceeds to a place and returns on the same day, or when the exigencies of the Public Service require the use of a hired conveyance, he shall be allowed the hire of a carriage, and tolls at the established rates, under the following restrictions:—

Any officer included in Classes I. and II. shall be allowed to make such charge only in cases where he proceeds beyond 10 miles from his residence.

Any officer included in Classes III. and IV. shall be allowed to make such charge only when he proceeds beyond 5 miles from his residence.

Other officers, such as Interpreters, Clerks, &c., who are entitled, in the opinion of the Head of the Department, to such means of conveyance, shall be allowed to make the charge, when proceeding beyond the gravets or limits of the town in which they reside.

Officers in receipt of Horse Allowances are excluded from the operation of the above Rule.

Whenever a journey can be more expeditiously or cheaply performed by water than by land, Public Officers will be allowed to charge the hire of boats or vessels employed in the transport of themselves and their baggage. In such cases, the Daily Allowances specified in the preceding Schedule will not be granted in addition to carriage or boat hire, except when the officer has been subjected to extraordinary expenses in the prosecution of his journey, which should be made matter of special representation to Government.

Scale of Daily Allowances to be paid to the Judges and Officers of the Supreme Court, as fixed by the Governor's Minute of the 1st August, 1856.

	NORTHERN CIRCUIT.	MIDLAND AND SOUTHERN CIRCUITS.

ART-UNION OF LONDON.

441, WEST STRAND.

PRESIDENT:—The Right Hon. the Lord Monteagle.

George Godwin, Esq., F. R. S., F. S. A., 24, Alexander-square, Brompton; and Lewis Pocock, Esq., F. S. A., 20, Upper Gower-street.—Honorary Secretaries.

Thomas Simons Watson, Esq., B. A.—Assistant Secretary.

THE ART-UNION OF LONDON has for its object, to promote the knowledge and love of the Fine Arts, and their general advancement in the British Empire, by a wide diffusion of the works of native artists; and to elevate Art, and encourage its Professors, by creating an increased demand for their works, and an improved taste on the part of the Public. It is under the direction of a Council of the Members, whose services are honorary, and four of whom retire from office every year.

Subscribers of One Guinea are members of the Society for the year for which the subscription is paid. The subscriptions are devoted to the purchase of Pictures, Drawings, Enamels, Sculpture, Medals, Engravings, and other works of Art.

Mr. Rusbridge, United Service Library,
Honorary Secretary for Ceylon.

ART UNION OF GLASGOW.

(Instituted 1841.)

Hospital from 1st October 1857 to 1st October 1858, 48.

This Society is supported by Monthly subscriptions of residents of the town of Trincomalie, with the occasional liberal contributions of Officers of the Navy visiting the station, and further by an annual grant of £25 from Government.

The Society has a substantially built and commodious Hospital, with 12 beds, in which the indigent sick are gratuitously treated, fed and clothed, to which is attached a general Dispensary (established June, 1846,) in which medicines of all kinds are furnished gratis to pauper applicants recommended by any member of the Society, and medicines are further sold to the community at large, for a barely remunerative profit on their cost price at Apothecaries Hall, London, from which establishment fresh supplies are annually received.

The Medical Attendant and Dispenser resides on the Hospital premises, and is accessible at all hours of the day and night.

From Ceylon to Alexandria 75*l.*; Do. to Malta, 85*l.*; Do. to Marseilles, 90*l.*; Do. to Gibraltar, 90*l.*

The intermediate rates of Passage money between India and China and *vice versa*, for Reserved Cabins, will be regulated by the Company's Agents, according to the class of accommodation required.

The rates for reserved accommodation from Gibraltar and Marseilles to India and China, and *vice versa*, are 5*l.* less for each First Class Passenger than the Southampton rates, and from Malta to India, &c., and *vice versa*, 10*l.* less for each First Class Passenger.

N. B.—The rates fixed for Native servants from Suez and intermediate Ports to India and China, and *vice versa*, will include the passage back, should the First Class Passenger wish his servant to return to the Port of Embarkation. Two-thirds of these rates to be charged for the single passage only.

The Company do not undertake to convey Second Class Passengers in their Vessels from Southampton and Suez to India, &c., except under special circumstances. All Second Class Passengers by the Company's Steamers will have to Berth and Mess with the servants of the ship and those of First Class Passengers.

INDIA AND CHINA. *Intermediate Passages. Fares*—Reduced rates for Return Passages within four months.—An allowance of one-fourth of the ordinary rate of passage money may be made to Passengers making the Return Voyage within Four months from the day of landing, on satisfactory proof being given as to the identity of the Passenger, and of having paid the full rates one way.

Baggage.

First class Passengers are allowed in the Company's Steamers only, on either side of the Isthmus, 3 cwt. of personal Baggage free of Freight, and children and servants 1 cwt. 56*lbs.* each.

The charge for extra baggage is at the rate of £1 per cwt. between England or Malta and Alexandria; and £2 per cwt. between Suez and India.

Passengers for India and China will have to pay the Egyptian Transit Administration in Egypt 14*s.* per cwt. for conveyance of luggage, should it exceed 3 cwt. each for First class Passengers, and children and servants 1½ cwt. each.

The Egyptian Transit Administration will not forward any package of baggage exceeding 80*lbs.* weight, and measuring more than length 3 feet—breadth 1 ft. 3 in.—depth, 1 ft. 2 in., with the Passengers to Suez. A departure from this regulation will cause a detention in Egypt to such packages of a fortnight.

Every package of Baggage should have the owner's name and place of destination distinctly painted upon it.

Passengers taking Parcels or articles of merchandise in their baggage will incur the risk of seizure, by the Customs' authorities, and of detention for freight by the Company's Agents.

* * The Peninsular and Oriental Company contract on requirement by the proper Officer, to convey to and from and between any of the places to which any of their vessels are to proceed, a limited number of Officers in the Navy, Army or Civil Service, with or without their wives and children, at rates never exceeding two-thirds of the rates charged for ordinary Passengers of a similar description.

Overland Route,—via Trieste.

The Austrian Lloyd's Steam Navigation Company despatch a first class Steamer direct to Trieste, after the arrival at Alexandria of Passengers by each Steamer from India.

Fares, 1st class (inclusive of all charges)	£16
2d class	 11
3d class (Deck)	 7
Children under 10 years,	Half fares
Children under 2 years,	Free

Parties who engage passage in India thereby secure priority in the choice of accommodation.

There are now so many Railroads open through Germany that London may be reached from Trieste in 6 days with comfort, at a cost varying from £12 to £15, inclusive of Hotel charges, &c. &c.

To Travellers who proceed through the Continent without unnecessary stoppages, the following is the expense of the journey from Ceylon to London.

From Ceylon to Suez	 £67
Expenses of Transit through Egypt	 16
Alexandria to Trieste	 16
Trieste to London ...	 12
	£103

Of these expenses all except the portion from Trieste to London may be paid in Ceylon.

Except when there is a Plague or Cholera in Egypt, Passengers land at Trieste, without detention for Quarantine.

BAGGAGE.—Under arrangements recently made with the Peninsular and Oriental Steam Navigation Company, such baggage as Passengers proceeding to England *via* Trieste, may not wish to carry with them across the Continent, will be forwarded to Southampton per P. & O. Company's Steamer at a charge of 10s. per cwt.

All articles, subject to duty, brought by passengers to Trieste arriving from Alexandria, can, if desired, be cleared on board, upon payment of the Customhouse duty thereupon; for this purpose, a Customhouse officer specially appointed will proceed on board immediately the Ship arrives. Their baggage can also be furnished at once with the customs seal on board, if the traveller wishes to proceed without interruption from Trieste to Vienna.

Such articles as are to be sent after the owner from Trieste on the Continent, can (if the same are packed up in such a manner, that the prescribed official enclosure may be placed upon, and a guarantee being given for the import duty in case of a transgression) be declared under the head "*goods in transit*," and thus cleared on board by the Customhouse officer. All sealed letters must be delivered to the said officer, to be forwarded through the Post Office. Any further directions required to be observed, will be given by the officer entrusted with the examination of the baggage on board of the Steamer.

PASSPORTS.—Great facilities have been granted of late by the Austrian Authorities with regard to the Passport system of travellers passing through the Austrian dominions. The Passport will have only to be exhibited and visé in future by the Police Authority at the Austrian frontier (Bodenbach and Trieste or vice versa.)

The Passport for English travellers returning from India is obtainable at the Office of the British Consulate at Alexandria, for the voyage to England *via* Trieste. Such Passports must be visé at Trieste at the Police Office, and may at once be countersigned by the Consuls of those States through which the traveller passes.

* A very dry parching wind prevailed the greater portion of this month; the days have been hot, but the mornings and nights usually very cool and agreeable.

† The weather this month has been extremely hot during the day, and the nights were disagreeably oppressive; the mornings usually cool.

‡ The weather throughout this month has been very hot and dry, the nights particularly so; there has been a good deal of thunder and lightning. Nothing remarkable occurred.

§ This month has been very hot. The S. W. Monsoon set in during the last week. Generally speaking, a healthy month, although Cholera made its appearance for a short time, and carried off some of the European and Native Troops.

|| The weather has been extremely agreeable, cool, and light showers nearly every day. A good deal of sickness has prevailed both in the Fort and Native Town, principally fever, and amongst the Natives, Cholera.

¶ The weather has been tolerably cool during this month. Nothing particular has occurred, nor has there been any disease particularly prevalent.

** The weather during this month was cool and pleasant, with very little rain. There was not much disease prevalent.

†† This month was unusually dry, but the weather generally very agreeable; and there was no particular disease prevalent.

‡‡ The weather during the first half of this month was most oppressive, but the latter half very agreeable and pleasant. Cholera prevailed to an unusual degree in the Southern districts of the Island.

§§ On the whole, this was a pleasant month, with plenty of rain in the night. A Comet seen in E. N. E. on the 9th, and disappeared on the 16th. Tail about 15° long, set in W.

|| This was a very pleasant month. Abundant showers of rain, which generally fell in the afternoon and at night, accompanied with thunder and lightning, rendered the atmosphere agreeable.

¶¶ This month has been very unhealthy, in consequence of the prevalence of a disagreeable, dry, parching wind, called here the "Long Shore Wind." The nights and mornings have been cool, and the days for the most part hot and oppressive.

Ports and Harbours.

PORT OF COLOMBO.

This part of the Coast of Ceylon is low, with some isolated hills at a distance in the country. On the northern side of the Town of Colombo the ground rises a little, and is covered with lofty Cocoanut and other trees, which are generally seen coming from seaward before the Light house or Flag Staff.

The high mountain having on it a sharp cone, called Adams Peak, bears from Colombo E. $\frac{1}{2}$ S. distant 46 miles. It rises 7,420 feet above the level of the sea, and in clear weather has been seen at the distance of 30 leagues. In the N. E. monsoon, it is generally visible in the morning, and sometimes throughout the day; but it is rarely seen in the S. W. monsoon through the humid atmosphere which prevails in that season.

A brilliant light is exhibited every night from a Lighthouse near the Flag Staff of the Fort. The height of the light above the sea is 97 feet, and it may be seen in clear weather until intercepted by the horizon. It is in latitude $6^{\circ} 56' 6''$ North and in longitude $79^{\circ} 49' 48''$ East.

About 7 miles off shore there is a steep bank of coral and sand with 15 fathoms of water over it. It is not more than half a mile broad, but extends several miles in the direction of the coast. About two miles to the westward of the banks soundings are obtained in 28 fathoms water on greenish sand, and close to it there are 23 fathoms. After passing over the bank the water suddenly deepens to 25 fathoms on sand, and from thence the depth gradually lessens as the shore is approached. At three quarters of a mile S. W. by W. $\frac{1}{2}$ W. from the Lighthouse lies the northern and shallowest part of a bed of rocks called the "Drunken Sailor," on which the sea generally breaks, the depth of water being only 6 feet. This ledge is about 100 yards in length, but with the exception of about twenty yards of the northern part, there are 4, 5, and 6 fathoms on it. In the N. E. monsoon, when the sea is smooth and the breakers are not seen, it is prudent not to come within 9 fathoms water, as there are 8 fathoms close to the rocks. The passage within the ledge is clear with 7 fathoms on sandy bottom, but the position of these rocks is so near the shore and so much to the southward of the usual anchorage, that no advantage can be gained by steering near them at any time. The currents off Colombo are subject to considerable variation, particularly at the changes of the monsoon, when they are the strongest; but generally there is not so much current as to inconvenience shipping having to communicate with the shore without coming to anchor.

The greatest difference between high and low water recorded at Colombo is not more than 2 ft. 10 inches. In the S. W. monsoon when the mean level of the Ocean is the lowest, the difference between high and low water is from 5 to 15 inches. On those days when the difference between high and low water is not more than 6 inches, the rise and fall has been observed to take place four times within 24 hours.

The anchorage ground is very good in Colombo roadstead, particularly in 7 and 8 fathoms, with the Lighthouse bearing S. S. E. and the Dutch Church E. by S. $\frac{1}{2}$ S. In the N. E. monsoon merchant ships frequently anchor in 6 $\frac{1}{2}$ fathoms with the Light house bearing S. $\frac{1}{2}$ E. and the Dutch Church E. by S. $\frac{1}{2}$ S.

Whenever a Pilot is required on board, the charge for his services is 15 shillings. From the Custom House point a shifting sand bank, or bar, extends to the N. N. W. about 200 fathoms, on which the depth of water is sometimes not more than 7 feet. Small vessels that draw 9 feet water moor within the bar, and are protected by it and the Custom House point from the S. W. wind and sea.

When the sea is high it breaks with great force on the bar and renders the passage to and from the shipping in the outer roads dangerous for small boats. The boats belonging to the Port and native boats pass out and in to the southward of the breakers on the bar, by keeping as close as possible to the breakers on the rocky point, round which is the landing wharf. But this passage should not be attempted by a stranger when the sea breaks heavily on the bar: it is then more safe to pass to the northward of the breakers. The anchorage off Colombo is so much frequented at all seasons of the year, that little need be said about it. It may however be as well to mention, that in the S. W. monsoon it is prudent to ride with a long scope of cable, as sometimes the squalls are

strong. Commanders of ships should take special care to secure the small iron pins in their chain cables, as the constant pitching motion caused by the S. W. monsoon swell, has very frequently worked out the small iron pins by the beating of the cables on sandy bottom. Hard wooden pins dipped in white lead have been used successfully, instead of iron ones, by some of the regular trading ships.

J. STEWART, *Master Attendant.*

PORT OF POINT DE GALLE

Point de Galle Lighthouse in Latitude $6^{\circ} 1' 45''$ N., Longitude $80^{\circ} 16' E.$ stands at the southern angle of the Fort, which is built on a rocky peninsula; several rocky islets lay off the Lighthouse, one of which (named Pigeon Island) has 3 Coconut trees on it; the harbour is to the eastward of the Fort; watering point at the opposite side of the entrance, bearing from the Lighthouse E. by S. $\frac{1}{2}$ S. 1 mile; it is considered safe at all seasons, but many rocks having from 3 to 20 feet water are scattered over the entrance and inside, rendering it necessary for Vessels to take a Pilot; the outermost of these rocks having 12 feet water on it, bears from the Lighthouse about S. by E. $\frac{3}{4}$ E. $\frac{1}{2}$ mile.

The best anchorage in the roads is to the S. W. of these rocks, in*from 15 to 18 fathoms water, with the Lighthouse on* with the Haycock, or the Church with Pilot's tree; or, if the marks cannot be distinguished, the Lighthouse bearing from N. by E. to N. N. E. about 1 mile off shore:

S. W. by W. 3 miles from Galle Lighthouse there is a rocky Bank called Gallehoogalle Bank, nearly a mile in extent, having in one place only 16 fathoms water, the general depth on it being 18 to 22; inside this bank there is 29 fathoms and close to it outside, 30 to 35.

Bellows Rock which always breaks, bears from Galle Lighthouse S. 50 E. $2\frac{1}{2}$ miles, and from Danawatty Point (the extreme of the high land forming the East side of Galle Harbour) S. S. E. $\frac{3}{4}$ E. a large $\frac{1}{2}$ mile, there is 10 fathoms water close to* the Rock on the outside.

Gindura Rock, which is very dangerous, lies about 2 miles directly off the mouth of the Gindura River, and bears from Galle Lighthouse W. by N. $\frac{1}{2}$ N. $4\frac{1}{2}$ m.: (it is called by the natives *Medda* Rock;) there is only 9 feet water on its shoalest part 4 and 5 fathoms about a cable's length from it all round, and 15 fathoms $\frac{1}{2}$ m. outside: Onnawatty Point kept open outside the breakers of the Whale, clears on the outside; or, the extreme of the land to the Northward kept open of some rocky islets situate close to the shore about 6 miles to the northward of Gindura Rock.

The Whale bears from Galle Lighthouse W. 4° N. $2\frac{1}{2}$ miles, and is nearly $1\frac{1}{2}$ mile from the shore; it always breaks, but in fine weather only once in 4 or 5 minutes, so that a good lookout is then necessary when passing it; there are 7 fms. water close outside, 12 fms. $\frac{1}{2}$ mile, and 20 fms. $\frac{3}{4}$ mile off.

The Little Whale, a small rock above water with 7 fms. close to all round, lies about half way between the Whale and Galle Lighthouse on the same line of bearing.

The Haycock, a high conical mountain conspicuous from seaward is a good land mark for this part of the Coast; it bears from Galle Lighthouse N. by E. $\frac{1}{2}$ E. distant about 20 Miles.

J. H. TWYNAM, *Master Attendant.*

THE HARBOUR OF TRINCOMALIE.

TRINCOMALIE, situated on the east side of the Island of Ceylon, contains a most spacious safe harbour, and with its small bays and coves is perhaps superior to any in India. Every part of the harbour is land-locked, the anchorage good for any number of Ships and of any burthen.

Back Bay from the 1st of April to the 25th October is also an excellent anchorage with from 10 to 5 fathoms water good holding ground, sea quite smooth, so that the smallest boats may land. Fort Frederick forms the S. E. point of the bay, the Flag-staff there is in Latitude $8^{\circ} 35' 38''$ N. and Long. $81^{\circ} 14' 52''$ E. A good light which can be seen 15 miles off is exhibited at the Flag-staff every night soon after sun set; it is 206 feet above the level of the sea, and serves to guide Ships by night clear of the rocks off Pigeon Island to the north and the shoals off Poul Point to the S. E., as well as to lead them to an anchorage in Back Bay. Pilots for the inner harbour are necessary, as there are dangerous

shoals outside and inside; but Back Bay is quite safe. Vessels may lie within 1-3d of a mile from the Custom House in 5 fathoms water. The Custom House is opened for business on the 1st of April and continues until 25th of October when all is changed to the Custom House in the Inner Harbour.

A New Light was exhibited at Flag-staff Point Trincomalie on the night of the 1st Oct. 1813, and is continued every night from sun-set until day light.

The Lantern having a fixed light with two powerful reflectors, when hoisted, is 206 feet above the level of the sea. The Light can be seen 15 miles off from any bearing between Pigeon Island and Foul Point comprehending an angle of 140 degrees.

The following remarks are published for general information:—

Latitude of the Light	8° 35' 38" N
Longitude from Madras Flag-staff	0 58 22 E
Longitude from Greenwich	81 11 52 E
Variation of the Compass	0 59 37 E

Foul Point bears from the Light S. 55° E. distant 5½ miles, and the extreme of the reef off that point S. 60° E. nearly 5 miles.

Ships coming from the S. E. with a fair wind at night and having made the Light should on no account in passing Foul Point bring the Light to bear to the northward of W. N. W., that bearing will take a Ship more than half a mile to the northward of the reef and in not less than 14 fathoms water. If it is intended to anchor in Back Bay (which Ships may safely do between the middle of March and 25th October) and having brought the Light to bear W. N. W. they may steer directly for it rounding Flag-staff point close (the point being steep to) and anchor in 10 fathoms water with the Light bearing about S. b. E., small Vessels may anchor in 6 or 7 fathoms water with the Light bearing S. E. b. E.

From the Light the outside visible Rock of Pigeon Island, distant about 9 miles, is in a direct line with Elizabeth Point, bearing N. 15° W. Ships coming from the northward and wishing to anchor in Back Bay should be cautious not to bring the Light to bear to the eastward of south; that bearing will lead 2 miles to the eastward of Pigeon Island and nearly a mile to the eastward of the Lively Rocks. These Rocks lie half a mile to the eastward of Elizabeth Point having 4 fathoms water close to. When quite sure of being to the southward of the Lively Rocks, ships may bring the Light to bear S. by E. and anchor in Back Bay as before directed.

After the 25th October the anchorage in Back Bay is not safe until the middle of March, as there is frequently towards the end of October before the North East monsoon sets in, a heavy swell with variable winds. Ships should not attempt the Inner Harbour during the night except under most favourable circumstances, such as good moon-light and having a person on board possessing local knowledge of the Harbour and the entrance to it. In such a case and being abreast of Flag-staff Point the Light kept N. N. W. ½ W. will lead clear of Chapel Rocks. The extreme Rock which is under water, bears from the Light S. 18° E. distant 2 miles.

JOSEPH HIGGS, Master Attendant.

INSTRUCTIONS FOR NAVIGATING THE GULF OF MANAAR.

Some few years since it was considered a hazardous undertaking for a Vessel of any size to proceed far up into the Gulf of Manaar, the more particularly during the S.W. Monsoon, when it was supposed to be impossible to beat *But* again. Later experience, however, has shewn that no dangers exist that may not be avoided by ordinary care and attention; and that as regards working to windward against the Monsoons, no difficulty will be experienced if the following instructions be attended to.

In the N.E. Mon-oon, that is, from November to March inclusive, fine weather, with land and sea breezes, will be found to prevail on the Ceylon side of the Gulf, where good anchorage may always be selected between Colombo and Chilaw, at 1½ to 3 miles off shore, in 6 to 9 fathoms. sand. Vessels wishing to beat up during the first three months ought therefore to keep over on that side till they have advanced sufficiently far to make certain of their port if-bound to the Indian coast, as the breezes there may be expected to blow steadily and strong N.N.E. with a strong lee current. In rounding the Cape Comorin at this

time the Indian shore may be kept on board till abreast of Manupand Point, a high promontory, with a small white Church erected on its summit. A Vessel may then stretch across with advantage, and probably in the next tack fetch Tuticoreen, the only port on the Indian coast frequented by large Vessels.

Small Vessels of light draught will also find this the easiest method of working up; and if bound to Paumben had better keep the Ceylon shore till abreast of Calpentin, which they may know by the three long hills of Kodramallai, the only ones near the coast. They can then stand across, and make Paumben either by the eastern channel between the Island of Ramisseram and the Reef and Island south of that port, or by the western channel between Freshwater and Anapaar Islands at Valinookum Point.

In the S.W. Monsoon a Ship ought to keep over on the Indian side till near Manapand Point, when she will generally be able to fetch to windward of Colombo, and be clear of all dangers. The only safe place for Vessels of size to anchor in on the Ceylon coast, during this Monsoon, is at Colombo, where the current from the Kalany Gunga or Mutwall River, running to windward, takes much of the strain off the cables of Vessels riding there. Should one nevertheless part, or find it necessary to slip, she may seek safety by standing across the Gulf to Tuticoreen, which, being situated on the weather side, affords good shelter and anchorage. A fixed light, seen 8 or 10 miles off, was erected on Hare Island at this port last year with a view to facilitate the approach to the anchorage during the night; and the instructions relative to it are herewith republished.

Small craft working down from Paumben will do well to keep inside the Islands till they reach the Western entrance of the inland navigation at Valinookum Point. They can now work down near the coast as far as Manapand Point, when their fetching Colombo on the starboard tack may be considered certain.

Colombo Flagstaff, which is close to the lighthouse, is in $6^{\circ} 56' 6''$ North latitude, and $79^{\circ} 56' 6''$ East longitude. The anchorage, as given by Captain Stewart, the Master Attendant, is in 7 to $8\frac{3}{4}$ fathoms during the S.W. Monsoon, with the lighthouse S.S.E. Easterly, and the Dutch Church, a large building in the bottom of the bay, the upper part of which having a thatched bellry may be seen over the houses of the Town, bearing E. by S. In the N.E. Monsoon Vessels may anchor farther in, with the light S. $\frac{1}{2}$ E. and the same Church E.S.E. in $6\frac{1}{2}$ to 7 fathoms, sand and mud in each position. The Drunken Sailor, a patch of rocks about 100 yards long and 20 broad, with only 6 feet over it in some parts, is situated 1,150 yards S.W. by W. $\frac{1}{2}$ W. of the Flag-staff, and 1,000 yards off the nearest shore. It has from 6 to 9 fathoms close round it.

The Harbour, which is only used by small craft, is well protected during the S.W. Monsoon by the Custom House Point, behind which they anchor in $2\frac{1}{2}$ to $3\frac{1}{2}$ fathoms, sand, with it bearing from S.W. to W.S.W., and Mutwall Point N. by E. to N.N.E. A sandy spit extends from the first-named Point in a northerly direction, with $1\frac{1}{2}$ to $2\frac{1}{2}$ fathoms over it and 5 to 6 fathoms close outside. To avoid this the Dutch Church ought to be kept E. by S. $\frac{1}{2}$ S. till the Custom House bears S. by W.

Negombo Fort, off which Vessels may shortly have to anchor for the purpose of shipping Sugar the produce of estates lately brought under cultivation in its vicinity, is in $7^{\circ} 12' 9''$ North latitude, and $79^{\circ} 53'$ East longitude. The best anchorage is a mile off shore, with the Fort about East, Northerly, just clear of Negombo rocky point, in $6\frac{1}{2}$ to 7 fathoms, sand; but as this sand is not deep, and the stream of the Negombo Lake, which empties itself here, sets to the North, I would decidedly warn Vessels from anchoring here during the S.W. Monsoon, or from May to August, inclusive. Rocks awash extend from the Point N. by W. $\frac{1}{2}$ W. for 4.0 yards, and the ledge may be then traced in the same direction, with 3, 4, and 5 fathoms over it for $2\frac{1}{4}$ miles further, till it terminates in a coral patch, having 9 to 12 feet over it. $2\frac{1}{2}$ miles off shore. Small craft can cross this ledge, and anchor in 2 to 3 fathoms, with Negombo Point S.W. $\frac{1}{2}$ W., and the Fort S.E. by E., from $\frac{1}{4}$ to $\frac{1}{2}$ mile off shore.

Chilaw Bungalow, in $7^{\circ} 34'$ North latitude, and $79^{\circ} 51' 29''$ East longitude, may be known by its high red tiled roof, seen 8 or 9 miles off in clear weather. On the Charts now extant some rocks are placed near this at some distance from the shore, but they were found to be not more than $\frac{3}{4}$ of a mile off, and consequently cannot be considered as forming any obstacle to general navigation. They are situated 5 miles due North of the Bungalow; and are in a line between it and the next Point. Twenty-one miles North of the Bungalow uneven soundings on rock, to as little as $3\frac{1}{4}$ fathoms are found from 3 to 4 miles off shore, with 6 and 8 fathoms immediately outside. Vessels of size therefore ought to be careful not to come within this distance of the land hercabuts, although small craft can at all times go over the shoal.

Dutch Bay, in $8^{\circ} 19'$ North latitude, and $79^{\circ} 50'$ East longitude, is well sheltered from all winds, but more particularly from the S.W., which are the strongest on the coast. Vessels can anchor here in $2\frac{1}{2}$ to 3 fathoms, stiff mud, close inside the neck of sand that forms the Western side of the Bay, with a Coconut tope and house called Paringethoray bearing S.S.W. The only dangers in the approach to it are a rocky patch, with $2\frac{1}{2}$ over it at low water, 2 miles W.S.W. of the North end of the neck of sand before mentioned, and some shoal water 3 miles N.N.W. off the same Point, and $2\frac{1}{2}$ miles West of some Palmyra trees, a few of which are leafless, on the Island of Karateero. This last extends North and South about 2 miles, with an average breadth of one, having from 3 feet to 3 fathoms, with a small patch of sand, generally dry, due West of the above trees. There are 4 to 5 fathoms to the Eastward of this reef, but no person, without being well acquainted with the coast, ought to attempt the passage inside. From seaward the North end of the neck of sand ought to be brought to bear S.E. $\frac{1}{2}$ E. when it can be steered for, and passed within 50 yards, carrying 3 to 4 fathoms, sand.

Very good anchorage in the S.W. Monsoon may also be found under the lee of Kodramallai Point, in $9^{\circ} 32'$ North latitude, and $79^{\circ} 56'$ East longitude, which may be known by the three long hills seen over the low land of Karateero. In steering for this anchorage, the North end of the hills ought to be kept about E. by S. till well past the island, when the anchor may be let go in $2\frac{1}{2}$ to $3\frac{1}{2}$ fathoms, sand, with the rocky promontory bearing S.S.W. to S.W., $\frac{1}{2}$ to $1\frac{1}{2}$ mile off.

No Vessels ought to proceed on the Ceylon side further towards the head of the Gulf than this, as there are many shoal places, at some distance from the shore, and no good holding ground. In the S.W. Monsoon a strong current is found setting to the Northward over Adam's bridge, which abates as the Indian coast is approached; and a confused sea is generally found to prevail near Manaar.

The Eastern entrance to Paumben is in $9^{\circ} 15' 30''$ North latitude, and $79^{\circ} 17'$ East longitude. Some small islets are situated at the East end of the reef between which and the island of Ramisseram the channel leads. A pole has lately been erected on the Northern limit of the shoal water inside these islets, between which and Ramisseram deep water is to be found. The south end of the cut through the horse-shoe bank, by which Vessels have to pass in going through the Paumben channel, bears from this pole E. by N.

A fixed light has lately been exhibited at Paumben, seen 11 to 12 miles off in clear weather, respecting which directions have been separately published, and which are recommended to the notice of Mariners frequenting the port.

The Western entrance to Paumben is situated in $9^{\circ} 9'$ North latitude, and $78^{\circ} 40'$ East longitude, lying between Valinookam Point, on the Main coast of India, and the small island of Anapaar, which last must not be approached nearer than a mile till the South end bears South of East.

The passage will then be entered, when a straight course for Keelakarry at N.E. by E. may be kept, care being taken to avoid some reefs nearly awash which lie off Eravaddy Point, the easternmost limit of the deep bay opposite the entrance just described. Five and six fathoms will be found at this entrance, shoaling to 3 farther in, with an occasional cast of $2\frac{1}{2}$ sand. The best anchorage at Keelakarry is in $2\frac{1}{2}$ to 3 fathoms, stiff mud, with a detached ruin East of the town bearing North, and some large terraced houses N.W. Pilots here come on board to take vessels to Paumben, which lies 26 miles farther to the Eastward; but should a Vessel proceed without such assistance, the following directions must be followed.

Steer for a little outside the next Point (Naagimundel) till a small tope between a hillokk at the mouth of a rivulet and an old ruined temple bears North. Then stand across about S.E. $\frac{1}{2}$ E. for a little outside the West end of the next island (Talliri). This leads over the deepest part of a spit in $2\frac{1}{2}$ fathoms, with 7 feet on each side, where a buoy will shortly be moored to indicate the channel. Two bungalows at the next Point on the Main will now be seen, and when they bear N.E. $\frac{1}{2}$ E. steer E.N.E. till they are passed, when due East will take a Vessel to the buoys on each side of the passage at Ramasawmy's Choultry. To avoid a sandy knoll with only 7 feet over it, the Southern of these buoys ought to bear E. by N. when about $\frac{1}{2}$ mile off; and after passing between them steer about East, for a high beacon erected on a patch of rocks. Leaving this 50 to 100 yards to the Southward, stand on for the North end of the next island, Pulleteero, and round it at about $\frac{1}{2}$ mile off, keeping E.N.E. till the opening between Pulleteero and the next Island bears South; then steer East, and

anchor near the sand bank channel which has a buoy to mark its position. No Vessel drawing more than $6\frac{1}{2}$ feet ought to attempt this navigation without a Keelakarry Pilot.

Tuticoreen Light is in $8^{\circ} 47' 17''$ North latitude, and $78^{\circ} 14' 1''$ East longitude. The following are the directions respecting it before adverted to.

A Vessel making the Port at night may anchor with it bearing from W. N. W. to W. by S. about $1\frac{1}{2}$ to 2 miles off shore, where good holding ground will be found in 6 to $6\frac{1}{2}$ fathoms. At $3\frac{1}{2}$ miles distance with the same bearings the ground is foul, on Pearl banks.

In approaching from the South, the light may be kept about N. N. W. till within 3 or 4 miles, when the above anchorage may be selected; but should a Vessel suddenly deepen her water from 7 or 8 fathoms to 12, 15, or 20, she should immediately steer North till she makes the light, taking care to keep further to seaward if it bears North of N. N. W. The outer part of this deep water lies a little to the North of the head of the Coilnapatani reef, and bears S. by E. 10 miles from the Tuticoreen Light.

From the North a Vessel may keep the light about S. W. till within 3 or 4 miles, when she must steer more out for the anchorage; but in no instance ought the water to be shoaled under $6\frac{1}{2}$ fathoms, excepting with the bearings on for the anchorage, and then not under 6.

In the N. E. Monsoon Vessels should lie with a good scope of cable out, as although the seas are not heavy, they are sharp, and occasion a chain to jerk. The sea breeze at this time blows on the reef, and a second anchor, with chain ranged, ought always to be kept ready for letting go.

In the S. W. Monsoon, which usually lasts from the middle of May to the middle of August, the Port may be made without fear, for although the winds are very violent, they are invariably off shore from W. to S. W. accompanied by smooth water. At this time Vessels may approach the reef to 5 fathoms; but should always have a stream anchor to seaward, as occasionally, during the lulls of the Monsoon, a light air comes in from the Eastward.

As a rule, Vessels of size ought not to approach the land above Tuticoreen nearer than 6 or 7 miles, as $2\frac{1}{2}$ or 3 fathoms are found 5 miles off in some places. When some large clumpy trees at Putturadioor, seen 10 miles off, and when no other object on shore is visible, bear North of West, the shoal water is to the Northward.

There are two channels for small craft into Tuticoreen harbour, but that to the North is so intricate as to be seldom used. The Southern one leads between the southernmost island and the mainland, the reef connecting them being crossed in 12 to 14 feet at distance of $\frac{1}{2}$ to $1\frac{1}{2}$ mile of the island. This being passed, a course may be steered for Devil's Point on the Main, after closely rounding which a small Vessel may stand direct for the town of Tuticoreen, carrying 11 to 9 feet. Before passing Devil's Point $2\frac{1}{2}$ fathoms are found, sand and mud.

At the distance of $2\frac{1}{2}$ miles due East of the Pennacoi tope, a scanty tope to the south of a large ruined building, 9 miles from Devil's Point, is situated the inner edge of an extraordinary natural basin in the rocks, $4\frac{1}{2}$ miles East and West, and averaging $1\frac{1}{2}$ miles in breadth: the outer part being the broadest and deepest. The bottom is composed of fine sand and mud, in 7 fathoms on the Western, to 18 and 20 fathoms on the Eastern extreme, from which it suddenly shoals to 9, 8, and $7\frac{1}{2}$ fathoms on a Pearl bank. In standing up the coast during the night with a scant wind, this is good ground for ascertaining a Vessel's position, as no similar spot exists from Paumben to Comorin. From the outer part, in 15 to 20 fathoms, the anchorage off Tuticoreen bears N. by E. $9\frac{1}{2}$ miles.

Good anchorage in 3 to 4 fathoms, mud, with this tope bearing West 1 to $1\frac{1}{2}$ mile, is to be found here during the Southerly winds under the lee of a reef which commences $2\frac{1}{2}$ miles N. E. by N. of the next point (Coilnapatani), and continues with little exception to Cape Comorin. As far as Manapaud Point this reef varies in its distance from the land from 1 to $2\frac{1}{2}$ miles, but thence to Comorin it seldom exceeds $\frac{1}{2}$ a mile. The head of this reef lies S by W. $10\frac{1}{2}$ miles from Tuticoreen Light.

Trichendore Point, in $8^{\circ} 29' 55''$ North latitude, and $78^{\circ} 9' 51''$ East longitude is 18 miles S. by W. West of Tuticoreen Light, and may be known by its having a high dark Pagoda on its extremity, seen in ordinary weather 12 to 18 miles off.

Manapaud Point, situated $8\frac{1}{2}$ miles S. S. W. $\frac{1}{4}$ W. of the Trichendore Pagoda, is a high sandy promontory jutting out boldly into the sea. It has a small white-washed Church on its summit, visible in clear weather 12 to 13 miles off, which appears at first like a ship under sail. Some foul ground in 4 to 10 fathoms is

situated off this point, extending E. N. E. and W. S. W. 10 miles, with an average breadth of 1 mile.

The following are the bearings of the two shoalest parts:—

Inner shoal part.

Manapaud Church.....	N. 54° W.	5 miles	} 1½ fathoms sand.
Trichendore Pagoda.....	N. 1° W.	10½ "	

Central shoal part.

Manapaud Church.....	N. 54° W.	8 miles	} 1 fathoms sand.
Trichendore Pagoda.....	N. 12° W.	12½ "	

There are many other patches with 5½ and 6 fathoms over which Vessels might pass, yet the safest plan when going between the reef and the Point is not to bring the Church to the West of North till within 2 or 3 miles of it. An E. N. E. course will then take a Vessel out clear.

Cape Comorin, which is placed by Colonel Lambton in his Trigonometrical survey in 8° 4' 35" North latitude, and 77° 34' 46" East longitude, rises in a gradual slope, is covered on the East side with Palmyra trees, and may be easily distinguished by the reddish appearance of the soil, and a large white Choultry situated near the beach. Two large rocks with a small one outside, on which the sea at all times breaks with much violence, stretch to the distance of ¼ mile from the shore. They are steep to and may with a fair wind be approached within ¼ mile in 8 or 8½ fathoms, but with scant wind caution is necessary, as the current sets rapidly round the Point, and may drift a vessel into danger.

The breezes in the Gulf of Manaar are generally stronger than the adjacent coasts, the only moderate months being April and October; yet if the instructions already given be attended to, no difficulty will be found in working up or down against them. The N. E. Monsoon sets in with force about the middle of November, and lasts till the end of January, bringing with it a current of from 20 to 30 miles a day to the S. W. It blows steadily from N. N. E. along the Indian shore, but on the opposite side is modified into land and sea breezes, with very fine weather. In February land and sea breezes commence on the Indian side; and by April the general set of the wind in the Gulf will be found to have drawn round to the Southward, the sea breezes being S. E. to S. W., according to the coast on which they prevail. These now increase in force till about the middle of May, when the regular S. W. Monsoon sets in, blowing with great violence from W. S. W. on the Indian coast, and S. W. on the Ceylon coast, where it commences rather earlier, and is attended with heavy falls of rain, thunder and lightning. In August the strength of the Monsoon abates, but strong Southerly winds are still experienced in this and the next month, becoming lighter as the season advances. Variable and gentle breezes, with smooth water, may usually be expected in October, lasting till the setting in of the N. E. Monsoon, which is ushered in on the Indian side by 15 or 20 days of heavy rain.

The current will generally be found to set with the wind in the strength of the Monsoons; but this is not invariably the case. Care and attention must therefore be paid to the soundings, and unless a good Pilot be on board, a Vessel ought not to shoal her water during the night to less than 12 fathoms above or 18 or 20 fathoms below Manapaud on the Indian coast; or to less than 10 fathoms above and 20 below Colombo, increasing the depth to 40 till abreast of Point de Galle on the Ceylon coast; excepting of course her position be ascertained by the hearing of the light at Tuticoreen or Colombo.

Average high water occurs at 1 p. m. on full and change—ordinary rise and fall 18 to 24 inches—at springs 30 to 36 inches. The flood sets in about E. N. E., and the ebb about S. W., but their direction is greatly influenced by the wind. The variation of the compass may be stated at about 1° Easterly.

All the above longitudes are calculated on the assumption of the Galle Flagstaff being in 80° 16' East.

JOHN J. FRANKLIN,

Late in charge of the Manaar Survey.

Madras, May 21st 1846.

PAUMBEN LIGHT HOUSE.

The facilities for the passage of Vessels through the channels at Paumben, having been considerably increased of late, the following notice is published for general information:—

Paumben Light House is in

Latitude $9^{\circ} 17' 30''$ N.

Longitude $79^{\circ} 12' 34''$ E.

Assuming Galle Light to be in $80^{\circ} 14' 20''$ E.

The light is placed on a column erected on a Hill to the Eastward of the Town of Paumben, is 84 feet above the level of the Sea, and in ordinary weather should be seen from the deck of a small craft, such as usually navigate the Gulf of Manaar and Palks Bay, from 11 to 12 miles off.

In making Paumben from the North during the night, Vessels may run for the light bearing S. W. to E. S. E., keeping rather out in coming from the Eastward, if under 6 fathoms, as the water shoals suddenly after that depth is obtained off the coast of Rami-seram.

The best anchorage is with the light bearing from S. E. $\frac{1}{2}$ E. to E. S. E. $\frac{1}{2}$ mile to 1 mile off, in $3\frac{1}{2}$ to 4 fathoms, sand and mud, good holding ground. The Northern entrance to the Channel, which is indicated by a Black Buoy, will then be from $\frac{1}{4}$ to $\frac{1}{2}$ mile off.

In approaching during the night from the South, care must be taken to avoid the 2 Fathom Rock, from which the light bears N. 14° W. 17 miles, and which has $3\frac{1}{2}$ to 5 fathoms in its immediate neighbourhood. If from the Westward, a vessel ought to bring the light North, and run with that bearing till about 5 miles off, which, after taking her over a rocky ledge having $3\frac{1}{2}$ to $5\frac{1}{2}$ fathoms on, will place her in $5\frac{1}{2}$ to 6 $\frac{1}{2}$ fathoms, mud and sand, about $1\frac{1}{2}$ mile from the reef extending Westward from the shingle Islets. She may then steer N. E. by E. $\frac{1}{2}$ E., till the light bears N. W. by W., when she can run for it till in smooth water, and anchor in 4 to 5 fathoms, sand and mud, between the land and shingle Islets before mentioned.

If the light is made from the Eastward, a vessel ought to keep it N. N. W. $\frac{1}{2}$ W., edging out or to the North a little as she shoals her water to 4 fathoms, to avoid the shingle Islets, the Eastern end of the Reef off which bears from the light S. 24° E. $3\frac{1}{2}$ miles. She may then anchor as before. This course would take her very near a patch of rock with 3 fathoms on, but as the Craft using the Channel are of light draught, no fear need be entertained of striking on it.

These instructions for the South Entrance are intended for the use of Vessels nearing the Port during the S. W. Monsoon. In the N. E. Monsoon the Island of Ramisseram, which may be approached on this side to within a cable's length, becoming a weather shore, the water is sufficiently smooth to allow of Vessels anchoring anywhere, and the bearings above given clearly shew the dangers to be avoided.

The least water in the Paumben Channel at the lowest spring tide is $8\frac{1}{2}$ feet, but as the average rise on this is 26 to 28 inches, and in October, November and December, 30 to 36, and at times even 42 inches, Vessels drawing 10 feet can safely make use of it. Native Pilots are always ready to carry Vessels through; and to obviate any inconvenience which might be felt by Commanders unable to speak their language, a Hindoo-Briton is employed as Head Pilot, whose services will be always available.

By order of the Marine Board,
JOHN J. FRANKLIN, Secretary.

Madras, Marine Board Office,
23rd April 1852.

The Longitude of Madras has been taken from the table at p. 606 of the Nautical Almanac for the year 1854, and as this differs 2' 10" from that given in the Ceylon Almanacs for former years, it has been necessary to add this difference to the longitudes of the places included in the table.

The Officers of Her Majesty's Navy, and the Masters of Merchant Vessels, are earnestly requested to forward, under cover to the Colonial Secretary, any information they may collect, which can tend to increase the accuracy, or extend the limits of the preceding Table.

GENERAL MEMORANDUM.

1. The upper yard is used for notifying the approach of three masted vessels only.
 2. Square flags represent ships and brigs; swallow-tailed, barques; and pendants, schooners and sloops.
 3. The number of masts in the vessel approaching, corresponds with the number of colours in the flag.
 4. Foreign ships are known by the national colour hoisted above the flag denoting the nature of the vessel.
 5. A blue pennant over a flag signifies a ship of war, over the national colour a foreign one.
 6. Balls only denote the number of vessels of the same kind in sight, they are *never* hoisted above the flag they belong to: one denotes two, two three, &c.
-
7. A white flag pierced with a red ball indicates the arrival of the English Mail at Colombo.

Electric Telegraph Rules.

AMENDED RULES for the transmission of Messages by the Electric Telegraph, framed by the Governor and Executive Council, under the 6th Clause of the Ordinance No. 2 of 1837.

1. Messages on the Public Service shall take precedence of all others.
2. No Government Officer shall employ the Telegraph, except on urgent and important occasions, and no Message shall be sent on Service by the Electric Telegraph, unless the saving of time effected by the Telegraph is of real importance.
3. At the seat of Government authority to despatch Messages is vested in the Governor and his Private Secretary. All other Service Messages, Civil or Military, shall be sent under the authority only of the Colonial Secretary, and of the Chief Military Officer, respectively.
4. At Colombo, or Kandy,—whichever place may be the residence of the Governor for the time.—Service Messages will be sent under the signature of the Governor, of his Private Secretary, and of the Colonial Secretary.
5. At other Telegraph Stations, no Service Message shall be sent, unless it be signed by the chief Civil or Military Officer of the Station, each for his own department.
6. The Officer who signs the Message will be responsible for the necessity of sending it by the Telegraph; and if on the periodical inspection of the Station books, it shall be discovered that Messages of a trifling nature have been despatched, the Officer who authorised them will be made to pay for them.
7. Officers whose signature will authorise Messages to be sent free, are bound in honor not to send private communications under cover of that authority.
8. All Service Messages must be conveyed in as few and as short words as possible.
9. *Private* Messages will be received for transmission by Electric Telegraph at the unmentioned rates of charge, and subject to the following Rules.
Messages of 16 words and under, including the name of the sender, the name of the person addressed, the date (if inserted) and the names of the places of despatch and destination (unless they be also the names of Telegraph Stations,) will be sent a single distance along the line for two shillings.
Messages, as above, exceeding 16 words, but not exceeding 24 words, will be sent a single distance along the line for three shillings.
Messages, as above, exceeding 24 words, but not exceeding 32 words, will be sent a single distance along the line for four shillings. And for every additional 16 words or fraction thereof above 32 words, there shall be charged for a single distance, two shillings additional.
A single distance is to be considered 100 miles, or any distance less than that; and for every additional single distance above 100 miles, there will be made an additional charge equal to the charge made on the same message for a single distance.
No charge is made for stops, or for prepositions, or such words as “and Co., Mr., Mrs., &c.” occurring in the address of a Message.
The name of the sender, or the person addressed, and of the place of address, must be written on the face of every Message.
The date may be written, or not, at the option of the sender.
Peon hire at the rate of Six-pence per mile will be charged for extra, if the Message be sent to any place at a distance beyond half a mile from a Telegraph Station.
10. No Message, however brief, will be charged for at less than a single rate, and the reply will in every case be charged for separately.
11. Mercantile or other Messages, involving important results, will only be received on condition of being repeated back from each Receiving Station, and half price will be charged for repetition according to the practice in Europe.
Messages which must be “repeated,” include all those sent on Mercantile, banking and money business of every kind; on law matters, freights, shipping, insurances, and markets.
“Repetition” is also recommended in the case of family messages of special urgency.

12. The sender of a Message may prepay the charge for a reply, which must be limited to the number of words so prepaid for.

13. All Messages must be in the English Language, and must be pre-paid in Cash.—
Peon hire, when it is chargeable, will be recovered by the Office which receives the Message.

14. As a General Rule, no unpaid Message shall on any account be transmitted, except in the cases provided for by Rule 30. But as cases may occur in which parties not provided with money at the time might be subjected to serious loss and inconvenience by their non-transmission, the Assistant in charge will be allowed to exercise his discretion, and to forward unpaid Messages on his own responsibility, recovering the value afterwards. But it must be distinctly understood, that the Assistant will be required to pay into the Treasury, at the beginning of each month, the full value of all Messages transmitted by him during the previous month.

15. Messages in cypher will be charged for at triple rates under special Rules, which may be learned at the different Telegraph Offices.

16. All communications in cypher must also be repeated back to obtain accuracy, and the repetition will be charged for in addition at single rates.

17. Should a Message in cypher be tendered for transmission simultaneously with a Message in ordinary language, the latter will take precedence of the former.

18. Subscriptions for daily Messages of 48 words, or more, will be received at an abatement of one-fourth of the above-named rates.

19. Violation of secrecy on the part of any Officer, Assistant, Clerk, or Signaller in the Telegraph-Department will be punished, in addition to the penalties provided for by the 11th Clause of the Ordinance No. 2 of 1857, by dismissal from office, forfeiture of arrears of pay, and a declaration to be published in the Government Gazette, of the incapability of the offender ever after to hold any Public Office; and it must be distinctly understood, that it will be considered a breach of confidence, subjecting the party offending to the punishment hereinbefore mentioned, to disclose the contents of any Message not intended for publication.

20. Officers in charge of Telegraph-Stations may refuse to transmit a Message which may be of a decidedly objectionable character. Should the character of the Message be disputed, the matter may be referred to the Colonial Secretary, if the dispute occur at the seat of Government; or to the chief Civil or Military Officer, if it occur at any other station.

21. Private Messages shall be transmitted in the order of their receipt in the Telegraph Office. Should two or more Messages be tendered for transmission at the same time, the shortest shall have the precedence, without reference to its relative importance.

22. No Message or Messages, beyond 200 words in all, can be sent at one time by one individual or firm; and no second Message can be sent by the individual or firm, till after the lapse of three hours, unless the line be free, and not required by any one else.

23. Private Messages will, until otherwise notified, only be received between sun-rise and sun-set.

24. It shall be discretionary with the Assistant in charge to exclude Visitors from the signalling room during the receipt or transmission of Messages.

25. News and Messages shall be conveyed in the following order:—

1st. Intelligence of the English Mails.

2nd. Messages for the Press.

No. 6.—*An Ordinance to provide for the taking up of Private Lands for Railway purposes, and to prevent obstructions to the prosecution of Railway Works.*

Preamble.

WHEREAS it is expedient to provide a more expeditious course than that prescribed by the Ordinance No. 4 of 1850, to enable the Government to procure for the Ceylon Railway Company, for the purposes of the Railway, so much of the land as shall not be Crown Land in possession of the Government, and to take means to prevent certain obstructions in the prosecution of the Railway works: IT IS ENACTED BY THE GOVERNOR OF CEYLON, with the advice and consent of the Legislative Council thereof, as follows:

Ordinance when take effect.

1. THIS Ordinance shall commence and take effect from and after the passing thereof.

Whenever lands are required Government must certify.

2. WHENEVER any lands laid down in the plans and sections of the said Railway deposited with Government, shall be required for the purposes of the Railway, or of any of the works connected therewith, and necessary thereto, and the same shall have been satisfactorily made to appear to the Governor and the Executive Council, it shall be lawful for the Governor to issue a certificate in the form A, in the Schedule hereto annexed, accompanied by such plans, maps, and descriptions, as may be necessary to identify the same, to the Government Agent of the Province within which such lands are situated.

Government Agent to notify the same to the owners.

3. UPON receipt of such Certificate, the Government Agent shall affix a notice on the said lands, and cause the same to be published throughout the District to which the lands appertain, in such manner as shall appear to him best adapted for giving the greatest publicity thereto, and the said notice shall require the parties interested in the said lands to furnish, in writing, the particulars of their estate and interest therein, and of any claims made by them in respect thereof; and every such notice shall state the area and such particulars as shall seem to the Government Agent sufficient for the purposes of the notice as aforesaid of the land so required, and that the Government are willing to treat for the purchase thereof, naming the price which the Government Agent may deem a sufficient compensation for such lands.

If owners agree,
conveyance is to
be executed.

4. IF any owner or any of the persons in the 5th clause of this Ordinance hereinafter mentioned, shall be willing to treat with the Government in respect of such lands, and a price be agreed upon within fourteen days after the affixing and publication of such notice as hereinbefore directed, the Government Agent shall pay the price agreed upon, and such persons aforesaid shall, on receiving the purchase money, execute a conveyance in the form B, in the Schedule to this Ordinance annexed, and the said land shall vest in the Ceylon Railway Company.

Who can sell and
convey.

5. IT shall be lawful for one or more of the joint holders of the land holding two-thirds in value of the said land, or their Agents, or for any executor or administrator holding such lands in right of any testator or person intestate, or for any assignee of, holding such lands for any bankrupt or insolvent, or for any trustee holding such lands for any *cestui que trust*; or for any husbands, guardians or trustees holding such lands in right of persons under coverture, or for minors, lunatics, or prodigals, or persons under any other disability or incapacity, or for trustees *de facto* for charitable, religious, or educational or other purposes, holding such lands, or for the officiating minister or chief incumbent, or manager or holder of any Church or Chapel, and the lands thereto belonging, where the same shall not be held by any trustee, to sell and convey lands under and by virtue of the preceding Clause. And the conveyance signed by them shall be good and conclusive against all persons whomsoever, whatever right and title they may have, or claim to have, in the said property, although all persons concerned have not been joined or named therein, nor the title of the joint holders or any of them truly set forth. Provided that nothing herein contained shall prevent any party from recovering pecuniary compensation from such of the vendors as have knowingly concealed his name or defrauded him of his share.

Proviso.

Course where parties do not agree.

6. IF for 14 days after the affixing and publication of such notice as aforesaid, any such landholder or other person aforesaid shall fail to state the particulars of his claim in respect of any such land, or to treat with the Government Agent in respect thereof, or if such landholder or other person aforesaid and the Government Agent shall not agree as to the amount of compensation to be paid for the interest of any such party in such lands, the amount of compensation shall be settled in the manner hereinafter provided for settling cases of disputed compensation.

Reference to arbitration.

7. IF the party claiming compensation desire to have the same settled by arbitration, and signify such desire by notice in writing, or by parol, to the Government Agent, within Fourteen days after the affixing and publication of the notice in the third section mentioned, stating in such notice the nature of the interest in respect of which such party claims compensation, and the amount of the compensation so claimed, the same shall be so settled accordingly; but unless the party claiming compensation shall so signify his desire to have the question of such compensation settled by arbitration, or if, when the matter shall have been referred to arbitration

the arbitrators or their umpire shall, for fourteen days, have failed to make their or his award, or if no final award shall be made, the question of such compensation shall be settled by the Commissioners, as hereafter provided.

8. WHEN any question of disputed compensation has been referred to arbitration, then, unless both parties shall concur in the appointment of a single arbitrator, the Government Agent and the party claiming compensation shall each nominate and appoint an arbitrator, and every appointment shall be made in writing and signed by such parties respectively, and such appointment shall be delivered to the arbitrators, and shall be deemed a submission to arbitration by the parties respectively; and after any such appointment shall have been made, neither party shall have power to revoke the same without the consent of the other, nor shall the death of any of the parties operate as a revocation: and if for the space of twenty-four hours after any such dispute shall have arisen, and after a request made to the other party to appoint an arbitrator he fails to do so, then upon such failure, the party making the request and having himself appointed an arbitrator, may appoint such arbitrator to act on behalf of both parties, and such arbitrator may proceed to hear and determine the matters which shall be in dispute, and in such case the award or determination of such single arbitrator shall be final. Provided however, that nothing herein contained shall prevent the Government Agent acting as arbitrator either solely or jointly with another.

Appointment of arbitrators.
Government Agent competent to act as arbitrator.

9. IF before the matters so referred shall be determined, any arbitrator appointed by either party die, or become incapable, the party by whom such arbitrator was appointed may nominate and appoint in writing some other person to act in his place, and if after twenty-four hours notice from the other party for that purpose he fail to do so, the remaining or other arbitrator may proceed *ex parte*, and every arbitrator so to be substituted as aforesaid shall have the same powers and authorities as were vested in the former arbitrator, at the time of such his death or disability as aforesaid.

Vacancy of arbitrator to be supplied.

10. WHERE more than one arbitrator shall have been appointed, such arbitrators shall, before they enter upon the matters referred to them, nominate and appoint by writing under their hands an umpire, to decide on any such matters on which they shall differ, and if such umpire shall die, or become incapable or decline to act, they shall forthwith appoint another umpire in his place, and the decision of every such umpire on the matters referred to him shall be final.

Appointment of umpire.

Where no umpire is appointed, Commissioners to appoint.

11. IF the arbitrators shall refuse or neglect to appoint an umpire or be unable to agree in one, the said Commissioners shall appoint the umpire.

If single arbitrator dies, reference must be made *de novo*.

12. IF when a single arbitrator shall have been appointed, such arbitrator shall die, or become incapable to act, before he shall have made his award, the matters referred to him shall be determined by arbitration under the provisions of this Ordinance, in the same manner as if such arbitrator had not been appointed.

If either arbitrator refuse to act; the other to proceed *ex parte*.

effectual as if he

13. IF where more than one arbitrator shall have been appointed, either of the arbitrators refuse, or for seven days neglect to act, the other arbitrator may proceed *ex parte*, and the decision of such other arbitrator shall be as effectual as if he had been the single arbitrator appointed by both parties.

If arbitrators make no award umpire may.

such arbitrators shall be determined by the umpire to be appointed as aforesaid.

14. IF where more than one arbitrator shall have been appointed, and where neither of them shall refuse or neglect to act, such arbitrators shall fail to make their award within seven days after the day on which the last of such arbitrators shall be appointed, the matters referred to them shall be determined by the umpire to be appointed as aforesaid.

Arbitrators or umpire may call for documents and examine parties and witnesses.

15. THE said arbitrators or umpire may call for the production of any documents in the possession or power of either party which they or he may think necessary for determining the question in dispute, and may examine the parties or their witnesses on oath and administer the oaths necessary for that purpose.

Arbitrator or umpire to make a declaration.

16. BEFORE any arbitrator or umpire shall enter into the consideration of any matters referred to him, he shall make and subscribe the following declaration; that is to say.

"I, A. B., do solemnly and sincerely declare; that I will faithfully and honestly and to the best of my skill and ability, hear and determine the matters referred to me."

And such declaration shall be annexed to the award when made; and if any arbitrator or umpire having made such declaration, shall wilfully act contrary thereto, he shall be guilty of an offence.

Costs of Arbitration.

17. ALL the costs of any such arbitration, and incident thereto, to be settled by the arbitrators, shall be borne by the Ceylon Railway Company, unless the arbitrators shall award the same or a less sum than shall have been offered by the Government Agent, in which case each party shall bear his own costs incident to the arbitration, and the costs of the arbitrators shall be borne by the parties in equal proportions.

Form of Award.

18. THE arbitrators shall deliver their award in writing, in the form D to the Schedule to this Ordinance annexed, to the Government Agent, who shall forthwith, on demand, furnish copy thereof to the other party to the arbitration, and the same shall be final.

Award to vest land in the Ceylon Railway Company.

Railway Company.

Other claims barred.

19. THE award so delivered with the payment by the Government Agent of the compensation awarded, or deposit thereof, as in the 27th clause hereof provided, shall be taken and considered to vest the land in the Ceylon Railway Company, fully and effectually to all intents and purposes whatsoever, and shall be good and conclusive against all persons whomsoever, whatever right or title they may have, or claim to have in the property, although all persons con-

cerned may not have joined in the arbitration, nor the title of the owners or any of them be truly set forth. Provided that nothing herein contained shall prevent any party from recovering pecuniary compensation from, and he is hereby entitled to recover such pecuniary compensation, from such of the parties who shall have represented themselves as the owners, joint owners, holders or joint holders before the arbitrators, and who shall have defrauded him of his share.

Appointment of Commissioners. 20. FROM the time when this Ordinance shall commence and take effect, it shall be lawful for the Governor, by Commission under the Public Seal of this Island, to appoint five or more persons, of whom the majority shall not be in the service of Government, who shall be the Commissioners for carrying into effect the provisions of this Ordinance, and for executing the several powers hereby conferred upon them; five such shall, for all the purposes of this Ordinance, form a quorum.

Oath to be taken by the Commissioners. 21. EVERY such Commissioner shall, before proceeding to execute the duties imposed on him by this Ordinance, take and subscribe before some Justice of the Peace, the Oath following:—

“I, A. B., do swear that I will faithfully, impartially, and honestly, according to the best of my skill and ability, execute and perform the several trusts, powers and authorities, vested in me as a Commissioner, by virtue of the Ordinance No. 6 of 1858, according to equity and good conscience, and without favor or affection, prejudice or partiality, to any person or persons whomsoever. And I do further swear, that I will not directly or indirectly receive, or knowingly permit any other person to receive, any fee or reward, for anything done or to be done under the said Ordinance, excepting only such as the said Ordinance appoints or authorizes. So help me God.”

Which Oath, so taken and subscribed by each Commissioner, shall be enrolled in the Supreme Court.

Appointment of Clerks, &c., to the Commissioners. 22. IT shall be lawful for the Governor from time to time to appoint a Clerk to the said Commissioners, and such other ministerial officers as to him may appear necessary, for enabling such Commissioners duly to execute the provisions of this Ordinance. And it shall also be lawful for the Government Agent to pay to such Commissioners, Clerks, and other officers, such reasonable salaries or remuneration as the Governor may think fit to direct.

Commissioners to determine disputed cases not settled by consent or referred to Arbitration. 23. SO soon as this Ordinance shall come into operation it shall be lawful for the Commissioners, to enter into all lands required for the purposes of the Railway, and to summon the parties claiming the lands to appear before them at a time and place to be named in the summons, and upon the appearance of such parties, or in the absence of any of them upon proof of due service of the summons, and whenever the compensation in respect of such lands has not been settled by consent or not referred to arbitration, it shall be lawful for such Com-

missioners, to hear and determine all questions respecting the amount of compensation to be paid, and the parties to whom the same is to be paid in respect of such lands, and for that purpose to examine such parties or any of them, and their witnesses, and such other persons as to the Commissioners may appear desirable, upon oath, and to call for the production of any document in the possession of either party, or of their witnesses, as may be necessary for determining any question in dispute: and the costs of every such enquiry shall be in the discretion of such Commissioners, and they shall settle the amount thereof. Provided however, that if there be any difference of opinion among such Commissioners respecting the amount of compensation to be paid as aforesaid, the same shall be decided by the votes of the majority of them.

Commissioners may
inflict fines, &c.

24. ANY person summoned by the Commissioners to appear before them, who shall not appear before such Commissioners, pursuant to such summons, without assigning such excuse as to the Commissioners shall appear reasonable, and any person who when called upon shall without sufficient cause refuse to be sworn, or to affirm if not a Christian, or to be examined on his oath or affirmation, or shall without sufficient cause refuse or wilfully neglect to produce any documents required of him to be produced, shall for every such neglect or refusal, forfeit and pay such sum of money, not exceeding £5 sterling, as such Commissioners shall think fit to order. And it shall be lawful for the Commissioners in such order to direct the payment of any such fine to be made into the Police Court of the district in which such person resides; and if payment shall not be made as directed, the said Police Court shall proceed to enforce the same, and the charges relating to the recovery thereof, and to deal with the person liable to make the same, in such manner as if the fine had been imposed by such Court.

Form of oath, &c.

25. THE oath and the affirmation administered by the said Commissioners or arbitrators, or by an umpire, shall be in the form F. in the Schedule to this Ordinance annexed.

Certificate, &c., of
Commissioners to
vest lands in the
Ceylon Railway
Company.

26. UPON each assessment being made, the Commissioners shall sign and issue a Certificate, in the form C. in the Schedule to this Ordinance appended. And such Certificate, with the payment by the Government Agent of the compensation awarded, or deposit thereof, as in the 27th Clause hereof provided, shall be taken and considered to vest the land in the Ceylon Railway Company, fully and effectually, to all intents and purposes whatsoever, and shall be good and conclusive against all persons whomsoever, whatever right or title they may have, or claim to have, in the property, although all persons concerned have not been named therein, nor the title of the owners or any of them truly set forth. Provided

Proviso.

that nothing herein contained, shall prevent any party from recovering pecuniary compensation from, and he is hereby entitled to recover compensation from such of the parties who shall have represented themselves as the owners, joint owners, holders or joint holders before the Commissioners, and who shall have defrauded him of his share.

Government Agent
to pay compensa-
tion.

27. WHENEVER the arbitrators or the umpire shall make their award, or the Commissioners, if the compensation in any case is not determined by consent or arbitration, shall make their assessment in writing, the Government Agent shall pay the compensation to the persons mentioned in the said award or assessment as entitled to receive the same. But if the persons therein mentioned, or any of them, shall refuse or neglect to receive the same, or, being under any disability, shall not be represented by any legal representative; or being absent from the Island, shall have no agent here; or if the persons mentioned in the award or assessment cannot be found within a reasonable time: *then*, and in every such case, the Government Agent shall deposit the amount of such compensation, or so much thereof as any of the circumstances abovementioned shall render necessary, in such local Bank as the Governor may from time to time direct. And the amount so deposited shall revert to the Ceylon Railway Company if not legally claimed before the lapse of ten years from the date of such deposit, provided that

Proviso.

such period shall not be held to commence until the majority or return of minors or absentees, respectively. PROVIDED ALWAYS, that if the arbitrators, umpire or Commissioners shall find the land in dispute before them not to be Crown land, and that no evidence has been produced before them as to the ownership of such land, they shall state such finding in their award or assessment, together with the value of the land: and the Government Agent shall deposit the amount of the said valuation in the local Bank as aforesaid, and shall cause such award or assessment to be three times published in the Government Gazette, at intervals of not less than six months; and if at the expiration of ten years no claim is successfully made in respect of such deposit, the said deposit shall revert to the Ceylon Railway Company. And be it further provided, that if the arbitrators, umpire or Commissioners shall find the said lands not to be Crown lands, but shall, by reason of complication of claims, evidence, or other matters, be unable to make an award or assessment, it shall be lawful for them to report the value of the land, and the evidence in respect of the same to the District Court, which said report shall be kept amongst the records of the said Court; and the said Court shall, on the petition of any party interested in the said land, determine the right of such party in respect of such deposit, and shall give such order respecting the disposal of such deposit, and the costs of such petition, as shall appear to the said Court to be right.

Compensation how
to be assessed.

28. IN estimating the purchase money or compensation to be paid in any of the cases in this Ordinance mentioned, regard shall be had by the Arbitrators, or Commissioners, as the case may be, not only to the value of the land to be purchased or taken, but also to the damage, if any, to be sustained by the owners of the lands, by reason of the severing of the lands taken, from the other lands of such owner, or otherwise injuriously affecting such other lands, or from any other cause.

Land not to be
entered into before
payment or deposit.

29. THE Government shall not, except by consent of the owners or occupiers, enter or authorise the Ceylon Railway Company to enter upon any lands which shall be required to be purchased or permanently used for the

purposes of the Railway, until they shall have paid or deposited as is herein provided, the purchase money or compensation agreed or awarded to be paid: Provided always, that, for the purpose merely of surveying and taking levels of such lands, and of probing or boring to ascertain the nature of the soil, and of setting out the line of the works, it shall be lawful for the parties engaged in constructing the Railway, or their servants or agents, with their workmen and labourers, and with all necessary and proper carriages, animals, and other means, to enter upon such lands without previous consent, making compensation for any damage thereby occasioned to the owners or occupiers thereof.

Proviso.

Lands may be entered into after deposit of amount claimed or offered, and security given.

30. PROVIDED also, that if the Ceylon Railway Company shall be desirous of entering upon and using any such lands, before an agreement shall have been come to, or an award made by arbitrators, or an assessment by the Commissioners of the purchase money or compensation to be paid by them in respect of such lands, it shall be lawful for them to deposit in such local Bank as the Governor from time to time may direct, by way of security, as hereinafter mentioned, the amount of purchase money or compensation claimed by any party interested in or entitled to sell such lands, and who shall not consent to such entry; or if no amount be claimed, the amount at which such lands have been valued, as stated in the notice in the third section mentioned; and also to give a bond, in the form E. in the Schedule to this Ordinance appended, in favor of Her Majesty and Her Successors, in a penal sum equal to the sum so deposited, conditioned for payment to Her Majesty, for the use of the parties entitled to such lands of all such purchase money or compensation as may, in manner hereinbefore provided be determined to be payable in respect of the lands so entered upon, together with interest thereon at the rate of Nine pounds per centum per annum, from the time of entering on such lands, until such purchase money or compensation shall be paid to the parties, or deposited as aforesaid, for the benefit of all parties interested in such lands, under the provisions herein contained; and upon such deposit, by way of security, being made, as aforesaid, and such bond being executed and delivered to the Government Agent, it shall be lawful for the Ceylon Railway Company to enter upon and use such lands, without the purchase money or compensation, in other cases required to be paid or deposited, having been paid or deposited, before entering upon any lands to be procured for them by the Government, under the provisions of this Ordinance.

Penalty, if Railway Company enter into lands without payment or deposit, and security.

31. IF the Ceylon Railway Company, or any of their contractors, shall, except as aforesaid, wilfully enter upon, and take possession of any lands which shall be required to be purchased, or permanently used for the purposes of the Railway, without such consent as aforesaid, or without having made such payment or deposit for the benefit of the parties interested in the lands, and given such bond as aforesaid, they shall forfeit to the party in possession of such lands the sum of £5, over and above the amount of any damage done to such lands by reason of such entry, and taking possession as aforesaid; and if the said Company, or their con

tractors, shall, after conviction in such penalty as aforesaid, continue in unlawful possession of any such lands, they shall be liable to forfeit the sum of £10 for every day, they or their contractors shall so remain in possession as aforesaid; such penalty to be recoverable by the party in possession of such lands, with costs, by action in any competent Court:

Proviso.

PROVIDED ALWAYS, that nothing herein contained shall be held to subject the said Company to the payment of any such penalties as aforesaid, if the compensation agreed or awarded to be paid in respect of the said lands, shall have been paid to any person *bonâ fide*, and without collusion, though such person may not have been legally entitled thereto, or the same shall have been deposited in manner hereinbefore mentioned.

Penalty for refusing to give up possession.

32. IF in any case in which the Ceylon Government or the Ceylon Railway Company are authorised to enter upon and take possession of any lands required for the Railway, and the owner or occupier of any land shall refuse to give up possession thereof, or in any way oppose such possession being taken, such owner, occupier, or other person, shall be guilty of an offence, and liable, on conviction, to a fine not exceeding Five pounds, and imprisonment, with or without hard labor, not exceeding Three months.

Owner not compelled to sell part of a house.

33. NO party shall at any time be required to sell or convey a part only of any house or other building or manufactory, if such party be willing and able to sell and convey the whole thereof.

Temporary possession of lands.

34. IT shall be lawful for the Company at any time before the completion of the Railway, after making a reasonable tender, and the same being refused, to enter upon any lands adjacent to the line of the Railway, and not being a garden, or plantation, or cultivated, attached to or belonging to a house, and to occupy the said lands so long as may be necessary for the construction or repair of the portion of the Railway, or of the accommodation works connected therewith hereinafter mentioned, and to use for any of the following purposes : (that is to say,)

For the purpose of taking earth or soil by side cuttings therefrom.

For the purpose of depositing spoil thereon.

For the purpose of obtaining materials therefrom for the construction or repair of the Railway, or other accommodation works as aforesaid.

or the purpose of forming roads thereon to or from or by the side of the Railway.

and in exercise of the powers aforesaid, it shall be lawful for the Company to deposit, and also to manufacture and work upon such lands, materials of every kind used in constructing the Railway; and also to dig and take from out of any such lands, any clay, stone, gravel, sand, or other things that may be found therein, useful or proper for constructing the Railway or any such roads aforesaid; and for the purposes aforesaid, to erect thereon workshops, sheds, and other buildings of a temporary nature: Provided

Proviso.

always, that nothing in this Ordinance contained shall exempt the Company from an action for nuisance or other injury, if any, done in the exercise of the powers hereinbefore given, to the

lands and habitations of any party other than the party whose lands shall be so taken for any of the purposes aforesaid. Provided also, that no quarry, brick field, or other like place, which at the time of the passing of this Ordinance shall be commonly worked or used for the purpose of selling or disposing of the same, shall be taken or used by the Company, either wholly or in part, for any of the purposes lastly hereinbefore mentioned.

Compensation for damage in case of temporary possession.

35. IN all cases where the Company shall take temporary possession of lands by virtue of the powers herein granted, it shall be incumbent on the Company, upon being required so to do, to pay to the owner or occupier of the said lands, full compensation for any damage which he may sustain by reason of the Company so taking possession of his lands.

Abuse of authority by Railway Officers.

36. ANY person acting under the authority of this Ordinance, who shall, under pretence of performing any act under such authority, use any unnecessary violence or give any uncalled for and vexatious annoyance, shall be guilty of an offence, and be liable, on conviction thereof, to any fine not exceeding Five pounds, or to imprisonment with or without hard labour, for any period not exceeding Three months.

Penalty for obstructing Railway Officers

37. ANY person who shall wilfully resist, obstruct, hinder or molest, and any person who shall incite, procure or assist others to resist, obstruct, hinder or molest any person acting under the authority of this Ordinance, or any workman, labourer, or other person acting under any such, in the discharge of any duty, or the performance of any act which they shall be authorised or required to perform by this Ordinance, or who shall wilfully pull up, throw down, cut, break, injure, remove, damage or destroy any peg, post, rail or fence to be placed and put up by any of the Officers of the Railway Company, or any workman, labourer, or other person acting under their authority, in tracing, surveying, laying out or constructing the Railway, or the works connected therewith, shall be guilty of an offence, and liable, on conviction, to a fine not exceeding Five pounds, or to imprisonment with or without hard labour, for any period not exceeding Three months.

Powers, &c., of Agents to vest in Assistants.

38. THE powers, authorities and duties conferred and imposed upon the Government Agent, may be exercised by any of his Assistants.

Reasonable remuneration to be paid to Arbitrators, &c.

39. AND it shall be lawful for the Government Agent to pay all costs of arbitration and matters relating thereto, that are by this Ordinance directed to be borne by the Ceylon Railway Company, and also such reasonable remuneration to the arbitrators, and umpires, as the Governor may think fit to direct.

Proviso that the Government Agent is not to be called on for money before

40. BE it provided, that the Government Agent shall not be liable to make any payments by him in this Ordinance directed to be made, unless he shall have previously received the same from the Ceylon Railway Company;

he has received the same from Government.

and that in any action against him for any money under this Ordinance by him directed to be paid, the burden of proof that the Government Agent has received such money shall lie upon the plaintiff.

Government Agent to indorse receipt and declaration on conveyance, &c.

41. AND be it enacted, that when the Government Agent shall pay any compensation in respect of any lands taken in virtue of this Ordinance, he shall obtain from the persons to whom the same shall be paid, a receipt or receipts according to the forms G in the Schedule to this Ordinance annexed, according to the exigencies of the case, which receipt or receipts shall be indorsed upon the conveyance, assessment, or award, under the authority of which the said compensation is paid; and the Government Agent when he has paid the same, shall indorse upon such conveyance, assessment, or award, a declaration to be signed by him in the form H in the Schedule to this Ordinance annexed.

Governor to appoint Assistants, Clerks, &c.

42. THAT it shall be lawful for the Governor, whenever it shall appear to him necessary for the purposes of this Ordinance, to appoint Agents, Assistants and Clerks, Surveyors and other officers for the effectual carrying out of such purposes; provided such appointments shall not interfere with the lawful rights, privileges and duties of the Ceylon Railway Company. And it shall be lawful for the Government Agent to pay to such persons so appointed, such reasonable salaries or remuneration as the Governor may think fit to direct.

Exemption from stamps.

43. AND be it further enacted, that no commission, award, or other deed or document whatsoever, executed, or entered into, under this Ordinance, shall require any stamp.

Deeds, &c., to be evidence.

44. AND be it further enacted, that all commissions, awards, and deeds executed or entered into under this Ordinance, and all Office copies of the same, shall, if fully and legally executed, be received as evidence in all Courts of law in this Island, and before the said Commissioners, without further proof.

Contracts, &c., with the Ceylon Railway Company.

45. ALL contracts to be entered into by or with the Ceylon Railway Company, and all actions and prosecutions to be brought by, or against them, shall be entered into, and brought by the designation Ceylon Railway Company. And the service of all process shall be made upon their Agent in Ceylon.

Service of process.

Interpretation.

46. IN interpreting this Ordinance, the term "Governor" shall be taken to mean the Governor or any person acting as Governor;—the term "Government Agent," shall be taken to mean the Government Agent of the Province in which any lands dealt with under this Ordinance shall lie.

No. 7.—*An Ordinance to naturalize George Sauer.*

Preamble.

WHEREAS George Sauer, an alien, presently residing in this Island, is desirous of being made a partaker of the advantages and privileges enjoyed by the natural born subjects of Our Lady Queen Victoria in this Island, and it is expedient that the privileges of naturalization should be imparted to him, to be by him exercised, and enjoyed within the limits of this Island.

AND whereas by an Act made in the 10th and 11th year of the reign

of Her Majesty, entitled, "*An Act for the naturalization of aliens*," it was enacted and declared, that all Laws, Statutes, and Ordinances, which shall hereafter be made and enacted by the Legislatures of any of Her Majesty's Colonies or Possessions abroad; for imparting to any person or persons the privileges, or any of the privileges, of naturalization, to be by any such person or persons exercised and enjoyed, within the limits of any such Colonies and Possessions respectively, shall within such limits have the force and authority of law, any law, statute or usage to the contrary in anywise notwithstanding.

PROVIDED nevertheless, that all such Laws, Statutes, and Ordinances shall be made, and enacted in such manner and form, and subject to, and in conformity with, all such rules as now are or hereafter shall be in force in respect of other Laws, Statutes or Ordinances enacted, or to be enacted, by any such Legislatures respectively, and shall, and may be confirmed or disallowed by Her Majesty, in such and the same manner, and subject to the same rules and regulations as extend, or shall hereafter extend, to the confirmation or disallowance of any other such Laws, Statutes, or Ordinances.

IT IS ENACTED BY THE GOVERNOR OF CEYLON, with the advice and consent of the Legislative Council thereof, as follows:—

Ordinance when
to come into opera-
tion.

1. THIS Ordinance shall come into operation and take effect from and after the Proclamation by the Governor in the Government Gazette of this Island, that the same has been ratified and confirmed by Her Majesty.

Letters Patent
may issue granting
George Sauer the
rights of a British
subject in this Is-
land.

2. SO soon as this Ordinance shall come into operation, it shall be lawful for the Governor to issue Letters Patent in the name of Her Majesty under the Public Seal of this Island, granting to the said George Sauer (upon his taking the oath in the Schedule hereunto annexed) within the limits of this Island, all the rights and privileges of a British subject: and thereupon the said George Sauer shall within the limits of this Island, enjoy and transmit to his descendants, and those claiming by or through him, all the rights and capacities which a natural born subject of Her Majesty can enjoy or transmit.

Letters Patent
to be enrolled and
oath to be taken.

3. SUCH Letters Patent shall be on a Stamp of Twenty-five Pounds, and shall be enrolled for safe custody in the Supreme Court of this Island; and within sixty days from the day of the date of such Letters Patent the said George Sauer shall take and subscribe the oath in the schedule hereunto annexed, before some Judge of the said Supreme Court. And the Registrar of the said Court shall make, sign, and deliver to the said George Sauer, under the seal of the said Court, a certificate of such oath having been duly taken and subscribed; and such certificate shall be sufficient evidence of the said George Sauer having taken and subscribed such oath.

SCHEDULE.

I, George Sauer, do sincerely promise and swear, that I will be faithful and bear true allegiance to Her Majesty Queen Victoria.

Passed in Council the Thirtieth day of September, One thousand Eight hundred and Fifty-eight.

No. 8.—To amend the Law in respect of Tolls taken on Canals.

Preamble.

WHEREAS it is expedient to amend the Law in respect of Tolls taken on Canals, and to make provision for the due collection of such Tolls as are already levied, or by virtue of this Ordinance are to be levied, on Canals in this Island: IT IS ENACTED BY THE GOVERNOR OF CEYLON, with the advice and consent of the Legislative Council thereof, as follows:—

Short title of Ordinance.

1. THIS Ordinance may be cited for all purposes as "*The Canal Toll Ordinance, 1858.*"

Commencement of Ordinance.

2. THIS Ordinance shall come into operation on the First day of January, One Thousand Eight Hundred and Fifty-nine.

Repeal of Regulation 3 of 1831.

3. THE Regulation No. 3 of 1831, intituled "*For confirming the Tolls on Roads, Bridges, &c., heretofore established,*" shall be, and the same is hereby wholly repealed; except as to any penalties thereby imposed, and which may remain unpaid, or as to any offences which may have been committed against the same.

Tolls on Canals.

4. TOLLS shall be levied in respect of the Canals specified in the Schedule A. to this Ordinance annexed, at such rates as the Governor, from time to time, by Proclamation in the Government Gazette, shall be pleased to appoint, provided that the same shall in no case exceed the rates hereinafter specified, that is to say:—

		s.	d.
Padda Boat, Battel and Lighter, of	loaded	3	0
	and under 50 feet	1	6
Lighter over 50 feet in length	loaded	5	0
	unloaded	2	6

Local Fishing Boat or Canoe not conveying Freight or Passengers, and any Boat conveying Manure, or rafts of Firewood			Free.

Tolls on Canals hereafter to be made.

5. THAT whenever it shall be found necessary to make a Canal at any place not specified in the said Schedule A., the cost of which shall amount to Five hundred Pounds, it shall be lawful for the Governor, with the advice and consent of the Executive Council, by Proclamation in the Government Gazette, to direct that Tolls, not exceeding those specified in the 4th clause of this Ordinance, shall be levied in respect thereof.

Governor to fix Toll Stations.

6. IT shall be lawful for the Governor from time to time, by Proclamation in the Government Gazette, to determine at what place or places the Tolls hereinbefore

authorised to be levied in respect of any Canal shall be collected, and the said place or places, from time to time, in like manner to alter, and another place or other places to establish for the collection of such Tolls instead thereof.

Return Tolls.

7. NO Toll shall be levied upon any boat upon its return by or through any place at which it shall have paid Toll on the same day, (to be computed from 12 o'clock at night to 12 o'clock on the succeeding night); and the one half only of the appointed Toll shall be levied upon any boat at any place by or through which it shall have passed in a like direction on the same day, unless such boat shall carry a different load; provided however, that it shall be incumbent upon any party claiming such total or partial exemption, to produce a ticket signed by the keeper of such Toll station denoting such previous payment to have been made, and provided also, that no payment of Toll upon any boat when unloaded, shall in any manner affect any Toll to which such boat is hereby declared to be liable when loaded.

Tickets required to clear Passengers.

8. EVERY person having once paid Toll in respect of any boat at any place, payment at which shall have been declared by the Governor, by Proclamation in the Government Gazette, to clear any other place, shall, on the production at such other place of a Ticket denoting such payment to have been made, pass the same without any further payment of Toll, except where such boat shall at such latter place have become liable to a different rate of Toll.

Appointment of Toll-keepers.

9. THE Tolls hereby established shall be taken and levied by the Toll-keeper or some one of the Toll-keepers to be appointed by the Government Agent of the Province in which such Tolls are levied, or his Assistants. Provided, that in any case in which more than one Toll-keeper shall be appointed for any place, such Toll shall be demanded and taken by such one only of the said Toll-keepers as shall at the time of such demand be the wearer of the metal badge hereinafter mentioned. And that if the privilege of collecting Tolls at any place shall at any time be let to any party, it shall be lawful for the Government Agent or his Assistant, on the application of such party, to appoint such person or persons as he may name, to be Toll-keeper or Toll-keepers at such place: and if such party shall at any time be desirous of removing any Toll-keeper appointed on his application as aforesaid, he shall give a written notice of his intention so to do to the Government Agent or his Assistant, at least Ten days before carrying the same into effect. And any party who shall remove any Toll-keeper without giving such notice, shall be guilty of an offence, and be liable, on conviction thereof, to pay a fine not exceeding Five pounds, one half whereof shall be paid to the informer, and in default of payment, to imprisonment with or without hard labour, for any period not exceeding Three months.

Toll-keeper to wear Badge.

10. EVERY Toll-keeper appointed under this Ordinance, shall, while engaged in the collection of Tolls, wear a metal badge, whereon shall be engraved in the English and Native languages, the name of the place at which he is ap-

And put up Ordinance and name, pointed to collect Tolls. And there shall be suspended at some conspicuous place immediately adjoining to every place at which Tolls are hereby authorized to be collected, so as to be distinctly legible, in the English and Native languages, a copy of this Ordinance, and also a notice setting forth the name or names of the person or persons appointed to collect the Tolls at such place.

Toll-keeper to give Tickets, 11. EVERY Toll keeper, while engaged in the collection of Tolls, shall be provided with Tickets consecutively numbered, acknowledging the payment of Toll and the date thereof, and mentioning the place, if any, cleared by such payment, one of which Tickets, duly signed by him, shall be delivered gratis to the person paying the Toll; and every such Ticket shall be in the English and Native languages, and in the form hereunto annexed. Provided always, that it shall be lawful for the Government Agent, if he shall see fit so to do, to grant to such Toll-keeper permission to deliver such Tickets in the Native languages only.

Toll-keeper acting contrary to Ordinance, 12. IF any Toll-keeper shall at any time collect any Toll without wearing a metal badge as aforesaid, or omit to suspend a copy of this Ordinance, and the notice of the name or names of the person or persons appointed to collect the Tolls, or shall wilfully remove, conceal, alter, or deface the same or either of them, or permit either of them to become illegible, or shall demand or take Toll in any case in which Toll is not payable under the provisions of this Ordinance, or a greater or less Toll than he shall be authorised to do thereunder, or shall fail to grant to any person having paid Toll, a Ticket denoting such payment, as hereinbefore required, or shall wilfully subject any boat to unreasonable delay or detention, or shall wilfully demand or take Toll from any person in respect of any boat by this Ordinance exempted from the payment of Toll, such Toll-keeper shall be guilty of an offence, and be liable, on conviction thereof, to a fine not exceeding Five pounds, one-half whereof shall be paid to the informer; and in default of payment, to imprisonment with or without hard labour, for a period not exceeding Three months; and on any second or subsequent conviction, to a fine not exceeding Ten pounds, one-half whereof shall be paid to the informer; and in default of payment, to imprisonment with or without hard labour for any period not exceeding Six months.

Penalty on levy-
ing Tolls without
authority. 13. IF any person, other than a Toll-keeper duly appointed to collect Toll under the provisions of this Ordinance, shall demand or take any Toll, or for the purpose of appearing or representing himself to be a Toll-keeper, wear, or carry, or produce, or exhibit to any person liable to pay Toll, the metal badge which by this Ordinance a Toll-keeper is required to wear, or any badge resembling or intended to resemble such metal badge, or shall otherwise personate or represent himself to be a Toll-keeper, every person so offending shall be guilty of an offence, and be liable, on conviction, to a fine not exceeding Five pounds, one-half whereof shall be paid to the informer; and in default of payment, to imprisonment with or without hard labour, for any period not exceeding Three months. And any Toll-keeper

who shall wilfully lend or give his metal badge to any person not duly appointed to collect Toll, in order that such person should personate such Toll-keeper, or shall be otherwise accessory to the collection of Toll by any person not duly appointed as aforesaid, every such Toll-keeper shall be guilty of an offence, and shall be liable, on conviction, to a fine not exceeding Five pounds, one-half whereof shall be paid to the informer, and in default of payment, to imprisonment with or without hard labour, for any period not exceeding Three months.

Penalties for infringement of this Ordinance by passengers.

14. IF any person shall fraudulently or forcibly, take any boat by or through any place duly appointed for the collection of Tolls, or shall resist, or make forcible opposition against any person duly appointed to collect Tolls in the execution of his Office, or if any person shall maliciously damage any bar, boat, bridge, or other thing employed for the purpose of collecting Tolls, or shall maliciously remove, deface, alter, or damage, any copy of this Ordinance or notice, suspended as hereinbefore directed; or if any person other than a person duly appointed to collect Tolls shall give, or if any person shall receive from any person other than a person duly appointed as aforesaid, or shall forge, counterfeit or alter any Ticket, or certificate of payment or exemption, with intent to evade the payment of any Toll, or if any person shall do any other act whatsoever in order to evade the payment of any Toll, and whereby the same shall be evaded, every such person shall be guilty of an offence, and shall be liable, on conviction, to a fine not exceeding Five pounds, one-half whereof shall be paid to the informer, and in default of payment to imprisonment with or without hard labour, for any period not exceeding Three months.

Tolls payable on transfer of goods as Toll Station.

15. IT shall not be lawful for any person, in order to avoid payment of any Toll, whether in whole or in part, to remove or cause to be removed any goods from any boat in which the same shall have been brought to any place appointed for the collection of Tolls, to any other boat on the other side thereof, unless after payment of Toll upon the boat in which the same shall have been so brought as a loaded boat; nor for any person to unload or cause to be unladen any goods from any boat in which the same shall have been brought to any place appointed for the collection of Tolls, and to load or cause the same to be re-laden upon such boat after it shall have passed such Bridge, Ferry or place, unless after payment of Toll upon such boat as a loaded boat. And any person acting contrary to the provisions of this clause shall be guilty of an offence, and be liable, on conviction, to a fine not exceeding Five pounds, and in default of payment to imprisonment, with or without hard labour, for any period not exceeding Three months.

Limitation of prosecution.

16. NO prosecution shall be instituted against any person for any offence committed against any of the provisions of this Ordinance, unless the same shall be commenced within One calendar month from the time of the commission of such offence.

Informer a competent witness.

17. UPON the trial of any person for a breach of any of the provisions of this Ordinance, the informer or complainant or other person shall be deemed and is here-

by declared to be a competent witness, notwithstanding that he may be entitled to any part of any pecuniary penalty, or to any pecuniary compensation or reward on the conviction of any such offender.

Exemptions.

18. ANY boat or boats conveying the Governor, or Lieutenant-Governor, and his suite, when in immediate attendance on him, the Government Agents, the Surveyor General, the Civil Engineer and Commissioner of Roads and their respective Assistants, when on duty, together with all their necessary attendants, baggage and implements, Military Officers and Soldiers, whether on duty or not, but provided they be in uniform dress or undress, and all messengers, carrying the public Mails, shall be exempted from payment of any Toll. And all boats conveying any persons employed in the repairs of any Road, Bridge or Canal, within Ten miles of the Toll station, shall pass without payment of Toll, on production of a certificate of such employment from the Officer superintending the work.

Explanation of the term boat.

19. THE word "boat" shall be deemed and taken to include the several kinds of vessels and rafts enumerated in the fourth Clause of this Ordinance.

No. 11.—*To amend the Branch roads Construction Grants-in-aid Ordinance, 1857.*

WHEREAS it is expedient to amend the "*Branch Roads Construction Grants-in-aid Ordinance, 1857.*" IT IS ENACTED BY THE GOVERNOR OF CEYLON, with the advice and consent of the Legislative Council, as follows :

Repeal.

1. THAT the Sections thereof numbered 5, 6, and 8, be and are hereby repealed, and that in place thereof the Sections herein numbered 3, 4, and 5, shall severally and respectively be held to be substituted, and shall be read as part of the said Branch Roads Construction Grants-in-aid Ordinance, 1857.

Commencement.

2. THAT this Ordinance shall come into operation on the first day of January, 1859.

Proceedings thereon.

3. ON receipt of such application, the said Provincial Committee shall give such public notice as they think necessary, of their intention to define the limits of the District, the Estates in which will—if the proposal for the construction under the provisions of this Ordinance, of such Branch Cart Road, be adopted by the proprietors of two-thirds of the acreage in such District, as hereinafter provided—become and be severally bound and liable for the amount of contribution towards the construction of such Road, which said Estates may be afterwards assessed at, in manner provided by this Ordinance : and in such notice the said Committee shall appoint the time and place at which they will take evidence, if necessary, and receive and consider the objections of any proprietor against his Estate being included within the limits of such District. And the said Committee, after making such inquiry as they may deem requisite, and considering any such objections, shall proceed to define the limits of such District ; and shall enter a description of such limits in the Minutes of their proceedings. And the Chairman of such Committee shall thereupon transmit to the proprietor (or, in case of his absence from the Colony, to the resident manager—or, if there be no resident manager, to the agent, in this Colony, of the proprietor, if any,) of every Estate within the limits of such District, so defined as aforesaid, a requisition (A) calling upon him to declare in writing, within such time as shall be therein specified, whether he desires that the provisions of this Ordinance should be extended to such District for the purpose of the construction therein of a Branch Cart Road. If no answer be sent to the said Chairman, within the time limited by such requisition, the person to whom the same was forwarded, shall be deemed and taken to have concurred in the proposal referred to therein.

If the proprietors of two-thirds of the Estates, in any District, concur in the application, the same shall be forwarded to Government by the Provincial Committee, with their report.

No. 12.—*To apply a portion of the Surplus Revenues of past years to Works and Services of acknowledged Public utility.*

Preamble.

WHEREAS it is expedient to apply a portion of the funds which have accrued from the Surplus Revenues of past years, to the execution of Works and Services of acknowledged Public utility.

4. IF it shall appear to the Provincial Committee from the replies to such requisitions, or otherwise, that a majority, consisting of the proprietors of two-thirds at least, of the acreage in any such District, are desirous that the provisions of this Ordinance should extend and be applied to the said District for the purpose of constructing therein a Branch Cart Road, the said Committee shall forthwith forward such application to Government, together with their report as to the necessity for such road, and as to the line, direction, and terminus which, as best adapted for the general convenience of the District. And thereupon it shall be lawful for the Governor to direct the Commissioner of Roads to examine the said District, and to report his opinion as to the best mode of giving effect to the proposal, and to frame and submit an Estimate of the probable cost of properly constructing and metalling the proposed Road in such sections as the Provincial Committee shall determine in each case.

5. THE Provincial Committee shall proceed to assess the proportion due by each Estate, by dividing the sum of money equal to a moiety of the total cost of constructing each section of the proposed Road by the total number of acres of the Estates interested in and capable of using each such section, and thus apportioning the amount due upon each acre. And the rate so assessed shall be binding and conclusive on all proprietors of Estates in such District.

And the Chairman of such Committee shall thereupon transmit to the Proprietor of each Estate (or, in case of his absence from the Colony, to the resident Manager, or, if there be no resident Manager, to the Agent in this Colony of the Proprietor, if any,) a requisition, (B), calling upon him to pay into the Colonial Treasury, within such time as shall be therein specified, the amount of the contribution due by him to make up the moiety payable by the Proprietors. And the Chairman shall also cause a notice to be published in the

Government Gazette, specifying the Estates which will

Commencement. 2. THAT this Ordinance shall commence and come into operation from the date of passing the same.

Passed in Council the Fourth day of December, One thousand Eight hundred and Fifty-eight.

No. 14.—*An Ordinance to amend the Laws of Marriage in the Kandyan Provinces.*

Preamble.

WHEREAS it was agreed and established by a Convention signed at Kandy, on the second day of March, in the year of Christ 1815, that the dominion of the Kandyan Provinces was vested in the Sovereign of the British Empire, saving to all classes of people in those Provinces, the safety of their persons and property, with their Civil rights and immunities according to the laws, institutions, and customs established and in force amongst them. And saving always to the Sovereign of the British Empire, the inherent right of government to redress grievances, and reform abuses in all instances whatever, particular or general, where such interposition shall become necessary. And whereas, accordingly, the rights and liabilities of the Kandyans, (as far as they have not been affected by local Ordinances) have always been adjudicated upon by the Courts of law in this Island, in accordance with the laws, institutions, and customs, established amongst the Kandyans; and whereas the right reserved as above mentioned to the Sovereign has, from time to time, been exercised by the Sovereign, through the Governors and Councils of this Island, as the circumstances of the people have become changed by the influence of a just Government, the spread of education, and the extension of commerce.

AND whereas the custom of the Kandyans, now considered as the law regulating the contract of Marriage, permits a man to have more than one living wife, and a woman to have more than one living husband.

AND whereas this custom is wholly unsuited to the present condition of the Kandyans; and their national religion in no way sanctions their custom at present prevailing in reference to Marriage; and this is a great hardship and oppression on the industrious classes, and the frequent cause of litigation, leading to Murders and other great crimes.

AND whereas from the circumstances aforementioned, the marriage custom of the Kandyans is become a grievance and an abuse, within the meaning of the said Convention, and a large and influential portion of the Kandyan people have petitioned for the redress and reform of the same.

AND whereas, therefore, occasion has arisen to Her Gracious Majesty, through the Governor and the Legislative Council of this Island, to exercise

the inherent right of Government saved to Her in the said Convention; and to interpose to redress these grievances and to reform these abuses.

BE IT THEREFORE ENACTED BY THE GOVERNOR OF CEYLON, with the advice and consent of the Legislative Council.

How Ordinance to apply.

1. THAT this Ordinance (except where it is herein otherwise specially enacted) shall apply only to Civil marriages contracted in those parts commonly termed and known as the Kandyan Provinces, between or by natives of those Provinces after the commencement hereof.

Polygamy, &c., illegal.

2. ANY marriage contracted during the life of a former husband or wife, shall for all purposes be illegal and void.

Exceptions.

3. PROVIDED that nothing herein contained shall be held to extend to any person professing the Mahomedan faith; or to any person marrying a second time whose husband or wife shall have been continually absent from such person for the space of seven years then last past, and who shall not have been known by such person to be living within that time; or to any person who, at the time of such second marriage, shall have been divorced from the bond of marriage; or to any person whose former marriage shall have been declared void by the sentence of any Court of competent jurisdiction.

Marriages to be registered.

4. SUCH and so many registers of the Marriages of the natives of the aforesaid Provinces shall be kept in and for each District thereof, and shall be in such form as shall be by rule and regulation as hereinafter provided, appointed and proclaimed. And the Governor shall appoint such persons as he shall think fit to be Registrars to keep the said registers.

Governor to appoint Registrars.

Marriages not registered, void.

5. NO Marriage (otherwise valid and legal under this Ordinance) shall be held to be legal and valid unless registered.

Civil Marriages where registered.

6. NO Marriage intended to be entered into by civil contract shall be legal and valid under this Ordinance, unless entered into and contracted in the presence of the Registrar for the district or place, and at such house, office, or other place as the Government Agent for the Province shall from time to time direct.

Marriages when to be registered.

7. THE Registrar shall register the Marriage at the time that the same is entered into and contracted before him: PROVIDED ALWAYS, that any person contracting a Marriage (otherwise legal under this Ordinance) which may have been omitted to be registered, or may have been erroneously registered, without fault of the parties to the Marriage, may at any time before any suit in respect of such Marriage, or property affected thereby, demand to have such Marriage correctly registered; and the Registrar of whom such registration is demanded, shall require such Marriage to be legally proved before some District Judge or Commissioner of the Court.

of Requests, on the oath or affirmation of sufficient witnesses; and such Judge or Commissioner shall take such proof, and if he shall consider the Marriage to be proved, he shall certify the same under his hand, to the Registrar, and the Registrar shall thereupon register such Marriage.

Evidence of Marriage. 8. NO Marriage legally contracted under this Ordinance shall be held to be established before any Court, or in any suit, unless on proof of the registration of such Marriage and the subsequent cohabitation of the contracting parties.

Marriages of minors. 9. NO Marriage shall be valid where one of the contracting parties is under *Twenty-one* years of age if a male, and under *Sixteen* years of age if a female, if the same is contracted against the permission and consent of the father of the minor, or, if the father is dead, against the permission and consent of the mother of the minor, or if both parents be dead, of the natural guardian.

Consanguinity. 10. ANY marriage contracted by parties related to each other within the degrees of consanguinity recognised by the laws, institutions, and customs established and in force amongst the Kandyans as a bar to such Marriages, shall be void.

Divorce. 11. NO marriage valid under this Ordinance shall be dissolved, except by the decree of some District Court.

Grounds of Divorce. 12. NO suit for a divorce shall be maintainable, except upon the grounds of adultery by the wife after marriage, or adultery by the husband after marriage amounting to incest, or accompanied with gross cruelty, or on the ground of complete and continued desertion for the space of two years.

AND with regard to Marriages contracted prior to the commencement of this Ordinance, be it enacted as follows :—

Marriages prior to Ordinance declared valid. 13. ALL Marriages contracted prior to the commencement of this Ordinance in the Kandyan Provinces, according to the laws, institutions, and customs in force amongst the Kandyans at the time of contract, and by or between natives of the Kandyan Provinces, are hereby declared to be good and valid Marriages.

Dissolution of Marriages already contracted. 14. THE Marriages last mentioned, shall be dissoluble only on the decree of some District Court.—And such decree for dissolution may be pronounced on proof of the grounds of divorce in the twelfth section above-mentioned, or that the parties to the suit mutually consent that such Marriage shall be dissolved.

AND with regard to other matters relating to Marriages, be it enacted as follows :

Registrars to forward returns. 15. THE Registrars appointed under this Ordinance, shall forward, send, and transmit to the Government Agent of their Province, such duplicates, extracts, and returns of their registers, in such form, and at such times and periods as

hereinafter provided; and such duplicates, extracts, and returns shall be filed by him, and shall be legal evidence of that which they set forth, in all cases where the original register cannot be produced.

Penalty on Registrars for not registering.

16. REGISTRARS refusing, neglecting, or unreasonably delaying (when legally called upon) to register Marriages, shall be liable to a penalty not exceeding £20. for each offence.

Regulations touching Registration.

17. THE Governor, with the advice and consent of the Executive Council, may make and proclaim rules and regulations on matters relating to the registration of Marriages, as follows:

AS to the number of registers for each District and the portions of districts to which they shall severally apply.

AS to the duties of Registrars.

AS to the form of, and particulars to be entered into, the books of register.

AS to any duplicates, extracts, and returns, to be made by Registrars to the Government Agent.

AS to fees to be paid for registration, and for certified copies thereof, and the remuneration of Registrars.

AS to penalties to be imposed on Registrars for breach or neglect of duty, and their suspension and dismissal.

Such rules and regulations so made as aforesaid, and certified by the Queen's Advocate and the Deputy Queen's Advocate not to be repugnant to the provisions of this Ordinance, shall, after Proclamation, be part of the laws of Ceylon.

Regulations may be altered.

18. THE rules and regulations in the Section last previous, may be altered and repealed in same manner as the same are enacted to be made and proclaimed.

District Courts to hear divorce suits.

19. THE District Courts are hereby empowered to hear suits respecting the dissolution of Marriage legalized under this Ordinance, and to decree dissolution of Marriage, and to determine which of the parties to the suit shall pay the costs of such suit, or how the same shall be apportioned to be paid by both parties.

Ordinance to be proclaimed.

20. THE substance of this Ordinance shall be proclaimed in the Kandyan Provinces in writing, and also by word of mouth and beat of tom-tom, in the native language, in such manner, and at such places, and times, as the Governor shall order and appoint.

Penalty on Polygamy, &c.

21. AFTER this Ordinance has been proclaimed in any portion of the Kandyan Provinces, the Governor shall give notice of the same in the Government Gazette, and if after such notice any person (being resident in any portion of the Kandyan Province so proclaimed and notified as aforesaid) being married, shall marry any other person during the life of the former husband or wife, whether the second marriage shall have taken place in the Kandyan Pro-

vinces or elsewhere, every such offender, and every person counselling, aiding and abetting such offender, shall be guilty of an offence, and being convicted thereof shall be liable to be imprisoned, with hard labour, for a period not exceeding three years.

Former Ordinance not to be repugnant to this Ordinance. 22. NOTHING in the Ordinance No. 6 of 1847, intituled, "*An Ordinance to amend in certain respects the law of Marriages, and to provide for the better Registration of Marriages, Births and Deaths,*" shall, after the commencement hereof, be held to apply to marriages contracted or legalised under and by the provisions of this Ordinance.

Commencement of Ordinance. 23. THIS Ordinance shall come into operation, and take effect from and after the proclamation by the Governor in the Government Gazette of this Island, that the same has been ratified and confirmed by Her Majesty.

Passed in Council the Eighth day of December, One Thousand Eight Hundred and Fifty-eight.

No. 15.—*An Ordinance for the regulation and promotion of Immigrant labour.*

Preamble.

WHEREAS it is expedient from the large increase of public and other works, to regulate and extend the supply of labour in this Island, and to make special provision for the same by a fund to be created for that purpose;—IT IS THEREFORE ENACTED BY THE GOVERNOR OF CEYLON, by and with the advice and consent of the Legislative Council, as follows:

Short Title.

1. THIS Ordinance may be cited for all purposes, as "*The Immigrant Labour Ordinance, 1858.*"

Commencement.

2. THIS Ordinance shall come into operation on the First day of January, One thousand Eight hundred and Fifty-nine.

Commission.

3. FOR the more effectual carrying out of the purposes of this Ordinance, it shall be lawful for the Governor by Commission under the Public Seal of this Island, from the time when this Ordinance shall commence and take effect, to appoint *four* persons (of whom one only shall be a person in the service of Government) to be Commissioners for executing certain powers hereinafter conferred upon them; and whenever the office of any Commissioner shall become vacant, by resignation, suspension, or death, or in any other manner provided for in this Ordinance, to appoint another person to fill the said vacant office as Commissioner.

Incorporation.

4. THE said Commissioners so to be appointed, shall, when and as soon as the same are appointed, be held to be incorporated as; and shall be a body corporate, by and under the name and style of "*The Immigrant Labour Commissioners,*" with perpetual success-

sion and a common Seal, and the said Commissioners may sue and be sued by and under the name and style aforesaid.

Quorum.

5. THREE of such Commissioners shall, for the purposes of this Ordinance, form a quorum.

Oath to be taken
by the Commis-
sioners.

6. EVERY such Commissioner shall, before proceeding to execute the duties imposed on him by this Ordinance, take and subscribe before some Justice of the Peace, the Oath following:—

I, A. B., do swear, that I will faithfully, impartially, and honestly, according to the best of my skill and ability, execute and perform the several trusts, powers and authorities, vested in me as a Commissioner, by virtue of the Immigrant Labour Ordinance 1858, according to equity and good conscience, and without favor or affection, prejudice or partiality, to any person or persons whomsoever. And I do further swear, that I will not directly or indirectly receive, or knowingly permit any other person to receive, any fee or reward, for anything done or to be done under the said Ordinance, excepting only such as the said Ordinance appoints or authorizes. So help me God.

Which Oath, so taken and subscribed by each Commissioner, shall be enrolled in the Supreme Court.

Commissioners to
be paid for attend-
ances.

7. THE Commissioners shall each and severally be paid out of the monies by this Ordinance authorized to be raised, for each attendance at the meetings of the Commissioners legally appointed to be held; at the rate and in the manner hereinafter provided.

Office of Commis-
sioner to become
vacant in certain
cases.

8. IF any Commissioner, at any time subsequent to his appointment, accept or continue to hold any office or place of trust or profit under the Commissioners, or be either directly or indirectly concerned in any contract with the Commissioners, or participate in any manner in any work to be done for the Commissioners, or if any Commissioner at any time cease to be a resident in the Island for *three* consecutive months, or become bankrupt, insolvent, or compound with his creditors under any deed of composition, then in any of the cases aforesaid the office of such Commissioner shall become vacant, and thenceforth he shall cease from acting or voting as a Commissioner under this Ordinance. PROVIDED always, that it shall be lawful for the Governor to grant to any Commissioner leave of absence, and during such absence, or the lengthened sickness of any Commissioner, to appoint a temporary acting Commissioner to act and vote in his place.

AND with respect to the powers of the Commissioners, it is enacted as follows:

General powers
of the Commis-
sioners.

9. THE Commissioners shall have the management and superintendence of all affairs, matters and things, relating to the immigration of coolies or such other labourers into Ceylon, and to the regulation and extension of the sup^r

of labour to this Island. PROVIDED ALWAYS, that nothing herein shall be taken to diminish, or interfere with the right of any private person, or company of persons, to promote or occupy themselves in the immigration of coolie or other labourers into Ceylon.

Commissioners may make regulations. 10. IT shall be lawful for the Commissioners from time to time to make such regulations as they may think fit, in respect of the purposes hereinafter set forth as the purposes for which regulations may be made, and from time to time to alter or repeal any such regulations, and to make others. Provided that such regulations shall have been before publication submitted to, and affirmed by the Governor, by and with the advice and consent of the Executive Council, and that they be not repugnant to the laws of Ceylon, or any of the provisions of this Ordinance. And such regulations, so affirmed, shall be published three times in the Government Gazette of Ceylon, and shall be as binding on all persons, as if they formed part of, and were provisions of this Ordinance.

Commissioners may hold lands, &c. 11. AND for the purposes of this Ordinance, the Commissioners may purchase, or otherwise acquire and hold, such lands, tenements, and hereditaments, and sell, mortgage, or lease the same, or take on lease or become tenants of such other lands, tenements, and hereditaments, and may purchase, sell, mortgage, and hypothecate such Steam and other Vessels, as the Governor, with the advice and consent of the Executive Council, may think fit.

AND with respect to the proceedings of the Commissioners, it is enacted as follows:

Meetings, &c., of the Commissioners. 12. THE Commissioners shall hold meetings, at such times as they shall, by regulations affirmed as aforesaid, or otherwise, appoint for the purpose, and they may meet and adjourn as they think proper from time to time, and from place to place within the Island of Ceylon; and at any time the Governor, or any two of the Commissioners, or the Chairman, may require the Secretary to call a meeting of the Commissioners: and all questions at any such meetings, shall be determined by a majority of votes of the Commissioners present, and in the case of an equal division of votes, the Chairman shall have a casting vote, in addition to his vote as one of the Commissioners.

Chairman. 13. AT the first meeting of the Commissioners after the commencement of this Ordinance, and at the first meeting of the Commissioners held after each year, the Commissioners present at such meeting shall choose one of the Commissioners to act as Chairman of the Commissioners for the year following such choice; and if the Chairman die, or resign, or cease to be a Commissioner, or otherwise become disqualified to act, the Commissioners present at the next meeting after the occurrence of such vacancy, shall choose some other Commissioner to fill such vacancy; and every such Chairman so elected as last aforesaid shall continue in office only so long as the person in whose place he may be so elected would have been entitled to continue, if such death, resignation, removal or disqualification, had not happened. And if at any meeting of the

Commissioners the Chairman be not present, the Commissioner present who shall have been longest in office shall be Chairman of such meeting; and at the first meeting of the Commissioners, and whenever from any cause there shall be no Chairman of the Commissioners, the Commissioners shall appoint a Chairman by lot (who shall have a casting vote in addition to his own as Commissioner), to be Chairman for the purpose only of presiding at the election of the Chairman of the Commissioners.

14. THE Commissioners may make Regulations touching the Commissioners and their proceeding as follows:

Regulations affecting the Commissioners.

AS to the amount of remuneration to be paid to the Chairman and to each Commissioner for each attendance at meetings.

AS to general meetings of the Commissioners, and the place and places thereof, and to fines and penalties for not attending thereat.

AS to the manner of the taking and keeping the Minutes of the meetings, and records of other proceedings of the Commissioners.

AS to the duties of the Chairman.

AS to the duties of the Secretary to the Commission appointed by the Governor.

AS to Committees of the Commissioners.

AS to the powers that may be delegated to one Commissioner in cases of emergency.

Contracts to be made on the behalf and with the consent of the Government of Ceylon.

AND with respect to contracts to be made by the Commissioners, be it enacted as follows:

15. THE Commissioners may make, vary, or discharge contracts, or may delegate and appoint one Commissioner or more, or other Agent or Agents, under their common seal, to make, vary, or discharge such contracts on behalf of the Immigrant Labour Commissioners, as the said Commissioners may think fit; and the power herein given to the Commissioners or those delegated or appointed by them to make contracts may lawfully be exercised as follows:

THAT all contracts made by the Commissioners or on their behalf, shall be made in writing, save and except contracts the consideration of which is under £50; and such contracts as would if made between private persons be required to be in writing and under seal, shall, if made by the Commissioners, be in writing and under their common seal, and if made by any person or persons delegated and appointed as aforesaid on their behalf, shall be in writing and under his or their seals, except and provided always that any such contracts, whether under seal or not, shall be binding if signed or signed and sealed by a quorum of the Commissioners.

AND with regard to contracts under £50, the same may be made in such manner as if made between private persons they would be by law required to be made.

Disqualification
of Commissioner
not to invalidate
proceedings.

16. ANY acts done by any meeting of the Commissioners, or of a Committee of Commissioners, or by any person acting as a Commissioner, shall, notwithstanding it may afterwards be found that there was some defect in the appointment of such Commissioners, or persons acting as aforesaid, or that they, or any of them, were or was disqualified, be as valid as if every such person had been duly appointed, and was qualified to be a Commissioner.

Commissioners
not to be personally
liable.

17. NO Commissioner, by being party to, or executing in his capacity of Commissioner, any contract or other instrument, or otherwise lawfully exercising any of the powers given to any such Commissioner, shall be subject to be sued or prosecuted, by any person whomsoever; and the body, or goods, or lands of any such Commissioner shall not be liable to execution of any legal process, by reason of any contract or instrument so entered into, signed, or executed by them, or by reason of any lawful act done by them in the execution of any of their powers as Commissioners; and the Commissioners, their heirs, executors, or administrators, shall be indemnified out of the monies, by this Ordinance authorised and directed to be raised for all payments made, or liability incurred in respect of any acts done by them, and for all losses, costs, or damages which they may incur in the execution of the powers granted to them; and the Commissioners for the time being may apply such monies, when so raised, for the purposes of such indemnity.

AND with respect to agents, ministerial officers, and others, it is enacted as follows:—

Immigration A-
gents in India.

18. IT shall be lawful for the Governor, from time to time, to appoint Immigration Agents, to be stationed in India, to act in India as the Agents of the Government of Ceylon, in relation to matters concerning the immigration of coolie and other labourers into Ceylon, who shall be bound, nevertheless, to correspond with the Commissioners, and to keep them constantly informed on matters relating to their agency; and the Commissioners shall pay to the said Immigration Agents in India, out of the fund aforesaid, such sums of money as salary, as the Governor may think fit.

Secretary and
other officers to the
Commissioners.

19. IT shall be lawful for the Governor from time to time to appoint a Secretary to the said Commissioners; and for the Commissioners to pay out of the fund aforesaid to such Secretary such remuneration as the Governor may think fit.

Suspension of su-
perior officers.

20. THE Governor, with the advice and consent of the Executive Council, shall have the power of dismissing the Commissioners, Immigration Agents, and Secretary, for misconduct, provided that before any order of dismissal the accused party shall have received notice of the charge against him in writing, and be entitled to be heard before the Governor and Council by himself, his counsel, proctors, agents, and witnesses; and further provided, that it shall be lawful for the Governor to suspend any of the said officers until such case as aforesaid can be heard before the Council as aforesaid.

Commissioners to appoint and pay Clerks, &c.

21. THE Commissioners shall nominate and appoint persons to be Clerks, Servants, and other subordinate officers under them, and the persons so nominated and appointed shall be paid by the Commissioners such sums by way of salary as they shall think fit.

Officers, &c., to give security.

22. BEFORE any person intrusted with the custody or controul of monies, whether Secretary, Collector, or other officer of the Commissioners, shall enter upon his office, the Commissioners shall take security from him for the faithful execution of his office.

Monies, documents, &c., in hands of officers, to be delivered up on demand, &c.

23. IF any Agent, Collector or other officer of the Commissioners shall be in the possession of any money, deeds, instruments, vouchers, receipts, accounts, books, papers, matters, or things which have been entrusted to him by or for and on behalf of the Commissioners, or shall have come into his possession in the execution of his office, and shall refuse to deliver such to the Commissioners on order from them made in accordance with the regulations of the Commissioners, or shall wilfully neglect to deliver up such when and where it is his duty in the execution of his office so to do, he may, on complaint made before any District Judge, Commissioner of the Court of Requests, or Police Magistrate, be summoned before such Judge, Commissioner, or Magistrate, and ordered to shew cause why the same have not been delivered up, and if the officer so summoned shall not shew to the satisfaction of such Judge, Commissioner, or Magistrate, sufficient cause for detaining the same, such Judge, Commissioner, or Magistrate, may order the same to be delivered up to the Commissioners, and may inflict the penalty imposed in the regulations in that behalf made and provided. PROVIDED always, that if the officer so summoned and ordered, give notice of Appeal against the order of such Judge, Commissioner, or Magistrate, the monies, papers, or other matters or things in question shall be delivered immediately into the hands of such Judge, Commissioner, or Magistrate, to await the result of such appeal; and provided that no such proceeding against any such officer as aforesaid shall deprive the Commissioners of any remedy they might otherwise have against such officer, or any surety of such officer.

Regulations respecting officers, &c., and their duties.

24. AND the Commissioners may make regulations touching the accountability of their officers, servants and others, and their respective duties; as follows:

AS to the amount of security to be taken from the Secretary, and each class of collectors and other officers.

AS to penalties on officers and others refusing to deliver up documents.

AS to keeping accounts by officers and others.

AS to the several duties of the officers of the Commissioners and the regulation thereof.

AS to suspending and discharging ministerial officers, collectors, and other servants of the Commissioners appointed by them.

AS to penalties on officers for wilful neglect of duty.

And a copy of such regulations, signed by the Secretary, shall be given to every officer and servant of the Commissioners affected thereby.

AND with respect to provisions for creating a fund for the purposes of this Ordinance, be it enacted as follows :

25. FROM and after the first day of January in the year of our Lord 1859, every employer of coolie or such other immigrant labourers, shall pay a tax in respect of such labourers to be assessed and payable in the manner hereinafter mentioned.

The tax to be assessed for every 120 days' labour.

26. THE said tax shall be assessed and levied on the whole number or sum of the days' labour (whether done under contract or not) severally and individually performed in one year by coolie immigrant laborers, that is to say, at a rate of not more than Three shillings for every one hundred and twenty days' labour performed in each year by such labourers.

27. WHEN an employer shall, by reason of any labour employed under him being contracted for by him, be unable to return the number of days labour, such employer shall state and return to the Commissioners the whole sum paid under contract for Coolie immigrant labour by him, and the average price of a day's labour paid by him in the year then next previous, and the quotient resulting from division of such whole sum paid under contract by the said average price of a day's labour, shall be the number of days labour on which he shall be assessed and taxed in respect of such contract labour.

The tax when to be paid.

28. THE said tax shall be payable by each employer as aforesaid, on or before the Fifteenth day of February in each year, in respect of the whole number of days' labour performed in his employment, and that of his predecessors in the same charge, in the year then next previous, in the manner in this Ordinance provided.

Tax not to exceed Three shillings a head.

29. THE amount of the said tax shall be determined by the said Governor with the advice and consent of the Executive Council, according to the report and advice of the said Commissioners for each successive year, and the amount of the said tax so determined, shall be proclaimed and published in the Government Gazette, one month before the commencement of the year in which such tax is to be collected. Provided always, that the amount of such tax shall not exceed Three shillings for every 120 days' labour performed as herein mentioned.

Commissioners to assess tax.

30. THE amount of tax to be paid by every and each employer in each year shall be determined and assessed by the Commissioners in the manner herein provided.

AND with regard to the assessment and collection of the said tax, it is enacted as follows :

Regulations respecting the tax.

31. THE Commissioners may make regulations touching the collection of the said tax, as follows:—

AS to the manner of collecting the said tax.

AS to the forms, written or printed, which they will require persons liable to pay the said tax to fill up or sign.

AS to the instruments, books, check-rolls, accounts and papers, they may require to be furnished to them by the said persons so liable.

AS to the duties of the said collectors.

AS to penalties on collectors.

AS to penalties on persons obstructing the collection of the said Tax, or refusing to pay the same, or making false returns.

Power of Commissioners to call for papers, &c.

32. THE Commissioners are hereby empowered to call for and require the production before them by the person in whose custody the same may be, of all instruments, books, papers, check-rolls, accounts, and other documents that they shall deem necessary to enable them to assess and to cause to be collected the said tax.

Returns to be attested.

33. IT shall be lawful for the Commissioners, whenever it shall appear fit to them, to require any person to make a declaration before a Justice of the Peace, of the truth of any return furnished to them under the 30th section, or any Regulation made in pursuance thereof, which declaration shall be in such form as the Commissioners shall think fit to require.

The Commissioners may examine persons, &c.

34. THE Commissioners may, when and as often as they shall deem it necessary for the purpose of assessing and collecting the said tax, summon and call before them such persons as they shall think fit, and examine them touching matters concerning and connected with the collection of the said tax.

Penalty on persons not producing documents or refusing to answer.

35. ANY person refusing or neglecting to produce before the Commissioners any such instruments, books, check-rolls, papers, accounts, or other documents he shall have been lawfully required to produce, or refusing or neglecting to attend the Commissioners, when required, without lawful excuse, or refusing to answer any question lawfully put to him by the said Commissioners, shall be guilty of an offence for every such refusal or act of neglect, and on conviction thereof, shall be liable to a fine not exceeding Fifty pounds.

Employers to furnish returns, &c.

36. THE publication of any regulation made by the Commissioners as to requiring returns, instruments, books, check-rolls, accounts and papers, to be furnished to them by employers, and others, liable to furnish the same, shall be sufficient notice to the said employers and others, to furnish the same, in accordance with such regulations, and any such employers or others, may demand from the Commissioners, a copy of such regulations relating to the furnishing of instruments, books, check-rolls, accounts and papers, aforesaid.

Commissioners to give notice of assessment.

37. THE Commissioners shall give notice in writing, or partly printed and partly written, to any employer assessed by them, on or before the Twentieth day of January, of the assessment for the year then next pre-

vious; and such notice shall state the number of 'days' labour in respect of which such employer is assessed, the amount of tax payable by him in respect of such assessment, the day when such tax is payable, the collector or other person to whom the said tax is to be paid, and the amount of penalty that will be incurred by the neglect or refusal to pay such tax when the same becomes due; and the said notice shall contain such other matters, and be otherwise in such form, as the said Commissioners shall deem advisable, and shall be signed by the Secretary, or some other officer for that purpose appointed by them, and shall be indorsed with the date of the service of such notice, and the signature of the person serving the same. And it shall be sufficient if such notice is sent to the person to whom the same is addressed through the Public Post Office of Ceylon; Provided that a list or schedule of such assessments shall be published in three successive issues of the Government Gazette of Ceylon, and the said notice so addressed, and the said publications, shall be good notice in law of such assessments to all persons concerned.

Commissioners to nominate Collectors. 38. THE Commissioners shall nominate and appoint persons to collect the said tax in the manner herein provided, and the said persons so nominated and appointed collectors, shall be paid by the Commissioners a per centage, by way of commission, on all sums severally and respectively collected by them.

Tax to belong to the Commissioners. 39. THE said Tax, as soon as the same is collected, or any part thereof and all other monies whatsoever, arising from the exercise of the powers herein conferred on the said Commissioners, or other operation of this Ordinance, shall be paid into such bank as the Governor shall from time to time be pleased to appoint, and the money so paid, shall be the money of the Immigrant Labour Commissioners, and shall be the fund by this Ordinance intended to be created.

Tax how to be applied. 40. THE said Tax, and other monies in the last section mentioned, shall be applied to the purposes of this Ordinance, and to no other purpose whatsoever; and if the Commissioners, or any of them, shall wilfully apply the said monies or sums of money for other than the purposes set out in this Ordinance, they shall be guilty of an offence.

Auditor. 41. THE Auditor General shall be the Auditor of the Immigrant Labour Commission, and shall exercise the same rights in respect thereof, and the affairs and accounts of the same, as he does in respect of the affairs and accounts of the Government of Ceylon.

Government to advance money until tax collected. 42. UNTIL the said Tax be collected, it shall be lawful for the Governor, with the advice and consent of the Executive Council, to order to be paid and advanced out of the monies of Her Majesty's Government of Ceylon, such sums of money not in all exceeding £20,000, as may be necessary for the purposes of this Ordinance, as part of the fund by this Ordinance created, and the said sums so advanced, shall be paid into such bank or banks, as the Governor under the 39th clause shall have appointed, to the

account of, and to form part of the said fund, and the sums of money so advanced, shall be applied, as if the same had been raised by the Tax herein authorized, and the said sums so advanced shall be repaid out of, and form a first charge upon the monies raised by the said Tax.

Commissioners to
prepare accounts
for audit, &c.

43. THE Commissioners shall keep or cause to be kept, all proper and necessary books for keeping the accounts of the said Commission, and shall prepare or cause to be prepared, so often as the Auditor General, by reasonable notice shall require of them, such full balance sheets and accounts of all receipts and disbursements received and made by them, and of all such other matters connected therewith, as the Auditor General shall, by notice in writing, demand and require of them; and such balance sheets and accounts shall be in the form that the Auditor General shall from time to time direct, and shall be attested and signed by such persons as the Governor with the advice and consent of the Executive Council may determine, and a general balance sheet of the receipts and disbursements of the Commissioners shall be annually published in the Government Gazette.

Commissioners to
give receipts.

44. THE Commissioners shall, by themselves or their agents, collectors, or other officers, give receipts for all monies paid to and received by them.

Taxes and penalties to be recovered
in a summary manner.

45. EVERY tax, penalty or forfeiture, imposed by this Ordinance, or any regulation made in pursuance thereof, the recovery of which is not otherwise provided for, may be recovered by summary proceeding before any District Judge, or Commissioner of the Court of Requests, and on complaint being made to any of the above persons, he shall issue a summons stating the substance of such complaint, and requiring the party complained against to appear before him, at a time and place to be named in such summons; and every such summons shall be served on the party in default, either in person or by leaving the same with some inmate at his usual place of abode; and upon the appearance of the party complained against, or in his absence, after proof of the due service of such summons, it shall be lawful for any such person to proceed to the hearing of the complaint, and although no information in writing or in print shall have been exhibited before him; and upon proof of the default either by the confession of the party complained against, or upon the oath or affirmation of one credible witness or more, it shall be lawful for such person to give judgment against the defaulter, and upon such conviction to adjudge the defaulter to pay the tax, penalty, or forfeiture, as well as such costs attending the adjudication as such person shall think fit; and in default of such payment, to order the recovery thereof by process of execution against the person and property of such defaulter.

Notices how to
be served.

46. ALL notices required by this Ordinance or any regulation made in pursuance thereof, may be served on the person to whom such notice is given, either personally or by leaving the same with some inmate at his usual or best known place of abode.

Service on Commissioners.

47. ALL process and notices may be served on the Commissioners by serving the same upon the Secretary.

Penalties may
be imposed by regula-
tion.

48. WHEREVER a penalty is not imposed by this Ordinance in respect of any duty or obligation created herein, it shall be lawful for the Commissioners by regulation to impose such reasonable penalties upon all persons omitting to perform any duty, or to fulfil any obligation created by this Ordinance, or any regulation made in pursuance thereof, provided that such penalty shall not exceed £10 for any one offence.

Regulations as
to discipline and
health.

49. AND whereas it is intended that the said Commissioners shall purchase, hire, or charter Steamers and other vessels for the purposes of this Ordinance, and shall demand and take fares and make other necessary charges for the conveyance of the said coolie immigrant labourers and other passengers to and from Ceylon, and shall make full provision for the disembarkation of the said persons and for their orderly reception in Ceylon, and the maintenance of health, it is enacted, that it shall be lawful for the said Commissioners to make such regulations as they may think fit in the manner in this Ordinance provided in respect of the following matters.

AS to the fares and other charges on board the said vessels.

AS to the maintenance of discipline and the preservation of health on board the said vessels.

AS to the order of disembarkation.

AS to the maintenance of discipline and preservation of health amongst the said coolie immigrant labourers whilst remaining in the port of disembarkation or the immediate neighbourhood thereof.

Interpretation.

50. IN reading and construing this Ordinance, the word "Employer," shall be taken to mean any person or persons actually employing coolies, and possessing the chief supervision and disposal of their services and labour, and his, or their, predecessor, or predecessors, if any, in the same charge, for the year then next previous. And the word "Immigrant Coolie labourer," shall be taken to mean any Indian or other Immigrant Coolie, whether male or female, in search of or employed in Labour (not being domestic labour) in this Island.

Passed in Council the Eighth day of December, One Thousand Eight Hundred and Fifty-eight.

NOTE. 1.—Where property of different tenures or holdings, or held under different titles, contracted to be sold at one entire price for the whole shall be conveyed to the purchaser in separate parts or parcels, by different deeds or instruments, the purchase or consideration money shall be divided and apportioned in such manner as the parties shall think fit, so that a distinct price or consideration for each separate part or parcel may be set forth in or upon the instrument of conveyance relating thereto; which instrument shall be charged with the duty in respect of the price or consideration money therein set forth.

2.—And where property, contracted to be purchased by two or more persons jointly, or by any person for himself and others, or wholly for others, at one entire price for the whole, shall be conveyed in parts by separate deeds or instruments to the persons for whom the same shall be purchased, for distinct parts or shares of the purchase money; the instrument of conveyance, of each separate part or parcels shall be charged with the duty, in respect of the sum of money therein specified as the consideration for the same.

3.—But if separate parts or parcels of such property shall be conveyed to, or to the use of or in trust for different persons, in and by one and the same deed or instrument, then such instrument shall be charged with the duty in respect of the aggregate amount of the purchase or consideration monies therein mentioned to be paid or agreed to be paid for the property thereby conveyed.

4.—Where any person, having contracted for the purchase of property but not having obtained a conveyance thereof, shall contract to sell to any other person and the same shall in consequence be conveyed immediately to the sub-purchaser; the instrument of conveyance shall be charged with the duty, in respect of the purchase or consideration money therein mentioned to be paid or agreed to be paid by the sub-purchaser.

- 5.—And where any person having contracted for the purchase of property, but not having obtained a conveyance thereof, shall contract to sell the whole or any part or parts thereof, to any other person or persons, and the same shall, in consequence, be conveyed by the original seller to different persons in parts or parcels; the instrument of conveyance of each part or parcel thereof shall be charged with the duty in respect only of the purchase or consideration money which shall be therein mentioned to be paid or agreed to be paid for the same, by the person or persons to whom or to whose use or in trust for whom the conveyance shall be made, without regard to the amount of the original purchase money.
- 6.—And in all cases of such sub-sales as aforesaid, the sub-purchasers, and the person immediately selling to them, shall be deemed and taken to be the purchasers and sellers, within the intent and meaning of the provisions and regulations of this Ordinance relating to the duties on conveyances of property hereby imposed.
- 7.—But where any such sub-purchasers shall take an actual conveyance of the interest of the person immediately selling to him, which shall be chargeable with the duty in respect of the purchase or consideration money paid or agreed to be paid by him, and shall be duly stamped accordingly; the instrument of conveyance to be afterwards made to him of the property in question by the original seller, shall be exempted from the duty, and be charged only with the duty on a notarial deed.
- 8.—And where any property, separately contracted to be purchased of different persons, at separate and distinct prices, shall be conveyed to the purchaser, or as he shall direct, in and by one and the same instrument; the instrument shall be charged with the said duty in respect of the aggregate amount of the purchase or consideration monies therein mentioned to be paid or agreed to be paid for the same.
- 9.—Where any lands, or other property shall be sold and conveyed, subject to any mortgage, bond, or other debt, or to any gross or entire sum of money, to be afterwards paid by the purchaser, such sum of money or debt shall be deemed the purchase or consideration money or part of the purchase or consideration money as the case may be, in respect whereof the duty is to be paid.
- 10.—And where there shall be several deeds, instruments or writings, for completing the title to the property sold; such of them as are not liable to the said *ad valorem* duty, shall be charged with the duty to which the same may be liable, under any general or particular description of such deeds, instruments or writings contained in this Schedule.
- 11.—And when any deed or instrument, operating as a conveyance on the sale of any property, shall operate also as a conveyance of any other than the property sold by way of settlement, or for any other purpose, or shall also contain any other matter or things besides what shall be incident to the sale and conveyance of the property sold, or relate to the title thereto, such instrument shall be charged, in addition to the duty to which it shall be liable as a conveyance, with such further Stamp Duty, as any separate deed containing the other matter, would have been chargeable with.

Exemptions.

All Affidavits or Affirmations, for verifying service of process; all warrants of attachment issued by the Court at its own instance.

Provided also, that no Government Officer suing or being sued, or intervening in his official capacity, shall be required to use any Stamps in any Court of Requests. And no person duly admitted to sue, defend, or intervene as a pauper, shall be required to use any Stamps in the said Court. But if Judgment

for Costs shall be given in favor of such Government Officer or pauper, the value of such Stamps as would have been used by him if he had not been allowed to proceed without using Stamps, or the value of such part thereof as shall be decreed by the said judgment, shall be paid by the party against whom such Judgment shall have been given, to the Commissioner of Stamps or to the Clerk of the Court in which the case shall have been instituted: for and on behalf of such Commissioner, and in failure of such payment, the said Clerk shall insert the said value in the Writ of Execution issued by the party in whose favor such Judgment shall have been given, and shall pay the said value when recovered to the said Commissioner from the first amount levied under the said Writ; or if no such Writ be issued, the said Clerk shall issue a Writ of Execution free of Stamp Duty on the recovery of the said value to be appropriated in like manner.

And no Summons, Subpoenas, Warrant of Arrest or in Execution, nor any other Citation or Writ whatsoever, which has once been issued out of the Court and returned by the officer to whom it was directed, shall on any pretext whatever be reissued, unless any such process has been returned not served or executed by reason that the party could not be found or had left the Jurisdiction of the Court, or by reason that no property of the debtor or none sufficient to satisfy the exigency of any Writ of Execution could be found.

Provided always, that in respect of any Subpoena or Subpoenas, the same may be re-issued although served, in case the Commissioner shall, on good cause shown, so order. Provided also, that in appeals to the Supreme Court, the appellant shall furnish to the Secretary of the District Court, the proper Stamp for the decree or order of the Supreme Court which may be made on such appeal.

No party shall be allowed to take any proceedings on or by virtue of any Judgment or Decree, without first taking a copy thereof.

INLAND POSTAGE.

LETTERS.

Upon letters not exceeding $\frac{1}{2}$ oz. in weight	1d.
Above $\frac{1}{2}$ oz. and not exceeding 1 oz.	2d.
Above 1 oz. and not exceeding 2 oz.	4d.
Above 2 oz. and not exceeding 3 oz.	6d.
and so on increasing 2d. for every additional ounce, or fractional part of an ounce.	

Letters forwarded unpaid will be charged double Postage. Should the person to whom the letter is addressed, refuse to receive it, the Postage will be charged on the sender.

Letters having affixed to them a Postage Stamp, or Stamps, the value of which shall be less than the rate of Postage to which they would be liable, will be charged double the amount of the difference, between the value of the Stamps affixed, and the Postage due upon them.

It is not compulsory to prepay by Stamp, but it much facilitates the business of this Department, if Stamps of the proper value are affixed to letters.

Stamps should always be affixed on the face of a letter or packet, and at the upper right hand corner.

Re-directed letters are charged with the single rate of Postage, from the place at which they are re-directed, independent of all other Postage that may already have been paid upon them.

Letters which persons refuse to receive are returned to the Office from whence they were dispatched, where they are opened, and returned to the senders who shall be charged with the Postage due upon such as have been sent unpaid.

Letters addressed to persons who cannot be found will be returned to the person sending the same, if known, but if not, they will be returned to the Office from whence they were first dispatched, and after the expiration of three months, they will be examined, and dealt with according to circumstances.

Letters received from India, by Dawk, are subject to the same rates of postage, as prepaid letters passing through the Island.

SHIP LETTERS.

Letters forwarded to, or received from, a British Colony or Foreign Country not passing through the United Kingdom, are charged at the rate of 3d. per $\frac{1}{2}$ oz.

REGISTRATION OF LETTERS.

Prepaid letters can be registered on the payment of a Registration fee of Six-pence.

PAPERS.

Papers are charged $\frac{1}{2}$ d.

Prepayment by Stamp is compulsory.

Newspapers, Prices Current, or Commercial Lists, need not be sent through the Post Office.

In forwarding a Newspaper, Price Current, or Commercial List, through the Post, the following Rules must be observed:—

- 1st. It shall be sent without a cover, or in a cover open at the sides.
- 2nd. There shall be no word or communication printed on the paper after its publication, or upon the cover thereof, nor any writing or marks upon it, or upon the cover of it, except the name and address of the person to whom it is sent, and the name and address of the sender.
- 3rd. There shall be no paper or thing enclosed in or with any such paper.

If the above Rules are not observed, such Paper, Price Current, or Commercial List will be charged as an unpaid letter.

The Postmaster General or any one authorised by him, may examine any Newspaper, Price Current, or Commercial list, for the purpose of ascertaining whether any other paper or writing whatsoever be enclosed or concealed in it.

A re-directed Newspaper, Price Current, or Commercial List will be forwarded without a y additional postage being paid upon it, provided it has not been opened. If a Newspaper has been opened, it shall be charged with the same rate as it would be liable to were it then posted for the first time.

Newspapers received from abroad are delivered free of charge.

BOOKS.

<i>Books not weighing more than 2 ounces are charged</i>	<i>1d.</i>
<i>„ „ weighing 2 ounces, but not exceeding 4 ounces</i>	<i>2d.</i>
<i>„ „ 4 „ „ do. 8 „ „</i>	<i>4d.</i>
<i>„ „ 8 „ „ do. 1 lb. „</i>	<i>8d.</i>

and so on, charging 4d. for every additional $\frac{1}{2}$ lb.

The following Rules must be observed:

1st. The postage shall be prepaid in full, by means of Postage Stamps affixed outside the packet or its cover.

2nd. Every packet shall be sent either without a cover, or in a cover open at the ends

3rd. A Book-packet, whatever may be the postage paid thereon, shall not contain any letter, closed or open, or any enclosure, sealed, or otherwise closed against inspection; nor shall there be any letter, nor any communication of the nature of a letter, written or printed, in any such packet or on its cover. Entries, however, merely stating who'sen's the book or other publication, or to whom it is given, shall not be regarded as a letter.

4th. No Book-packet will be received, if it exceeds Three pounds in weight.

5th. Any Book-packet which is not open at the ends, or has any letter, or any communication of the nature of a letter, written or printed in it, or upon its cover, shall be charged with the "unpaid" or double letter postage.

6th. If a Book-packet be not sufficiently prepaid with Stamps, but nevertheless bear a Stamp of the value of One penny or more, it shall be forwarded, charged with a book postage of double the amount of the difference between the value of the Stamps affixed thereto, and the postage to which the same would be liable if duly and properly stamped when posted.

Book-packets can be registered on the payment of a registration fee of Six-pence.

Books received from India by Dawk, are subject to the same rates of postage as books passing through the Island.

PARCELS.

The following are the charges leviable upon Parcels:

		Os.	Sd.
Upon parcels not exceeding 1 lb.			
" exceeding 1 lb. and not exceeding 1½ lbs.		1	0
" " 1½ lbs.	2 lbs.	1	4
" " 2 lbs.	2½ lbs.	1	8
" " 2½ lbs.	3 lbs.	2	0

No parcel shall exceed Three pounds in weight; and every parcel shall be made up in a form which can be conveniently carried by a Post Office runner.

A parcel shall not contain any letter; and any parcel which shall be found to contain any letter, or any communication of the nature of a letter, shall be charged as an unpaid letter, according to its weight.

Prepayment optional. The postage may be paid either by Stamps or in money.

Parcels can be registered on the payment of a registration fee of Six-pence.

Parcels will only be forwarded on days when the weight of the ordinary Mails will permit of it.

GENERAL RULES.

Any person opening a Letter, Paper, Book-packet, or Parcel, is bound to pay the postage thereof; should it however appear, that a letter has been sent to annoy the person addressed, the Postmaster General may remit the postage of the same.

No dangerous substance is to be sent through the Post Office, under a penalty of Twenty pounds.

Money, Jewels, Ornaments, or other valuable articles, sent by Post, are forwarded at the entire risk of the senders, whether the letter or packet containing the same be registered or not, such letter or packet being charged with letter postage. Registration, however, affords greater security, and should be availed of in all cases where articles of value are transmitted through the Post.

Letters, Books, Packets, or Parcels, once posted at any Post Office, cannot be recalled on any pretence whatever.

Official Letters are to contain no private note, or private communication of any sort or kind, under a penalty of Five pounds. Any official letter suspected to contain any private communication, must be opened in the presence of the Postmaster General.

Letters from private individuals to Officers of Government, concerning matters in which they are personally concerned, are not deemed official, and must be paid for.

No Letter, Book-packet, or Parcel can be registered, unless it is brought to the Post Office half an hour before the closing of the Mail or bag by which it is to be dispatched.

Private Expresses may be sent at the instance of any person, when considered practicable by the Postmaster General or his Deputies, at a charge of Six-pence per mile.

All Complaints requiring redress, such as surcharge of postage, mis-sending, or delay in the delivery of letters, &c, must be made to the Postmaster General, accompanied by the envelopes of the Letters referred to; the number of the delivery Peon should always be stated.

Securing Letters with Sealing Wax.—The Public are urgently recommended to close all letters, containing Remittances, Cheques, Bank Notes, or valuable documents, with *Sealing Wax*. Bank Notes ought always to be

divided, one half being sent after the receipt of the other half has been acknowledged.

Letters closed with Gum, or the ordinary wafer, can be opened without any difficulty, or the slightest chance of detection.

POSTAL NOTICE.

As much delay arises in the transmission of correspondence, from the absence of full information as to the Post Station nearest to which the party resides, it is requested that, in addition to the name of the residence, Estate, or village, the name of the Post town may also be given. When it is desired that Letters or Mail packets, passing through the Post, be delivered to an Agent or other party, it is requested that instructions may be given to that effect, upon the face of the letter, (that part which bears the address.)

MINUTE.

BY THE GOVERNOR.

IN virtue of the Ordinance No. 14 of 1856, the Governor, with the advice of the Executive Council, is pleased to direct that the following revised Rules with regard to the Post Office, shall be substituted for those issued on the 25th March, 1857:—

Expresses.

1. Private Expresses may be sent at the instance of any person, when considered practicable by the Postmaster General or his Deputies, at a charge of Six pence per mile.

Parcels.

2. Parcels other than Book-packets, shall only be forwarded by the Post on lines of road on which there are no private establishments by which they can be conveyed.

3. Parcels shall not be forwarded on days when the weight of the Mail would thereby be increased beyond the limit of 14 lbs.; and the Postmaster General at Colombo, or any person authorised to act for him at any Outstation, shall be permitted to refuse to receive such parcel, or, at the option of the person tendering the same, to detain it, till a day on which the smaller weight of the Mail will allow it to be sent.

4. No parcel shall exceed 3 lbs. in weight; and every parcel shall be made up in a form which can conveniently be carried by a Post Office runner.

5. A parcel shall not contain any letter; and any parcel which shall be found to contain any letter, or any communication of the nature of a letter, shall be charged with the "unpaid," or double Letter Postage, according to its weight.

6. Any parcel not exceeding one pound in weight shall be charged Eight-pence, and a further charge of Four pence shall be made for every additional half pound, or any less weight.

Kandy and Galle Evening Mails.

7. Until Mail-carts be established for the conveyance of Mails by night, Letters posted before half-past four, p. m., to be forwarded between Colombo and Kandy, and Colombo and Galle, and *vice versa*, will be dispatched by runners, who will leave at five o'clock precisely. No packet or parcel will be sent by the runners.

8. On the establishment of such Mail-carts between the above places, the Mails will be closed half an hour before the Postmaster General is required by his contract to deliver the Mails to the Contractors, and due notification of such time will be given by him to the Public.

Letters posted after Office hours.

9. In Colombo, Kandy, and Galle, Boxes will be open during the night, for the receipt of letters to be forwarded by the morning's Mails.

10. On the days for closing the Overland Mails at Colombo and Kandy, the packets for such Mails will be made up at five o'clock p. m. precisely; but letters will continue to be received, without any extra charge, until six o'clock, and will be put up in the packet to be made up at Galle.

11. At Galle, a fee of Six-pence will be levied in money for every letter posted after the hour at which it shall have been notified that the packets by Mail Steamers will be closed.

Sale of Postage Stamps.

12. Postage Stamps will be sold at the Post Offices, of any station where there is a Government Agent, or an Assistant Government Agent.

By His Excellency's Command,

C. J. MACCARTHY.

COMPULSORY PRE-PAYMENT OF THE BRITISH PACKET POSTAGE,

POSTAGE ON OVERLAND LETTERS, VIA SOUTHAMPTON.

General Post Office,
Colombo, 4th January, 1859.

With reference to a Notice already given, with respect to the Compulsory Prepayment of Letters between Ceylon and England, the following communication received from the Secretary to the General Post Office, London, is published for general information.

GEORGE LEE,
Postmaster General.

General Post Office,
London, 2nd December, 1858.

SIR, — The Government of Ceylon having acquiesced in the proposal for extending the system of Compulsory Prepayment of Postage to all Letters posted in the United Kingdom addressed to Ceylon, or posted in Ceylon addressed to the United Kingdom, and having fixed the 1st January next as the date for bringing the measure into operation in the Colony, the same date has been decided upon for carrying the measure into effect in the United Kingdom.

But, in order to give full time to the Public in this Country to become acquainted with the measure, Letters posted in the United Kingdom addressed to Ceylon unpaid, or bearing a stamp or stamps of a less value than the single rate of postage, on or after the 1st proximo, and up to the 31st March next, will be forwarded charged with the full postage which should have been prepaid upon them when posted, and one rate in addition as a fine.

G. LEE, Esq.,
Ceylon.

I am, &c.,
P. HILL.

The following are the British rates of Packet Postage fixed by the Lords of the Treasury, according to which all Letters received "Unpaid" from, or despatched "Paid" to the United Kingdom via Southampton, will be taxed, viz: —

	English	Colonial	Total.
When not exceeding half an ounce	5d.	1d.	6d.
Above half ounce and not exceeding 1 ounce	10d.	2d.	1s.
1 do. and not exceeding 2 do.	1s. 8d.	4d.	2s.
2 do. and not exceeding 5 do.	2s. 6d.	6d.	3s.

and so on, increasing one shilling for every additional ounce weight, or any fraction thereof.

PRE-PAYMENT OF LETTERS VIA MARSEILLES.

The charges will be the same as on letters forwarded via Southampton, with the addition of a French Transit Rate of 3d. the $\frac{1}{2}$ oz.

The total charge on prepaid letters forwarded via Marseilles will be as follows, viz: —

When under $\frac{1}{2}$ oz. in weight	0l. 0s. 9d.
When weighing $\frac{1}{2}$ oz. and under 1oz.	0 1 0
do. $\frac{1}{2}$ oz. and under $\frac{3}{4}$ oz.	0 1 9

and so on, charging 3d. for every $\frac{1}{2}$ oz. or fraction of a $\frac{1}{2}$ oz. in addition to the usual charges on letters forwarded via Southampton.

OVERLAND LETTERS

NOT SUPERSCRIBED "VIA SOUTHAMPTON."

Notice is hereby given, that under instructions received from the Postmaster General, London all Overland Letters not superscribed to be sent "via Southampton" will be forwarded by way of Marseilles. In this manner they will reach England some days earlier, but will subject the party receiving them to a much higher rate of Postage.

OPTIONAL PAYMENT OF POSTAGE ON LETTERS

SENT BY THE CONTRACT-STEAMERS TO INDIA AND CHINA.

UNDER instructions received from Her Majesty's General Post Office in London, it will in future be optional with parties writing by the Contract Steamers from Point de Galle to the Presidencies of India or to Hong-Kong, to prepay, or not, the British Packet Postage directed to be levied under the Treasury Warrant dated the 11th day of September 1845; but that postage *must* always be paid in advance on letters sent to any foreign country or possession.

The British Packet rate will be levied here on letters on which it shall not have been prepaid in the Presidencies of India or in Hong Kong.

REGISTRY OF OVERLAND LETTERS TO ENGLAND.

In obedience to instructions received from Her Majesty's Postmaster General, Notice is hereby given, that prepayment of the Registration Fee upon letters posted in Ceylon, for transmission out of the Island, will, in future, be compulsory.

LETTERS FOR THE NORTHERN COUNTRIES OF EUROPE, VIA TRIESTE.

Notice is hereby given, that all Letters destined for the Northern Countries of Europe by the route "*via Trieste*," will be made up in separate packets addressed to the Austrian Post Office at Alexandria.

The Steam Postage of 1s. per $\frac{1}{2}$ oz. must be prepaid on all letters intended for despatch by way of Trieste, as well as the Colonial postage of 1d.

BOOK POSTAGE TO ENGLAND,

- 1.—A Book-packet may contain any number of separate Books, Almanacs, Maps or Prints, and any quantity of paper, vellum or parchment (to the exclusion of Letters whether sealed or open,) and the Books, Maps, Papers, &c., may be either printed, written, or plain, or any mixture of the three.
- 2.—The Name and Address of the sender, or any thing else not in the nature of a letter, may also be written or printed upon the envelope or cover of the packet, in addition to the Name and Address of the person to whom it may be forwarded.
- 3.—All legitimate binding, mounting, or covering of the same, or of any portion thereof will be allowed, whether such binding, &c., be loose or attached; as also rollers in the case of prints; markers (whether of paper or otherwise) in the case of books; and in short whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto.
- 4.—The rates of Postage on Book-packets will remain as heretofore, viz:

For each packet not exceeding 4 ounces in weight	0s. 4d.
For each packet above 4 ounces and not exceeding 8 ounces	0 8
For each packet above 8 ounces and not exceeding 1 pound	1 4

 and so on, increasing 8d. for every additional half pound.
- 5.—The following regulations, however, must be observed.
 Every packet must be either without a cover, or in a cover open at the ends or sides. It must not contain any letter, open or sealed, nor any sealed enclosure whatever. No packet must exceed two feet in length, breadth, or width.
 The postage of Book-packets must be paid *in advance*, and if within the United Kingdom, by means of stamps.
 Should a Book-packet be posted unpaid or with a pre-payment of less than Four-pence, or be enclosed in a cover not open at the ends or sides, or should it exceed the dimensions specified, such packet will be sent to the Dead Letter Office, and treated as at present.
 But when a Book-packet shall have been posted and insufficiently prepaid, and it shall appear that the single rate of Four-pence at least has been paid, such packet will be forwarded, charged with an additional postage equal to the deficiency, plus another single rate as a fine.
 Should any Letter whatever, closed or open, or any enclosure, sealed or otherwise closed against inspection, be found in a Book-packet, such letter or other enclosure

will be forwarded charged, not only with the postage due upon it as an unpaid letter, but also with an additional sum of Eight pence, being the single book post rate. The packet itself, however, in such case will be forwarded (provided the postage shall have been duly paid) without any extra charge.

6.—The packets can be sent *via Southampton* only.

BOOK POST BETWEEN CEYLON AND INDIA, HONG-KONG, AUSTRALIA, MALTA, GIBRALTAR, AND MAURITIUS.

UNDER the provisions of a Warrant of the Lords of the Treasury, Books sent between Ceylon and the several Colonies specified above, will be subject, in all respects, to the same regulations as Books sent between the United Kingdom and Ceylon; and as regards Books between Ceylon on the one hand, and Malta or Gibraltar on the other, the same rates of postage will be charged, viz:—

For a Packet not exceeding 4 ozs. in weight	-	0s. 4d.
„ exceeding 4 ozs. and not exceeding $\frac{1}{2}$ lb.	-	0 8
„ exceeding $\frac{1}{2}$ lb. and not exceeding 1 lb.	-	1 4
„ exceeding 1 lb. and not exceeding $1\frac{1}{2}$ lb.	-	2 0
„ exceeding $1\frac{1}{2}$ lb. and not exceeding 2 lbs.	-	2 8

and so on, increasing Eight pence for every additional half pound or fraction of half a pound.

But upon Books sent between Ceylon and India, Hong-Kong, Mauritius, or the Australian Colonies, as such Books will not pass through Egypt, the rates of postage will be as follows:—

For a packet not exceeding 4 ozs. in weight	-	0s. 3d.
„ exceeding 4 ozs. and not exceeding $\frac{1}{2}$ lb.	-	0 6
„ exceeding $\frac{1}{2}$ lb. and not exceeding 1 lb.	-	1 0
„ exceeding 1 lb. and not exceeding $1\frac{1}{2}$ lb.	-	1 6
„ exceeding $1\frac{1}{2}$ lb. and not exceeding 2 lbs.	-	2 0

and so on, increasing Six pence for every additional half pound or fraction of half a pound.

“The terms ‘books, publications, or works of literature or art,’ in this Warrant used, shall, for the purposes of this Warrant, mean and comprise all such articles as, in their general character, are either literary, or consist of printed, written, engraved, or lithographed matter (although not strictly literary) including books (whether printed, written, or plain), publications or compilations (whether in print or in manuscript), almanacs, printed or lithographed letters, and such artistic productions, as prints, maps (whether on paper, or canvass, or cloth, and whether printed or written), and photographs, when not on glass, or in frames containing glass, and any description of paper, parchment, or vellum (whether printed, lithographed, written upon, or plain, or any mixture of the four), together with any binding, mounting, or covering, of or upon, or belonging to any such article or production, or any portion thereof, or of or belonging to any paper, parchment, or vellum, and including also any cases or rollers of prints or maps, book-markers (whether of paper or otherwise), pencils, pens, or other thing usually appertaining to any such article or production, paper, parchment, or vellum, or necessary for its safe transmission, which shall be sent in the same packet with any such article or production to which they or it shall belong: Provided, nevertheless, that nothing herein contained shall extend to authorise the sending by the Post, under the provisions of this Warrant, of any patterns, or books of patterns, or papers of patterns, of any article or thing whatsoever.”—(Extract from Treasury Warrant, dated 21st July, 1837.)

NEWSPAPER POSTAGE.

POSTAGE ON LETTERS VIA MARSEILLES.

"General Post Office, 25th November, 1856.

"SIR.—I am directed by the Postmaster General to inform you that a new Postal convention has just been concluded with France, and that the Provisions of this convention will come into operation, on the 1st January next.

"Among the advantages obtained by this country is a reduction in the amount of the transit rate paid to France, for the conveyance of that part of the India Mail, which is forwarded via Marseilles, from 1s. 8d. an ounce to 10d. an ounce, and in consequence of this reduction, the sum of three pence per quarter ounce, instead of 5d. per quarter ounce, will be chargeable, after the date above-mentioned, in addition to the uniform British and Colonial rate of six-pence per half ounce, upon all letters exchanged between the United Kingdom and Ceylon, making the total charge for a Letter.

s.	d.	
0	9	if not exceeding $\frac{1}{4}$ ounce.
1	0	if exceeding $\frac{1}{4}$ oz. and not exceeding $\frac{3}{4}$ oz.
1	9	if " $\frac{1}{2}$ oz. " $\frac{3}{4}$ oz.
2	0	if " $\frac{3}{4}$ oz. " 1 oz.
3	3	if " 1 oz. " $1\frac{1}{4}$ oz.
3	6	if " $1\frac{1}{4}$ oz. " $1\frac{1}{2}$ oz.

and so on.

This convention also reduces the charges upon Letters conveyed directly between France and Ceylon, and it has been agreed that upon all Letters forwarded between France and Ceylon, the entire British Sea Postage shall be collected in France, and accounted for to this Office.

Under this arrangement the Red Sea rate of one shilling the half ounce, hitherto levied in Ceylon, upon all Letters contained in the Mails to or from France will no

longer be chargeable, and no Postage for sea conveyance should hereafter be collected in Ceylon, either on the despatch of Letters to France, or on the delivery of Letters from France.

I have accordingly to convey to you the following instructions for your guidance.

1.—The reduced rate of nine pence per quarter ounce, and so on, to be collected upon all Letters prepaid in Ceylon, after the 1st January next, and forwarded to the United Kingdom via Marseilles.

2.—A corresponding reduction to be made in the postage of all prepaid Letters forwarded through the United Kingdom to British Colonies, or Foreign countries, when sent to the United Kingdom via Marseilles.

3.—No British Sea postage to be collected upon Letters or printed papers received in the direct mails from France, nor upon Letters and printed papers forwarded from Ceylon in the direct mails to France.

I am, &c.,
F. HILL."

GENERAL POST OFFICE, *Colombo*, 7th December, 1846.

THE subjoined copy of a letter from the Secretary to the General Post Office London, is published for general information.

GEORGE LEE,
P. M. General.

Circular.

"GENERAL POST OFFICE, *London*, 30th September 1846.

"SIR,—Much inconvenience and delay being frequently experienced, in consequence of parties residing in the British Colonies and other parts abroad (who may have occasion to complain of undue detention of their letters, or of such letters being charged with a higher amount of postage than that to which they are liable), omitting to forward to this office, with their complaints, the covers of the letters so delayed or overcharged; the Postmaster General is pleased to request that whenever application is previously made to you on the subject, (and in all cases when you have an opportunity of recommending the proper course to be pursued,) you will point out how important it is that the covers should invariably be transmitted: as much time will then be saved in investigating the complaint, and material assistance will be afforded to this department in ascertaining where the error has occurred.

To George Lee, Esq. &c. &c. &c. *Ceylon*.

"I am, Sir, &c. &c.
W. L. MADERLY."

Customs Regulations.

Regulations on Landing of Goods.

In landing the Cargoes of Vessels, the Masters or Supercargoes of which are Europeans, each separate boat-load shall be accompanied by a Note addressed to the Collector of Customs, specifying the number and description of the Packages, and the marks and numbers affixed thereon; or if in bulk, the quantity, as far as can be ascertained, of the Goods so sent by them; and if any Goods be found in any boat without a boat-note, or if being accompanied by such boat-note, the boat be found out of the proper track between the ship and the appointed place of landing, such boat, together with the Goods, may be detained; and unless the cause of deviation be explained to the satisfaction of the Collector, they shall be forfeited, as provided by the 22d clause of the Ordinance No. 18 of 1852.

Regulations respecting Goods in Transit by Mail Steamers.

All Goods in Transit by Mail Steamers, and declared to be so by the Master at the time of the ship's report, may be transhipped without Bond or Entry.

Goods arriving by Mail Steamers may be removed by land to any other Port, subject to the following regulations:—

Upon the Owner or his Agent making application to remove Goods, they will be delivered to be passed on to the intended Port under Bond, to the satisfaction of the Collector, for their due arrival at such Port: who, previous to the delivery thereof, will cause the proper Seals of Office to be affixed thereto; and if such Seals be broken, or if the Package at the Port of Discharge be found not to agree with the particulars given in the Letter of Advice from the Port of Removal, such Package, with its contents, shall be forfeited, and the Bond given for the safe delivery of the Goods will be enforced under the 41st clause of the Ordinance No. 18 of 1852.

Regulations for the Carrying of Goods Coastwise.

1. All Trade by sea from one part of the Island of Ceylon, to another part of the same Island, to be deemed Coasting Trade, and all Vessels while so employed therein shall be deemed to be Coasting Vessels, and no part of such Voyage shall be deemed to be beyond Sea.

2. The Master of every Coasting Vessel which is to depart from any Port of this Island, shall deliver to the Collector an Entry Outwards in his name, and under his hand, of the name and destination of such Vessel, her Tonnage, and the number of the Crew, and thereupon the Collector shall grant a General Sufferance and authority for the shipping and lading of all goods, except such (if any) as shall be thereon expressly exempted.

3. The Master shall record on the said Sufferance all goods taken on board his Vessel, viz., the No. and description of Packages and the qualities, description and value of the goods therein; distinguishing, 1st, Goods Ex the Warehouse under Bond; 2ndly, Goods Foreign and Import duty paid, and shall afford proof that such duties have been paid; 3rdly, Goods the produce of Ceylon.

4. When goods are shipped for more than one Port, or for any place not a Port, the Master shall note separately the goods for each Port or Place.

5. Upon the production to the Collector of the Sufferance thus duly recorded and signed by the Master, and upon the furnishing by him of any further information that may be required, the Collector shall grant a clearance, according to the statement rendered by the Master, of the several sorts of goods laden on board such Vessel, and if the Master's account be false, he shall forfeit a sum not exceeding £10, and all goods

not appearing on the Clearance as duly shipped, shall be liable to seizure and forfeiture.

6. Coasting Vessels may call at places and Out Bays at which no Custom House Office is stationed, and may under the written Permit of the Collector of the Province in which such place is situated, land or ship any goods specified in the said permit, and the Headman, (duly authorized by the Government Agent for that Province,) of any place at which a Vessel may anchor, discharge, or ship Cargo, shall require the Master of such Vessel to produce to him the Clearance or Permit of such Vessel, and the Headman is enjoined and required, frequently to visit such Vessel, to examine and take an account of the goods landed or shipped, to note and write such particulars upon the Clearance or Permit of the Vessel, to detain such goods as shall be illegally landed or shipped, and to report any irregularity to the Government Agent or the nearest Officer of Customs.

7. All Timber, Salt, Arrack, or other goods which may be landed or shipped at places not authorized by the Clearance or Permit of the Vessel, will be liable to Forfeiture and may be seized by the Headman of such place, who is immediately to report the detention of the goods to the Collector of Customs for the District.

8. All Timber shipped without Permit of the Government or Assistant Government Agent, or being found not to agree with the description or dimensions specified in the Permit, shall and may be liable to seizure and forfeiture.

9. Coasting Vessels shall be allowed as Stores for the use of the Seamen on board, only the quantity of Arrack or Rum sanctioned by the Government Proclamation of December 30th 1854, and the quantity so shipped as Stores, shall be so entered on the Clearance of the Vessel.

10. On the removal of goods from one Warehousing Port to another, the parties at the Warehousing Port shall enter into Bond in double the amount of the duties leviable, that the goods shall be delivered into the charge of the Officers of Customs at the Port of destination; and the Collector at the Warehousing Port where the goods are shipped shall advise the Collector (by Post) at the Port of destination, of the shipment of the same, and unless the goods be landed at the Port for which they are entered outwards, or be otherwise accounted for, to the satisfaction of the Collector, the Bond will be put in force, and in the event of any deficiency occurring between the Port of lading and the Port of discharge, the duty will be charged thereon.

11. All goods laden, waterborne, or unladen, contrary to the foregoing regulations, shall be forfeited, under the provisions of the 48th Clause of the Ordinance No. 18 of 1852.

12. No Vessel under 15 Tons burthen shall be employed in a Coasting Voyage, nor any Clearance or Permit granted to her, unless the Owner thereof shall have obtained from the Collector of the Port to which she belongs, a License, to be had on board on every such Voyage, specifying the name of such Vessel, the name of the Master, the name of the Owner and her Tonnage, and containing as many particulars of her dimensions and build as may be sufficient to identify her; but the Collector of Customs in each Province, may, if he should find it necessary, dispense in the case of Vessels and Boats plying solely on any Lake, Canal or River within his Province, with the Licenses, Suffrances and Permits aforesaid, and may substitute Boat Notes for Permits, &c.

13. The Tonnage of every such Vessel or Boat under 15 Tons shall be ascertained by measuring, 1st, The *Length between* the after part of the Stern, and the fore part of the Stern post; 2nd, The *inside Breadth* at midship; 3rd, The *Depth at midship*; multiply these three dimensions together, and divide the product by 130, and the quotient will be the amount of the Tonnage of such Vessels.

14. Before licenses, as hereinbefore provided for, be granted, the Vessel shall under the direction of the Collector of Customs, be inspected as to her being Sea-worthy, and her name, and the Port to which she belongs, shall be conspicuously painted on her Stern, and her Tonnage and No. of License marked upon the main Beam.

15. Licenses will be in force for the year in which they have been issued, and must be renewed immediately after the 1st January, in each year; all changes of Owners and Tindals, during the year, must be reported for endorsement upon the License by the Collector of Customs, and if the name of the person acting as Tindal, does not appear upon the License, the Officers of Customs may refuse to recognize or allow him to do business as such.

16. The wilful and fraudulent breach of these regulations will render the Vessel liable to seizure and forfeiture, and the Tindal or parties concerned to a fine not exceeding £10.

Double these rates will be charged on all Goods landed under the provisions of the 21st clause of the Ordinance No. 18 of 1852, which may not be entered or removed within Seven days. Goods left on the Quay, half of the above rates.

Goods brought to the Custom House for Exportation, and lodged in any of the Custom House premises, if not shipped within Two days, will also be charged half of the above rates.

Twenty-five per cent. will be deducted from the Rent for all time exceeding Fifty-two weeks. A week's rent will be charged for all fractions of a week.

Goods may be lodged in the Queen's Warehouse for a period of Seven days free of charge, when, if not entered and removed for consumption, or bonded, they will be liable to the rates abovementioned.

Port Dues.

Two pence per Ton for Entry Inwards and at the rate of Two pence per Ton for Clearance Outwards on all Ships and Vessels arriving at or departing from any Port of this Island. Provided always, that such Dues shall not be payable on any Vessel entering Inwards or clearing Outwards in Ballast, nor in cases when the cargoes are reported for Exportation, and ultimately the Vessel leaves the Port without breaking bulk, or taking in merchandize for the purpose of exportation.

No Vessel either at the time of entering Inwards with cargo, or at the time of clearing Outwards with cargo, shall be subject to pay more than Five pounds as Port Dues, whatever may be the Tonnage of the Vessel. Provided always, that a Vessel shall pay Port Dues only at one Port in this Island during the same voyage.

Any Vessel employed for the conveyance of goods between one Port and another in this Island only, shall be allowed to compound for Port Dues for Twelve months at the rate of One shilling per Ton of the registered tonnage; and on payment thereof, the Collector or other Principal Officer shall grant a Certificate, which shall exempt such Vessel, while so employed, from any further demand for Port Dues during the period stated in such Certificate.

HIS EXCELLENCY THE GOVERNOR has directed the following Extract from Her Majesty's Instructions to be published for general information.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 23d April, 1851.

C. J. MACCARTHY.
Col. Secretary.

Fortieth.—And whereas We have by Our said Commission appointing you Our Governor and Commander in Chief as aforesaid, given to you full power and authority in Our name and on Our behalf, but subject nevertheless to such provisions as are in that respect contained in your General Instructions, to make and execute in Our Name and under the Public Seal of Our said Island, Grants of Waste Land to Us belonging within the same to private persons, and for the Public uses of Our subjects there resident. Now We do hereby require and authorize you from time to time as occasion may require to cause all necessary Surveys to be made of the vacant or Waste Lands to Us belonging in Our said Island, and to cause the persons making such Surveys to report to you what particular Lands it may be proper to reserve for Public Roads or other internal communications by Land or Water, or as the Sites of Towns, Villages, Churches, School Houses or Parsonage Houses, or as places for the burial of the dead, or as places for the future extension of any existing Towns, or Villages, or as places fit to be set apart for the recreation or amusement of the Inhabitants of any Town or Village, or for promoting the Health of such Inhabitants, or as the Sites of Quays or Landing Places or Towing Patis, which it may at any future time be expedient to erect, form, or establish on the Sea Coast or in the neighbourhood of Navigable Streams, or as places which it may be desirable to reserve for any other purpose of Public convenience, utility, health or enjoyment, and You are specially to require persons making such Surveys to specify in their Reports, and to distinguish in the Charts or Maps to be thereunto annexed, such Tracts, Pieces or Parcels of Land within Our said Island as may appear to them best adapted to answer and promote the several purposes before mentioned. And it is Our Will, and We do strictly enjoin and require you that you do not under any pretence whatsoever grant, convey, or demise to any person or persons any of the Lands which may be specified as fit to be reserved as aforesaid, nor permit or suffer any such Lands to be occupied by any private persons for any private purpose.

Forty-first.—And We do further charge and require you not to make any Grant of Land to, or in trust for, or for the use of any private person unless in consideration of payment in money for the same after such Land shall have been previously put up for sale by Public Auction at such an upset price per acre as shall from time to time by Our authority be fixed for the same, and for this purpose you shall cause such Lands as from time to time shall remain unoccupied and ungranted to be put up for sale by Public Auction from time to time as you shall judge proper, and the highest bidding which shall at such Public Auction be made for any such Lands shall be accepted, provided that such bidding shall at least amount to such upset price per acre as aforesaid. Provided nevertheless, that no such bidding shall be finally accepted until the person or persons making the same shall have actually paid a Deposit of Ten per cent on the amount thereof, and shall have signed a Contract for the payment of the balance within one calendar month next thereafter. Provided nevertheless, and We do hereby declare, ordain, and appoint, that it shall be competent to you, on Our behalf and authority, in the execution of any direction which you may receive from Us through one of Our Principal Secretaries of State, to grant Land or Lands either in exchange for other Lands or in satisfaction of any equitable claim to Land. And it is Our Pleasure that all Grants of Land to be made by you in Our name to any person or persons in consideration of the payment of money for the same shall be made to such person or persons, and to his, her or their Heirs and Assigns, to be by him, her or them held in fee and common socage, yielding and paying to us, Our Heirs and Successors, a Quit Rent of one Pepper Corn by the year for the same, and every such Grant shall pass in Our name under the Public Seal of Our said Island of Ceylon, and shall be executed and delivered to the purchaser or purchasers, in such manner as has been customary, or as you shall judge fitting on the payment of the purchase money for the same, and not before; and then and not before the purchaser or purchasers shall be let in possession of the Land so bought by them; and for the delivery of every such Grant, and the preparing the same, the said purchaser or purchasers shall pay into the Colonial Treasury a fee amounting to forty shillings sterling money and no more, or of such smaller amount as you from time to time with the advice of the Executive Coun-

oil of Our said Island, shall appoint, and every such Grant shall previously to its being so delivered be enrolled in the Court of the District where such Land may be situate, and for making every such Enrolment the Registrar of such Court shall be entitled to receive from such Grantee or Grantees a fee of five shillings Sterling money and no more.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR is pleased to direct, that the undermentioned Minutes respecting the Scale of Fees chargeable by the Surveyor General's Department against purchasers of Crown Land, be cancelled, and that in lieu thereof the following Rules be observed:—

Minutes hereby cancelled.

Of the 22nd of November, 1845.
Of the 2nd of July, 1847.
Of the 16th of March, 1848.
Of the 18th of April, 1850.
Of the 2nd of December, 1853.
Of the 22nd of August, 1855.

RULES.

1.—All Crown Land will be sold by Auction, and no Waste Land will be exposed for Sale at a price below Twenty shillings per acre.

2.—The Surveyor General, in conjunction with the Government Agents, will make arrangements for bringing forward for sale, from time to time, such portions of Waste Land as may be by them deemed expedient.

3.—The preceding Rules shall not be held to preclude parties desirous of purchasing any particular tracts of Land, from applying to the Government Agent for the Sale of them accordingly. But the Surveyor General and Government Agents will exercise their own discretion in respect to complying with any such application, and the applicant will not be at liberty to enter upon the Land for any purpose, without permission of the Government Agent. It will also be distinctly understood, that the making such application will give the applicant no claim whatever to the Land, if put up for Sale, in preference to any other person.

4.—The following (reduced) Fees will be recovered by Government, in aid of the expenses incurred by the Surveyor General's Department, in the preparation of Land for sale, and completion of Title plans.

For the opening or defining of boundaries not opened, or incorrectly opened by the Proprietors of Land, their Agents or Managers, after such Proprietors or their Agents or Managers have received three weeks' notice, in writing, from the Surveyor General or Government Agent to open or define such boundaries, one Rupee per linear chain of boundary.

For appraisements, special surveys, or copies of documents, special terms will be made.

5.—Parties making application for the sale of any Land under the 3d Rule hereof, may be required by the Surveyor General or Government Agent to make a deposit, to the satisfaction of the latter officer, of the probable Survey Fees according to the scale in Rule 4.

6.—Copies of the Plans, when completed, will be lodged in the Office of the Surveyor General, where they will be marked off in a general Topographical index, which, with a Register, will be kept for public inspection, and Registers will also be kept for the same purpose at the Offices of the Government Agents, of the lands sold in their respective Provinces.

7.—The Sales will be held, when practicable, at the Government Agent's Office, twice a month, after Six weeks' public notice by Proclamation in the Government Gazette, and care will be taken to prevent the days of Sale in the several Provinces from interfering with each other.

8.—On the day of Sale the Government Agent will specify the preparation Fees recoverable through him by the Surveyor General's Department under this Minute, and will stipulate that they must be paid in full by the purchaser on the day of Sale, together with 10 per cent. on the amount actually bid for the Land.

9.—The balance of the purchase money must be paid within one month from the day of Sale, and in default of such payment the sale will be considered void, the 10 per cent. will be forfeited, and the Government will be at liberty to re-sell the Land.

10.—The following Fees for the preparation of Title Deeds must be paid into the Colonial Treasury.

On all grants of Land sold for a sum not exceeding £5.—one shilling.

For more than £5.—four per cent.

But in no case is such fee to exceed 40s. for any one grant; and the Secretary of the District Court of the District in which the Land granted shall be situate, shall be entitled to a fee of five shillings for enrolling the grant.

11.—On the receipt of the purchase money in full, and of the Fees enumerated in this Minute, the Government Agent will apply to the Colonial Secretary for a grant in Duplicate. One Copy shall be delivered to the purchaser, who shall forthwith be put in possession of the Land, and the other be enrolled in the District Court.

12.—The Crown reserves to itself the right of making and constructing such Roads, Bridges, Canals or Water-courses, as may be necessary for public purposes in all Lands purchased as above, and also to such indigenous timber, stone, clay, and other materials, the produce of the Land, as may be required for making and keeping the said Roads, Bridges, Canals or Water-courses, in repair, and for any other public works. The Crown further reserves to itself all mines of precious metals.

13.—This Minute to take effect from the 1st January, 1859.

By His Excellency's Command.

C. J. MACCARTHY.

Col. Secy.

Colonial Secretary's Office.
Colombo, December 15th, 1857.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR is pleased to direct that the following rules for the payment and adjustment of Costs attending the Survey of Lands intended to be brought to sale, be substituted for those laid down in the Minute of the 7th October 1844.

The Treasurer will, on his application, furnish the Principal Officer in charge of the Survey Department, with the necessary funds to meet the expenses of Survey; and he will debit these sums as advances, for the settlement of which the Principal Officer in charge of the Survey Department will be responsible.

The recovery of these sums from the purchasers of Land will be made by the

Government Agents and remitted to the Principal Officer in charge of the Survey Department, and by him forwarded to the Treasurer in liquidation of the advances outstanding.

If any Land is not sold within one year from the date of its being advertised for sale, the expense of Survey on account of such Land is to be brought to account as a charge by the Principal Officer in charge of the Survey Department—in order to which it will be necessary in all cases, that proper Vouchers should be obtained for every payment as incurred.

Should any such Land be afterwards sold, the costs of Survey recovered are to be paid by the Principal Officer in charge of the Survey Department to the Treasurer, to be accounted for as an Incidental Receipt.

The Principal Officer in charge of the Survey Department will transmit to this Office quarterly a Return of all unsold Lands, the expenses of surveying which shall have been charged as an expenditure—making a note of such as may have been subsequently sold.

He will also furnish the Auditor General with a quarterly Account of all payments made by him out of the Advances received from the Treasurer, and of the recoveries on account—accompanied by a separate Account of the payments finally brought to account, and of the recoveries since made.

These rules are not, however, to apply to the advances already made to Government Agents by the Treasurer, which they will settle in terms of the Minute of the 7th October 1844—returning to him any balance that may be now in their hands.

By His Excellency's Command,

P. E. WOODHOUSE.

Colonial Secretary's Office,
Colombo, 24th November 1845.

MINUTE.

BY THE GOVERNOR.

It being the desire of Her Majesty's Government, that advantage should be taken of the additions made, and about to be made, to the Department of the Surveyor General, under the Surplus Fund Ordinance,—in the first place, to bring to a settlement those native land claims, upon which a deposit was paid in 1848; and secondly, to facilitate the acquisition of Crown Land in small holdings, whenever a sufficient number of persons, Native or European, shall have made known, through the Government Agent, their readiness to become the purchasers of land in a particular District, and shall have made such Deposit as may be required, to prove the bonâ fide character of the application.

It is hereby made known,

1st. That the Surveyor General is authorised, and empowered, to cause lands thus applied for, to be surveyed, and put up to sale by Public Auction; and that he will be prepared, as the new organization of his Department advances, to commence this duty, in various parts of the Island, when the applications are sufficiently numerous.

2ndly. That the Survey will be, to all intents and purposes, an accurate, and registered Survey, the position of the Lots put up to Sale being defined by artificial Landmarks, as well as by the usual boundaries,—both, to be maintained at the cost, and upon the responsibility, of the purchaser, so that there will be no difficulty in incorporating the properties thus acquired with the Trigonometrical Survey of the Island, as it proceeds.

3rdly. That the Survey Plans delivered by the Surveyor General, will be detailed plans, and the Grants to be issued in conformity therewith, will give a legal Title to the land, whether the Trigonometrical Survey of the District be, or be not, completed, so that the land granted may be sold, mortgaged or otherwise alienated as at present.

4thly. The Surveyor General will publish certain Rules, with respect to the making, and upkeep, of Boundaries, with which every purchaser will be expected to comply.

By His Excellency's Command,

C. J. MACCARTHY,

Col. Secy.

Colonial Secretary's Office,
Colombo, 14th January, 1857.

NOTICE.

HIS EXCELLENCY THE GOVERNOR having received from His Grace the SECRETARY OF STATE the following amended Regulations relative to the privileges in the acquisition of Lands allowed to Military and Naval Officers purposing to settle in certain of the British Colonies, has directed the same to be published for general information.

By His Excellency's Command,

C. J. MACCARTHY,

Col. Secy.

Colonial Secretary's Office,
Colombo, 25th August, 1853.

Information for the use of Military and Naval Officers proposing to settle in certain of the British Colonies.

1. Privilege in the acquisition of Land are at present allowed to Military and Naval Officers in the Colonies of New South Wales, Victoria, Van Deimen's Land, South Australia, Western Australia, New Zealand, Ceylon, and the Cape of Good Hope. As, however, the controul of the Waste Lands of the Crown in New Zealand is vested in the Legislature of that Colony, it must be distinctly understood that Her Majesty's Government cannot guarantee the continuance of the following Regulations, but that they will be liable to be altered or discontinued by the local Legislature; and the same caution will be applicable to any other of the Colonies named, in which the same controul may hereafter be transferred to the local Legislature.

The same privileges are extended to Officers of the East India Company's Service in Van Deimen's Land.

2. In the abovenamed Colonies, land is disposed of by sale only; but Officers purchasing land, are allowed a remission of the purchase money, according to the undermentioned scale.

Field Officers, of 25 years' service and upwards, in the whole £600

Field Officers, of 20 years' service and upwards, in the whole 500

Field Officers, of 15 or less years' service, in the whole 400

Captains, of 20 years' service and upwards, in the whole 400

Captains, of 15 years' service or less, in the whole 300

Subalterns, of 20 years' service and upwards in the whole 300

Subalterns, of 7 years' service and upwards, in the whole 200

Subalterns, under 7 years' standing, are not entitled to any remission in the purchase of Land.

Regimental Staff Officers, and Medical Officers of the Army and Navy, are allowed the benefit of this Rule.—But Military Chaplains, Commissariat Officers, and Officers of any of the Civil Departments of the Army; Purser, Chaplains, Midshipmen, Warrant Officers of every description, and Officers of any of the Civil Departments of the Navy, are not allowed any privileges in respect of land. Although members of these classes may have been admitted formerly, and under different circumstances, they are now excluded. Rates in the Royal Navy rank with Ensigns in the Army and Rates of three years' standing, with Lieutenants in the Army, and are entitled respectively to corresponding privileges in the acquisition of lands.

3. In order to take advantage of this privilege, Officers of the Army and Navy, on full or half pay, should provide themselves with a Certificate from the Office of the General Commanding-in-Chief, or of the Lords Commissioners of the Admiralty, or of the Master General of the Ordnance, shewing that their settlement in a British Colony has been sanctioned, and stating their rank and length of service. No document from the Office of the Secretary of State is necessary.

4. This Certificate will not on any account be issued more than once to the same Officer, or to any Officer on half pay who shall for two years immediately preceding the date of this Notice have resided in the Colony in which he seeks to make it available.

5. Gentlemen who have ceased to belong to Her Majesty's Service will not be allowed advantages in the acquisition of Land. This rule, however, is not to affect Officers who, having obtained permission to settle in a British Colony, have quitted the service for the purpose of doing so. But, in such cases, it will be necessary that their Certificate of service and permission should bear the date of their retirement from the service, and that, within one year from that date, but not otherwise, it should be presented to the Governor of one of the abovenamed Colonies, which will be sufficient warrant for allowing the bearer the advantages to which his rank and length of service may entitle him according to the above scale.

6. The object of the Regulations being to encourage the permanent settlement in the abovenamed Colonies of Military and Naval Officers, and it being necessary to prevent those who have no intention of settling there from taking advantage of the privilege. Officers will not, for the space of two years from the making use of their Certificates, receive a Crown Grant for any Land purchased by such Certificates, but will, in the mean time, receive a "Location Ticket." At the expiration of two years, the Officer, on shewing to the satisfaction of the Governor that he is *bona fide* a resident Settler in the Colony, and has so resided continuously since receiving his "Location Ticket," will be entitled to a Crown Grant in exchange for it. It, however, application should not be made for the exchange of the "Location Ticket" within 12 months from the expiration of the two years for which it is granted, it will be considered to have lapsed, and the Land will be opened to sale or grant. In case of the Officers dying while holding a "Location Ticket," the Land to which it refers will be transferred to his legal representative.

In case of such death occurring before the "Location Ticket" is obtained, the Governor of the Colony is authorized to make the Certificate available in favour of the Child or other nearest representative of the deceased Officer, as he may find advisable.

7. For the convenience of Officers, the following heads are subjoined of the Rules for the sale of Land in the Australian Settlements:—

All Lands are disposed of by sale alone, and must have been once at least exposed to public auction.

The lowest upset price is not less than £1 per acre; but the Government has power to raise the same by Proclamation, though not again to reduce it.

The Lands are distinguished into three different classes; viz., Town Lots, Suburban Lots, and Country Lots.

Upon Town and Suburban Lots, as well as upon a proportion not exceeding one-tenth of the whole of the Country Lots offered for sale at any auction, the Governor has the power of naming a higher than the general or lowest upset price: these last to be designated "Special Country Lots."

Town and Suburban Lots are in no case disposed of except by public auction: but Country Lots, which have already been put up to public auction, and not sold, may be disposed of afterwards by private contract at the upset price.

No Lands are sold by private contract, except for ready money. When sold by public auction, one-tenth at least of the whole purchase-money must be put down, and the remainder within one calendar month, or the deposit is forfeited.

Lands are put up for sale in Lots not exceeding one square mile in extent.

8. In Ceylon, Land is sold by auction at an upset price, which is to be fixed by the Governor, but which is not to be less than £1 per acre. Before the Lands are exposed for sale, they will be surveyed by the Government, and duly advertised.

9. At the Cape of Good Hope the upset price is 2s. per acre in the old Colony, and 4s. per acre in the District of Natal.

10. The several prices above mentioned are of course subject to a revision at any time by the proper authorities, and the pecuniary amount of the Remission made to Officers cannot be increased on account of an increased value set upon the Lands.

July, 1853.

Salt.*Revised Regulations respecting the sale of Salt in the Northern Province.*

The following revised Rules regarding the issue of Salt for exportation from the Northern Province are published for general information.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 23th August, 1858.

C. J. MACCARTHY,

Col. Secy.

Charts compiled from the Surveys of the officers of the Indian Navy shewing the anchorage, and copies of sailing directions prepared by them in connection therewith, may be seen at the Offices of the Chief Secretary to Government at Fort William, the Colonial Secretary at Mauritius, and the Masters Attendant of Colombo and Galle.

The Salt will be shipped by and at the expense of Government if desired. The shipment of a cargo however cannot be guaranteed at any time out of the regular season for shipment as herein stated,* and in respect to any such shipment that may be made, the expenses actually incurred in respect to it must be paid in addition to the stated price of the Salt when shipped by the purchaser.

If desired, boats can be held in readiness from a fixed day to be named by the purchaser, at an extra cost of 1s. *cd.* per boat per day. In the absence of such arrangement, it will take from 1 to 3 days, according to the size of the vessel, to collect the full number of boats required, though shipment can commonly be commenced in all cases with a smaller number of boats within 36 hours of arrival.

The Salt will be sold both at Jaffna and at Colombo. As regards sales at Jaffna, the persons in charge of the Stores at Tondemanaar and Jaffna, are authorised to attend at once to applications, and to make arrangements for shipment, without the delay of reference to the Government Agent. The sales at Colombo and Galle will be made by the Collector of Customs at Colombo and Galle.

The quantity of Salt available will be published monthly or oftener as alterations in the quantity available may render necessary.

No Salt can be secured to any party in anticipation of the quantity that may become available. The available resources in men and boats being limited, not more than 100 tons can commonly be shipped in one day. This is published specially for the consideration of Commanders or Charterers of large Vessels, and also with reference to the consideration of there being more than one Vessel loading at the same time, to prevent disappointment from greater dispatch in loading, than is practicable, being expected.

All parties interested should also take notice that Export duty and Port dues will be payable.

Of the quantity that may be stated to be available, 500 Tons (when there is that quantity) will be reserved at all times to be at the disposal of the Colonial Secretary at Colombo. With reference therefore to any application that may be made at Jaffna when the stock on hand may not exceed 500 Tons, it would be necessary to ascertain that it had not been sold at Colombo, before such application could be complied with; and as regards the purchase at Colombo of any quantity exceeding 500 Tons there would be no guarantee as to the excess above that quantity being available on the arrival of the vessel.

* The season for shipment at Jaffna is during January and February from Mandativoe, and at any time from Kaits. From Tondemanaar, the season is from March to September.

Medical and Surgical Hints.

ACCIDENTS AND EMERGENCIES IN THE JUNGLE.

These hints and instructions are intended to meet the emergencies of the far-off world, where a case may be urgent, and the doctor beyond reach. It cannot be too earnestly insisted on that the first best thing to be done when an accident has happened, is to send away at once for the doctor; if much time must elapse before he can be brought to the spot, or if his assistance cannot be obtained, the next best course to be adopted shall be set forth in these pages, as shortly and intelligibly as possible. Happily for mankind, ordinary accidents require little more from the tenderness and intelligence of others, than the obvious suggestions of good sense, aiding the operations of nature, and committing to her the wonderful process of restoration, which to our encouragement, is often seen equal to the necessity of the case, and bringing about a perfect cure or a well-adapted compensation.

We shall treat in due order of Bruises, Sprains, Wounds, Bleeding, Scalds and Burns Broken Bones, Dislocations, Drowning, &c., Sundry Ailments, Useful Medicaments.

BRUISES.—The best application for a bruise, be it large or small, is moist warmth; therefore a warm bread and water poultice, or hot moist flannels should be put on, as they supply the skin, so that it yields to the pressure of the blood beneath, and thereby the pain is lessened. If the bruise be severe and in the neighbourhood of a joint, it is well to apply some leeches on grown-up persons, but not on young children, because the bleeding may be continued to a very serious extent. Ten or a dozen should be spread over the whole bruised surface, and afterwards a poultice, or flannels should be applied, to be continued so long as pain and swelling remain. If the bruise be on a joint, the poulticing will often require to be long continued, on account of the stiffness which may attend it, and when left off, it is advisable to wrap up the joint in a soap plaster.

Be cautious about the knee or ankle, because too early use of these parts after injury often lays the foundation for serious mischief, and in scrofulous persons, especially those who are young, may run on to the loss of a limb.

SPRAINS.—It is worse to sprain a joint than to break a limb; and sprains are among the most severe accidents to which we are liable, not only in present suffering, but in their results. In general, the treatment of a sprain is to be conducted as a bruise with perfect rest; and if it be a knee or ankle, the person should lie on bed or on a sofa. Warm, moist flannels, a bread and water poultice on going to bed, and if the pain and swelling be considerable, leeches. When the tenderness is subsiding, and only a little pain and stiffness in the joint remain, a vinegar poultice is a very good application, as it produces a diversion of the low inflammation going on in the ligaments by bringing out a crop of pustules on the skin, at a time when the pressure in rubbing with any stimulating liniment cannot be borne. Beware of too early use of a sprained joint, which often swells a long time after the injury; in which case it may be bound with straps of soap plaster, or a roller.

WOUNDS.—Cuts or chops, if they be not large, and have not divided any important parts, are the most simple and manageable wounds. A large piece of flesh, even a finger or a toe, may be cut or chopped off, and the wound heal kindly and readily under proper treatment. But, occasionally, a very trifling and simple cut, in an irritable or intemperate person, will prove fatal from locked jaw. If a cut or chop be not very deep, and if it do not bleed much, or even if it do bleed, but the bleeding can be stanchied by bathing for a short time with cold water, it is generally of not much consequence, and can be easily and simply treated. The corresponding edges of the wound are to be brought together as perfectly as possible, and while thus held, some strips of plaster are to be laid across the wound, with a small space between every two, so as to allow the escape of an oozing fluid, which often continues for some hours. The edges of the wound should not be dragged tightly together, but merely kept in place by the plaster; and if the wound be in the finger, arm, toe, or leg, it is better that the ends of the plaster should not overlap, as there is always a disposition to swell in the neighbourhood of the wounded part; and then if the ends do overlap, it forms a tight band, which at least causes unnecessary pain, even if it do not set up greater mischief. If common sticking plaster, or strapping, be not at hand, court-plaster may be applied, or thin bands of tow, wound lightly round the part, and smeared with gum water or white of egg smeared on linen; or, in the absence of all these, a soft bit of linen may be wound round the part, which is quickly moistened by the oozing from the wound, and as it dries the linen sticks pretty firmly together. Should the bandage, of whatever kind, become

tight by the swelling, and cause pain, it should not at once be taken off, but the blade of a pair of scissors should be carefully run beneath it, and it should be divided from end to end, on the opposite side to the wound. This generally gives instant relief, and the dressing requires no further meddling with. It is always better to leave the dressing as long as it remains fast, and without pain, usually three, four, or five days, and if then taken off, either the whole, or the greater part of the wound will be found united.

But if the wound, or its neighbourhood, become painful, and throb: the dressing must be removed, which is best done by soaking in water of an agreeable warmth, or by covering with a wet poultice, which after a few hours softens the dressing, so that it can be easily removed. If the wound be not inflamed, that is, red and tender, and if the discharge from it be good, that is, straw-coloured, and of a creamy consistence, the dressing may be re-applied; but if the edges be red and inflamed, or if they be pale and flabby, if the wound gape, if the matter be watery and stinking, then a single strap or band is to be applied to keep the edges near together, and the part must be covered with a poultice till the pain and inflammation cease, and the matter be of a good kind. Do not mess a wound with Friar's balsam, Tincture of benjamin, or such nostrums, as they hinder rather than encourage its union; and for the same reason, use no greasy applications.

A *clean stab*, if of depth, although it should not cause any serious mischief, generally does not heal so readily as a cut, because it often unites near the surface, whilst its bottom lodges matter: and therefore, although for some days it may seem to heal very steadily, yet then it becomes painful, the wound opens, a gush of matter follows, and this may be repeated once or twice before the cure is completed.

A *bruised cut*, is to be treated by endeavouring to unite the edges by sticking-plaster as in a clean cut; but if there be much bruising, the part destroyed must separate and be thrown off before the wound can heal. Apply a bread and water poultice first to moderate the inflammation; and as soon as matter begins to form, and the extent of the slough is marked, which is shewn by the dropping in of the dead part, with a narrow raw line between it and the living; then change it for a flinseed-meal poultice, which is to be continued till the slough is come out, and the gap is filled up with new flesh. When the new flesh gets above the edges of the wound, it is commonly known as *proud flesh*, and wrongly supposed to prevent the healing of the wound for it is in reality the material which is produced for that purpose. When the hollow of the wound has thus filled, the poultice may be left off, and the sore lightly bound with straps of sticking-plaster, or a linen bandage moistened with cold water, and tied a few turns round, will often answer the same purpose. If the new flesh rise ch above the wound, it must either be kept down by pressure, or it may be brushed off over with a bit of bluestone or blue vitriol; and sometimes merely a bit of dry will suffice.

BLEEDING—From a wound may generally be stopped by pressure;—if in the arm, near the arm-pit, let a by-stander press his thumb firmly into the neck, behind the middle of the collar bone; if in the thigh, the pressure is made immediately below the crease in the groin, the patient lying on his back. When the injury is below the middle of the upper arm, or below the middle of the thigh, recourse may be had to the stick-tournaquot, by passing a stout handkerchief once or twice round the limb, some distance, if possible, above the wound, and tied tightly and firmly. A piece of tough stick is then pushed beneath the circular bandage thus formed, between it and the skin, and twisted till the blood ceases to flow. The screwing should only be continued till the bleeding stop; for if the bandage and stick be strong, and the twisting be confined, the soft parts beneath may be severely and unnecessarily bruised.

SCALDS AND BRUISES—Require great promptitude and presence of mind. Be quick in removing the sufferer from the fire or hot water, and let him be put to bed immediately; cut the clothing off in pieces, and with much caution, as under rough handling the blistered or burnt skin may be torn off with it, and the accident rendered much more dangerous and difficult to treat. Remember, that as it is always hoped the scald or burn is confined to inflaming or blistering the skin, it is of the utmost consequence *not to burst the blister by tearing the skin, nor to let out the water it contains by pricking it*. If the skin be unbroken, dry or wet applications, as they are most handy, may be used; but if the skin be broken, wet applications, if they can be got at once, are best—otherwise dry ones must be used, the object being to protect the exposed sensitive true skin that lies beneath the scald skin, of which the blister consists, from the air, which renders it excessively painful.

The best and readiest dry materials are flour or cotton, or cotton wadding; the wet are spirits of turpentine, spirits of wine or good brandy, lime water and oil, lime water and milk, milk alone, or bread and milk poultice; and these wet applications must be made of sufficient warmth to feel comfortable to the finger, but not hot. Flour is

best dusted on with a dredger, and should be thickly strewed over the injured part and some little distance beyond it. A cambric or thin linen handkerchief, well floured, should be wrapped round it. Cotton should be carefully pulled, so as to be free from lumps or knots, but cotton-wadding is better; the unglazed side should be put next to the skin, in three or four thicknesses, and the whole confined with a roller.

Spirits of turpentine, or of wine, or any other spirits, heated by placing in a cup-full of warm water which the finger can bear, must be gently smeared over with a broad web of a feather, or a large camel's hair brush; this should be continued ten or fifteen minutes, after which, lint or soft linen thickly spread with a liniment of spirits of turpentine and yellow basilicon, should be applied and confined with a roller; the dressing should not be removed for twenty-four hours; then the part washed over with proof spirit, and the liniment as before re-applied immediately. The third dressing, twenty-four hours after, should have the liniment composed of the basilicon and camphorated oil; or, if this should be too sharp, calamine or zinc ointment, thickly spread on linen, may be applied and continued. This is known as Kentish's treatment, and is much practised in the coal districts.

If the scald or burn be very extensive, lime water and linseed oil is a most excellent application. One part of lime water must be mixed with two parts of oil, and stirred round quickly, with the hand; into this a sheet or large piece of linen is plunged and thoroughly soaked, then wrung out lightly, and quickly wrapped round the limb or body. Lime water and milk in equal proportions, or the milk alone, may be used in like manner. Bread and milk poultice, thinly spread, is also a very good application, and in burns, where the skin has been much charred or roasted, it is the best application from the beginning.

In about forty hours, if the blister look as if its contents were milky with a red line of inflammation round its edge, the water must be let out with a point of a large needle, or three or four snips with the scissors; it should then be pressed down with a wad of lint, with a dressing of simple wax and oil.

When the true skin has been destroyed, a linseed poultice must be applied and continued till the dead part or slough come away: this must then be dressed with calamine or zinc cerate, and rolled; or it may be protected by sitting flour, or starch, powdered chalk, or calamine powder, repeated two or three times a day, if need be, till a thick crust be formed.

Burns with lime must be treated with vinegar, which converts it into a harmless substance, and then a poultice or a dressing of ointment and a roller must be resorted to. Quicklime in the eye must be washed with vinegar and water; inflammation is sure to follow, and leeches may be applied, and diligent bathing with warm poppy water or simple warm water; a smart purge must also be given.

BROKEN BONES—With a broken arm, the least painful method is to put the fore-arm at a right angle with the upper in a broad sling, which will contain it from the elbow to the points of the fingers; walking will be attended with less pain than being moved in a carriage of any kind. For a broken leg or thigh; a hurdle, a door, or a shutter, covered with straw, coats, or blankets, should be laid by the patient's side, and he gently lifted upon it; let the sound limb be brought close to the broken one, and tie them both firmly together with two or three handkerchiefs, and place a pad of long straw along the outside of the limb to keep it steady; take care to lay the broken bone as near as possible in its natural direction, and remember, that if by careless or rough handling an end of the broken bone be thrust through the skin, the mischief is seriously augmented. Broken limbs should not be set, that is, bound up with roller, splints, and pads, for the first three or four days, as, for some hours, the part continues swelling; at first, then, lay the broken bone in as comfortable a posture as possible, and as nearly as can be in its natural direction, with perhaps a single splint, lightly bound, to keep it steady. A broken collar-bone, or broken ribs, however, require immediate attention; this latter accident may be known, if at every breathing, a stitch or prick in the side of the chest be felt, and if the hand be placed on this part, and the breath be drawn in deeply, the ends of the bone will be felt moving on each other and giving a sort of crackling feel; a flannel or linen roller, about six yards long and two hands-breadth wide, must be wound tightly round the chest, so as to prevent any motion of the ribs in breathing, which must be performed by the midriff alone; this renewed twice during the month will suffice. If the ribs be broken on both sides, or the breast bone, the bandage will do mischief: there is little for it but complete rest, and such accidents are very dangerous. If the collar-bone be broken, place high up under the arm-pit, a pad as big as two fists, and twice as long, and secure it there; secure the elbow to the side with a bandage, and place the elbow and the fore-arm in a short sling, which lifts up the shoulder, and should be tied on the neck on the sound side. The bandages must be worn a month.

An arm broken above the elbow may be thus treated. The immediate swelling

after the accident having subsided, the limb must be placed with the fore-arm bent at a right angle with the upper. The hand and arm are to be lightly swathed in a roller, the turns of which should over-lap each other, and be continued a little above the elbow; and then a long roller well soaked in gum water or stiff starch may be swathed round the upper arm, from the elbow to the armpit. The limb must then be laid carefully on a pillow, in, as nearly as possible, its natural position; and in the course of a few hours the gum or starch dries, and a tough, unyielding, well-fitting case encloses the arm, and rarely requires being meddled with till it be removed at the end of a month.

An arm broken below the elbow, if but one of the bones be broken, may be treated in the same way. If both bones be broken, two padded splints are required, extending from the tips of the fingers to the bend of the elbow in front, and to the point of the elbow behind. The fore-arm is now bent on the elbow: the splints applied, one before, the other behind, and both bound firmly to it with a roller, from the fingers up to the bend of the elbow. The arm then resting on its back is to be put into a sling; and the splints must be kept on a month.

A broken leg, in most cases, can be managed easily and well by merely rolling it, from the middle of the foot to the knee, in a long bandage, well soaked in thick starch or gum water, which is preferable. The limb is then laid on its outside upon a smooth pillow, and little further remains to be done till the end of the month, when it may be removed.

A broken thigh, though a much more serious accident than any yet mentioned, may be managed quite as easily, and, in many cases, if the person will be quiet, without any splints, although it is better to use them. The patient must be placed on his back upon a firm mattress, laid on a board resting on the bed frame, as the sacking sinks with the weight of the body resting on it for some weeks. Two thick pads are to be made, one to cover the whole of the inside of the sound knee; the other, the inside of the ankle of the same limb. Both limbs must now be laid close together, in the same straight line as the body, resting on the heels, with the toes right upwards, and the calves flat on the mattresses. Thus far done, the body must be kept immovable by one person, who grasps the hips with his two hands. A second person then takes hold of the broken limb with both hands, just above the ankle, and gently and steadily draws it down without disturbing its position, whilst a third places the knee-pad between the two knees, and the ankle-pad between the ankle. The gentle pulling being continued, the sound knee is brought close to that of the broken limb, but a little above it, so that it rests against the jutting inside of the joint, and then, both being kept close together, a pad, about as broad as the hand, must be turned round both legs, directly below both knees, and around his a roller, about three yards long, must be tenderly, carefully, and tightly wound, so as to prevent one knee slipping from the other. Both ankles are next to be tied together in the same manner, care being taken that that of the sound is above that of the broken limb. A small pad is now to be put between the insides of both feet, and this completes the whole business; which, however simple, has been attended with as many good cures as under the more difficult and complicated treatment.

Broken bones with wounds of the soft parts running down to them, or compound fractures, are very serious accidents, and are dangerous in proportion to the size of the wound, and the tearing and bruising of the soft parts. Where medical assistance cannot be obtained, the great object in the treatment is to make the case a simple fracture, by healing the wound as quickly as possible, which should be attempted by uniting the edges of the wound by bringing them lightly together with strips of sticking plaster, and the limb should be covered with a light, cold, wet linen cloth, repeatedly moistened by squeezing a wet sponge over it. If, happily, the wound heal soon, much of the dreaded danger ceases, and after a few days the accident is to be treated precisely as if there had been no wound.

Dislocation of the arm into the arm-pit may be thus reduced.—Let the patient and the person who is to pull the arm into place, both lie down on the floor on their backs, side by side, but in contrary directions. The operator then places a towel into the patient's arm-pit on which he plants his naked foot between the chest and the arm, using the right foot or the left, as the right or left shoulder is displaced. He then grasps the patient's wrist with both hands, and pulls the arm down steadily; at the same time he tells the patient to make some little change in his position; and thus inducing him to call some other muscles into motion, the resistance is for a moment suspended, and at that moment the operator pulls a little more vigorously, and generally the bone returns to its socket with a more or less loud snap.

DROWNING.—In carrying a person apparently drowned, care should be taken to keep the head a little higher than the trunk; if a house be near, let him be carried to it with all expedition, stripped, and placed between the blankets, which may have been warmed whilst stripping the body. If at a distance from a house, and the sun be powerful, he had better be at once stripped, and laid fully exposed to it, in such dry clothes as

may be procurable; the body should be wiped dry, the mouth cleared of the clammy froth, the head and shoulders a little raised, heat applied to the pit of the stomach and soles of the feet, and rubbing with a coarse flannel, or a jacket incessantly, over the body and limbs, but especially over the chest. The heat may be furnished by bottles of hot water, by hot bricks, sand, or ashes in woollen stockings, by a pan of warm coals, taking care it be not too hot, or even by immersion in a warm bath, if it can be had. Endeavour to get air out of and into the lungs, by pressing the chest and belly, but not so as to interfere with the rubbing, which is the principal thing to be relied on. This rubbing may be continued for some hours; there is a case on record of a person recovering when no sign of revival had appeared till the rubbing had been continued eight hours and a-half from the time of the accident. As early as possible, warm tea or weak wine and water, should be carefully given, taking especial care that it be put far back into the throat, or it may be poured into the windpipe and do serious mischief.

ACCIDENTAL POISONING.—If with *oil of vitriol* (sulphuric acid), give, as quick as you can, some strong soap, dissolved in warm water. If with *oxalic acid* (salt of sugar), give some *whiting* or chalk made into a thin cream with water, as quickly as possible.

In other cases of poisoning, give an emetic; to do this, take two teaspoonsfull of common flour of mustard, (even that in the mustard pot will do), mix this with a small tumbler of warm water.

LIME WATER.—Take half a pound of unslacked lime, and three-quarters of a pint of water, mix them slowly in an earthen pot, and after three or four hours, when the slacked lime has sunk to the bottom, pour off the clear fluid and cork it well, keeping the bottle from the light.

GOULARD WATER is made by dissolving one drachm of sugar of lead in a pint of soft water. When used for the eyes, two grains of the sugar of lead are to be dissolved in two table-spoonful of water.

The following are a few simple family medicines, with which no house should ever be unprovided:—

Castor Oil
Lenitive Electuary, or Confection
of Senna
Calomel
Tartarized Antimony
Iodide of Potash
Sulphate of Quinine
Ipecacuanha Wine
Mercurial or Blue Pill

Rhus, or Aloes and Myrrh Pill
Powdered Rhubarb
" Opium
" Gum
Oil of Cloves
" Peppermint
Carbonate of Lime
Croton oil

All these fluids and powders in stopped bottles.

CURE FOR SNAKE BITES.

The following method of treatment for the Bites of Snakes, Scorpions, Centipedes and other venomous creatures, has been extracted from the *Sydney Morning Herald*, and it has been considered advisable to adopt it without alteration, in justice to the subject and the writer.

IPECACUANHA, A CURE FOR VENOMOUS BITES.—You will oblige me by inserting the accompanying two cases, the result of the successful application of ipecacuanha, to the bites of venomous animals. One of my servants while bathing, felt something run into his foot, and on putting his hand into the water to ascertain what it was, received a similar injury on that member, but he succeeded in seizing the animal, which proved to be a fish about four inches' long, armed with two processes of bone close to the abdominal fin. The natives call the fish *Singhee*.—I saw the man an hour after the receipt of the wounds; he then complained of severe headache, had a hot skin, and general fever; the hand and arm, also the leg and foot, were very much swollen, and excessively painful, the pain shooting upwards; the lids of both eyes were also very much swollen. I mixed the ipecacuanha powder with water to the consistence of mustard, and applied it to the injured parts; in two minutes the pain had ceased, in an hour after the fever had left him, and in the course of two days the swelling in all the parts had entirely subsided. I was indebted to this hint to one of your correspondents, some three years ago, who wrote of the success that had invariably attended the application of ipecacuanha to the bites of the centipede. The second case was that of a palisoe bearer, who was bitten on the right foot by a snake; but, owing to its being at night, the animal escaped. When I saw him, some time after the receipt of the injury, he complained of the leg feeling heavy, and a gnawing pain

throughout the whole of the limb : it was cold to the touch, and swollen. The man was suffering from great depression of the vital powers, and prostration of strength. I gave him a tablespoonful of sal volatile in a little water; and on examining the foot, discovered the two punctures where the fangs had entered. I scarified the part freely, and put the whole of the foot into hot water, but it did not bleed freely. I therefore applied the cupping glasses to the calf of the leg in two places. In a quarter of an hour I gave him another tablespoonful of sal volatile, still keeping the foot in hot water; the heaviness of the leg was less, but the gnawing sensation continued. Three-quarters of an hour after I first saw him I applied the ipecacuanha paste; in less than five minutes the man told me his foot was quite light, and then the gnawing pain had entirely left it. The man remained in my verandah two hours, and had not any return of pain; he then went to his house in the neighbourhood, and the following day I heard he was free from pain, but that the leg was still swollen. For three days he applied goulard water, and in ten days came and made me a salami, perfectly well. The scarifications had not quite healed, but the leg was of the natural size. H. J. THORNTON, Assist. Surgeon.—*Hong-kong Gazette*.

SNAKE BITES.

To the Editors of the Sydney Morning Herald.

GENTLEMEN,—The kindness and humanity with which you some months since made room for a communication recommending the powder of ipecacuanha as a remedy for the bites of snakes, centipedes, and other venomous animals, lead me once more to request a corner for a further paragraph on the same topic. My former paper was simply a copy of a letter from the Government Medical Officer at Hongkong, Mr. Thornton, detailing with great clearness the curative effects of a simple poultice of the powder of ipecacuanha applied to wounds of the above description.

The account appeared to me so satisfactory, as to lead me to resolve to seize the first opportunity of testing the efficacy of the drug. No such occasion, however, presented itself until last Saturday, when an industrious neighbour was bitten in the foot while collecting wood in the adjoining bush. She returned home with her leg swollen to an extraordinary size, and suffering such an excruciating pain as to be prevented from attending her ordinary avocations. I did not hear of the accident till Monday, when, on inquiry, finding that the symptoms were in nowise abated, and that no medical assistance had been called in, a quantity of powder was sent for, and applied by an intelligent person in the form of a poultice, as directed by Mr. Thornton. On Tuesday morning the swelling had in a great measure subsided, the pain had ceased, and she was able to resume her usual work, and on Wednesday she was well.

The favourable impressions made by Mr. Thornton's letter were greatly confirmed by this case, and I think it ought to be generally known for the comfort and information of all who are exposed to such accidents, who are not a few. It will be generally a matter of difficulty to ascertain the character of the reptile inflicting the wound, as it is very likely to escape without detection; but if the drug shall be found deserving of the good character it has acquired in Hongkong, and which I am venturing to lay some claim for it here, it has the recommendation of being (as it is stated) effectual in the attacks of all the venomous creatures with which our bush is infested, and which add so materially to the hazards to which infant life is especially exposed, even in our cottage gardens and grounds.

It may be used in the simple form of a poultice, made without a moment's delay, and without the demand of any skill on the part of the person applying it; and moreover it does not interfere with or supersede any more scientific applications which may be adopted where medical assistance can be procured; but it appears to be capable of very salutary application when that assistance is at a distance or unattainable.

Since writing the above, another case of a snake bite has occurred, in which the wound was subjected to medical treatment with a successful result; the powder was also applied, but it would be impossible to say whether any share in the cure could be ascribed to it.

I beg to add, that I am a mere reporter of facts; not having the honor of any professional medical character, I should not be justified in offering any opinion on the subject.

I am Gentlemen, your obedient servant,

St Leonard's, North Shore, December 13.

STINGS, ETC.

(Communicated by W. G. Hall, Esq.)

"In connection with the useful remedies for the cure of Snake bites contained in p.p. 188 and 189 of the Almanac for the current year, you may possibly like to know, that the natives of this Island use a still more ready and simple remedy for stings from every

description of reptile,—viz., the common lime or shell-chunam, as used by them to chew with their beetle. I have seen scores of instances in others, and experienced on several occasions on my own person, that a little chunam made into a paste with simple water, and applied to the punctured part *immediately*, is an infallible and instantaneous cure for stings from Centipedes, and Scorpions; and have been assured by natives, that it is equally effectual in the stings of the Tarantula, and all other reptiles, except the "Cobra," the "Tie Polonga," and one or two other kinds of Snakes. Simple as this remedy is, and well known as it is throughout every part of the Island to the natives, I should refrain from calling attention to it were it not that I have known, and met several Europeans who had never heard of it."

DYSENTERY.

The following letter from Dr. Maxwell, Garrison Surgeon of Trichinopoly is republished from the Examiner, into whose columns it was copied from the Madras Spectator.

After alluding to a report of his own death, the writer says: "Several other deaths of old friends reported at the same time in the papers. I would fain hope may turn out as unfounded as my own,—but I fear this is a vain aspiration: they must be too true, especially those in Ceylon, where it is reported Dysentery is making sad work amongst the European residents; three of whom have already died in the Central Province. What can be the cause of this unprecedented, and almost constantly recurring mortality from that disease in Ceylon? Is it exposure or neglect, or the absence of Medical assistance, or what?"

I consider Dysentery very easily cured, if treated in time. I have seen much of it amongst all classes of men. Endemic dysentery and fever I consider one and the same disease, as Sydenham did long ago. I treat them both on the same principle and with the same medicines: and if the disease is treated in the same way in Ceylon, then I can only say it must be a fearful form of that scourge indeed, which appears to baffle medical skill.

I have been lately treating, and am at this moment, treating cases of that disease of the worst description.

The results of my experience I was at the very time sending, and am still sending, to Europe; when my death however was reported, and my attention diverted to its contradiction. It occurred to me that I could not do better than publish here also, the results of my experience: both as the shortest way of shewing that I was not only not dead, but even not asleep, as well as that it would prove of the greatest benefit and assistance to the poor sufferers in Ceylon.

My experience, then, in "ENDemic DYSENTERY," may be considered as condensed in the following case, which occurred only a few days ago. G. C. age 30—was in good health up to yesterday morning, since which he has been constantly purged, with griping and straining and passing of blood and mucus and fluid, like the washings of meat—cannot assign any cause.

Quinine	..	..	..	..	..	..	ten grains.
Brandy	..	..	..	..	..	..	one ounce.
Oil of Anisi	..	..	..	..	..	..	..
Cinnamon and Peppermint	..	..	..	..	..	..	a few drops of each.

Hot water a wine glassful.

In the evening the motions were less frequent and less bloody.

The dose was repeated.

The diet was chicken broth.

The drink lemonade.

In the morning the motions were nearly natural.

The dose was repeated.

In the evening the patient was convalescent.

N. B.—In cases still more severe and rapid, the above draught must be repeated oftener, according to the urgency of the case. The poor and those who cannot get quinine, must treat themselves, or be treated, in the manner I have related.

My friends must consider themselves indebted to you, for their having thus quickly received the above information through your Journal, instead of in Europe; and I cannot do less, in their behalf, than beg your acceptance of my works on these diseases published in 1838. Not that you may offer remarks on them, which they don't require, and I would rather not, but that you may have them for reference or for a knowledge of what has been written. They must, like all other works, contain numerous errors; but the structure remains—I mean that my views and treatment have not changed. Should any of my friends or any one else wish for further particulars on this head, I shall be most happy to afford it either by letter or through the medium of your paper, if you will afford it a place."

Treatment of severe and especially collapsed cases of CHOLERA, by Dr. W. G. MAXWELL. *Extracted from the "Home News" of September 10, 1855.*

HAVING observed in the HOME NEWS sad accounts of the ravages of cholera at Varna, both among the soldiers on shore and amongst the men of war, of its continuance even after the embarkation of the troops, and of their almost having fought the battle of the Alma while many of them were being more or less prostrated by the disease, I venture to offer the following observations in the hope of directing attention to a more uniform and successful treatment of the collapsed form of the great Leviathan pestilence.

I was formerly, and long, in the habit of treating all kinds of cholera alike, whether mild or severe, whether pulseless or not pulseless. Some of the equivocal cases recovered, but the majority of severe cases, and all the collapsed and pulseless cases, died. I now began to perceive that I had all along been deceiving myself: I had made no distinction between the different types and forms and stages of the disease, but had grouped all the cases together, the most mild with the collapsed; making it appear that I had been successful in an unprecedented degree. Many of the cases I had also not seen, but trusted to report. The true state of the case therefore was, that I had scarcely cured a case of severe cholera, and certainly none of true collapsed cases. The question then arose, what shall I do now? I still fondly clung to the hope of finding a specific. Nostrums were to be had at every turning. Every one had an infallible cure, urging me to try them. Inundated with these, and failing also myself, with the hundreds of remedies I continued to try, and having observed the fact recorded, that pulseless collapsed cases had recovered without medicine, I determined to witness one of these, and, in the meantime, to discontinue the use of all medicines in these collapsed cases.

I was called to see a case of pulseless collapsed cholera, in a female aged 12. At my next visit, the friends showed me another case, the grandfather of the girl; he had been ill for two days and nights, and had been laid out to die, in a separate place. Seeing the effect of my treatment on their daughter, whose case they themselves had considered hopeless, they resolved to try the same with their father, whom they now considered in a fair way of recovery. He had still a collapsed appearance, but there was an almost imperceptible pulse at the wrist, and some heat returning to the surface. At my visit next day he walked into the house to meet me.

There was now no doubt in my mind that the main cause of death in the majority of my pulseless collapsed cases of cholera was my injudicious and indiscriminate treatment with narcotics, &c. I therefore determined to abandon the principles of treatment I had long adopted, and to follow the advice of Sydenham and other old authors, viz., to support the powers of life with nourishing diluents; not to overpower (as I had been doing) the already enfeebled heart with narcotics.

It appeared at last, then, evident to me that the blood in cholera was not only losing its watery and saline portions, but was at the same time losing, and had lost much of its nitrogenous and non-nitrogenous compounds, and with these, the elements of respiration and motion; that is, the elements of combustion, or "fuel," or what we all know by the common word, support. By the time, too, that a cholera patient is generally first seen, he has lost many pints of fluids, and these more or less in a state of decomposition, thus shewing the state of the blood; the blood has also lost its supply of nourishment of the last 12 hours at least, and it has lost also that which it would have had on the day of the attack—a moment's reflection will shew what a loss it has sustained; in addition to all this, the remaining blood is itself in a state of change; its constituents are breaking up into new compounds inimical to combustion (respiration, life); it becomes more or less acid; its gaseous compounds begin to be devolved, and if support (fuel) is not soon supplied, the pulse stops, and the body becomes cold and clammy (exactly, so far like an artificial engine which stops and becomes cold) for want of water and fuel, both of which are contained in nourishing drinks.

Now, in cases of exhaustion or starvation, we do not give opium and narcotics to extinguish, as we know they would, the little remains of life (just as a flickering lamp is extinguished with too much oil), we give the natural nourishing drinks of whatever is presented to us by the bountiful hand of Providence. We give milk and gruel and jellies, and tea and whey, and barley-water and congee, and arrow-root and sugar, and chicken and mutton-broth, and beef-tea, &c.

* Observed by me in dissections of fatal cases of Cholera in Europeans and Natives—the veins half full of gases.

Yet how infinitely more, I thought, must these nourishing drinks be required in cholera, where there is not only far greater and more rapid debility and exhaustion, but where there is also a constant drain, and the blood itself in a state of decomposition. It was also evident to me that no medicine could supply the place of this natural nourishment to the system, and therefore till that nourishment, that support, that fuel, was supplied, the pulse would not return, nor warmth to the surface, but that life would continue to ebb till death ensued.

Reasoning after this manner and while collapsed cases were still continuing to die under my then treatment, I determined (as I have said) at once to abandon it, and to follow Sydenham whom I had so long neglected.

It was not long before I had an opportunity: an outbreak of cholera occurred in my immediate vicinity, and 57 pulseless and collapsed cases came under treatment. Several of them had been treated before with opium and other medicines; most of them were in the last stage; and most of the patients were in poor circumstances. I commenced the above system in every case as soon as I was called, and gave whatever drink I could get ready first; while that was being given, another kind was being prepared; they were generally given as hot as possible, and as often and as much as the patient wished, and they were relied greatly; the patients had, generally speaking, been drinking cold water for hours before I saw them. In some cases, the pulse returned in an hour, in other cases, not till after 12 hours; in an old lady of 79 or 80, the pulse returned in an hour after drinking three or four basins of chicken broth; in another case of a delicate lad who had been ill for 12 hours, the pulse did not return till after other 12 hours, during which he had taken the broth of five chickens; in other pulseless collapsed cases, of two day's duration, when gruel was the only drink given and the pulse returned.

Of the 57 cases, 47 recovered and 10 died.

Under my former treatment, all these 57 collapsed, pulseless hopeless cases must have sunk.

I will not enter here into any details, which would confuse or distract attention from the main object; suffice it to say that the above treatment must be continued till a copious warm perspiration takes place, which is the favourable crisis. Therefore remember this, and this too, that no medicine, no nostrum, no specific (so-called) can produce this; nothing, in short, but that pabulum vite, that support, that natural fuel, supplied with an unparing hand in an almost continued and uninterrupted stream.

The disease having terminated in a profuse, warm, critical perspiration, there will be little or no consecutive fever or sequelæ. The medical detail of this subject will be considered fully in the medical journals; suffice it here to remark, that if there has been neglect on the patient's part, or mismanagement on the part of the physician, and consecutive fever should have come on, then the same principles of treatment must be pursued, to produce, if possible, the natural cure, which is here also a profuse perspiration. Should not this soon occur, and the poisonous grass green bile not be eliminated and freely passed, then calomel with the vegetable bitters, &c., will here produce marvellous effects, if judiciously used, and aided by other means, indicated by any cerebral or other symptoms.

From the general tenor of the foregoing observations, the deduction or inference at the present crisis is plain, viz., that a Soyer should accompany each corps to the field, that he should have an ample organised establishment under him for the supply of refreshing drinks (quite independent of that for the supply of rations.) Let the soldier know that he can have at any time when exhausted, a refreshing beverage of smoking tea or coffee, &c. &c., and return again, with renewed energy, to the field; let the sick too, that fall out, be at once treated as I have described, and then, and not till then, will the mortality be lessened, and the miseries of these battle fields assuaged.

In conclusion, I need scarcely remark, that not only is a system of this kind indispensable to the soldier in the field of battle, but equally so in crowded towns and cities, when cholera breaks out amongst its poorest inhabitants.

W. G. MAXWELL, M. D.,
Superintending Surgeon, Malabar and Canara.

THE MARSHALL HALL METHOD

OF

TREATMENT IN CASES OF SUSPENDED RESPIRATION FROM DROWNING; CHILDREN
APPARENTLY STILL-BORN, ETC., ETC., ETC.*Dr. Marshall Hall's Instructions.*

- 1.—Treat the patient *instantly, on the spot, in the open air, exposing the face and chest to the breeze, (except in severe weather.)*

I.—TO CLEAR THE THROAT.

- 2.—Place the patient gently on the face, with one *wrist* under the forehead. [All fluids, and the tongue itself, then fall forwards, leaving the entrance into the windpipe *free*.] If there be breathing—wait and watch; if not, or if it *fail*—

II.—TO EXCITE RESPIRATION.

- 3.—Turn the patient *well and instantly* on his side, and
- 4.—Excite the nostrils with snuff, or the throat with a feather, &c., and dash cold water on the face, previously rubbed warm.—If there be *no success, lose not a moment, but instantly,*

III.—TO IMITATE RESPIRATION,

- 5.—Replace the patient on his face, *raising* and supporting the chest *well*, on a folded coat or other article of dress;
- 6.—Turn the body very *gently on the side and a little beyond*, and then *briskly* on the face, alternately; repeating these measures deliberately, efficiently, and perseveringly *fifteen* times in the minute, occasionally *varying the side*. [When the patient reposes on the chest, this cavity is compressed by the weight of the body, and *expiration* takes place; when he is turned on the side, this pressure is removed, and *inspiration* occurs.]
- 7.—When the *prone* position is resumed, *make* equable but efficient *pressure*, with brisk movement *along the back of the chest: removing* it immediately before rotation on the side. [The first measure augments the *expiration*, the second commences *inspiration*.]

* * THE RESULT IS,—RESPIRATION; AND, IF NOT TOO LATE,—LIFE!

IV.—TO INDUCE CIRCULATION AND WARMTH.

- 8.—Meantime rub the limbs *upwards*, with *firm grasping pressure* and with *energy*, using handkerchiefs, &c. [By this measure the blood is propelled along the veins towards the heart.]
- 9.—Let the limbs be thus warmed and dried, and then clothed, the bystanders supplying the requisite garments.
- 10.—*Avoid the continuous warm bath, and the position on, or inclined to, the back.*
